This solicitation amendment 006 is issue to respond to a bidder questions and to modify the bid solicitation.

A. QUESTION

Question 10:

A Certificate of Analysis is a document which shows the results of tests made on the chemicals, after it is manufactured. As such, it does not make sense to ask for bidders to provide it before contract award. The CoA could only be provided once the contract is awarded, the chemical is manufactured, the tests are done and results are known in form of a CoA. A "previous" CoA for the similar chemicals manufactured in the past could however be submitted with bids. Could Please kindly change the requirement.

Answer 10:

Yes, a "previous" CoA for similar chemicals manufactured in the past could be provided. However, the Contractor must provide the actual Certificate of Analysis for both the palladium(II) nitrate hydrate (1.6kg) and tetraammineplatinum(II) nitrate (1.3kg) powder precursors to the Technical Authority after Contract award and prior to shipment. The Technical Authority must approve the Certificate of Analyses prior to shipment.

B. MODIFICATIONS

1. At Part 5.2.3, Additional Certifications Precedent to Contract Award

DELETE:

5.2.3.2 Certificate of Analysis

Bidders must provide the Certificate of Analysis for the items identified in Annex A – Requirement, prior to Contract Award.

2. At Annex A, Part 1 – Requirement, Article 2.1 Deliverables

INSERT:

The Contractor must provide the actual Certificate of Analysis for both the palladium(II) nitrate hydrate (1.6kg) and tetraammineplatinum(II) nitrate (1.3kg) powder precursors to the Technical Authority after Contract award and prior to shipment. The Technical Authority must approve the Certificate of Analyses prior to shipment.

ALL OTHER TERMS AND CONDITIONS OF THE ORIGINAL SOLICITATION REMAIN UNCHANGED
