This solicitation amendment 005 is issue to respond to Bidder's questions, modify the bid solicitation and to extend the bid closing date of the bid solicitation.

A. QUESTION

Question 7:

Do you accept Palladium(II) nitrate dihydrate with CAS number of 10102-05-3 and 99.8% (metals basis), Pd 39% min?

Answer 7:

Yes

Question 8:

Regarding Amnd 4, answer #5, both products you are looking for are not in stock. Considering the fact that the award date of this tender is not specified so providing the CoA at the time of the bid would not make sense since that batch that we are going to deliver is not produced yet. Would it be acceptable to provide the CoA of previous batches?

Answer 8:

The CoA of the produced precursors is required to ensure that the product meets the specifications of metal content and purity.

Question 9:

Based on the attached addendum, point no. 6 – we (and my understanding all Canadian suppliers) will not be able to comply with the C of A request.

I am being told that the manufacturer of the required chemical supplies all the potential bidders and therefore none of us would have a lot specific C of A and would only have a general one, and we would not be able to supply the updated C of A until process of the amount you are requesting.

Answer 9:

A general C of A is acceptable. However, an actual C of A will be required of the provided product.

B. MODIFICATIONS

1. At Part 5.2.3, Additional Certifications Precedent to Contract Award

INSERT:

5.2.3.2 Certificate of Analysis

Bidders must provide the Certificate of Analysis for the items identified in Annex A – Requirement, prior to Contract Award.

2. At Annex A, Part 2 – Mandatory Technical Evaluation Criteria

DELETE:
