Bidders should reference as accurately as possible the numbered item of the bid solicitation to which the enquiry relates. Care should be taken by bidders to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the question(s) or may request that the Bidder do so, so that the proprietary nature of the question(s) is eliminated, and the enquiry can be answered to all Bidders. The Correctional Service Canada (CSC) has a requirement to collect and dispose of wet organic waste accumulated within the sites listed in the deliverables.

The work will involve the following:

1.1 Background:

CSC does not have the internal resources required to complete this work

1.2 Objectives:

The Contractor must provide bins of sufficient construction, configuration, and quantity to hold a full charge of wet organic wastes accumulated at the sites listed below (the “collection sites”), and have on hand sufficient numbers of bins for the quantities and schedule below, including clean bin exchange. The Contractor’s Bin must not exceed 120L volume in size and have wheels and handles to allow for full bin movement. Bins must be such that they can be reasonably moved manually from site storage areas to loading areas with minimal risk of injury or spilling. Bins must have fitted lids to reduce decay, odour, and access for vermin. CSC will not accept dumpsters.

1.3 Tasks:

- a. Replace organics storage bins worn or damaged through normal use, as required, at no cost to CSC.
- b. All bins provided under this contract remain the property of the Contractor.
- c. Contractor to manually move filled bins from the on-site storage locations to truck loading area as required. Not every provided bin will be filled on every pickup occasion at the sole discretion of the CSC representative on site.
- d. Loading areas vary between sites, and include grade level pickup, full-height docks with levellers, and intermediate height static docks. Collection vehicles must be appropriate to accommodate infrastructure variances (e.g., truck with tailgate hydraulic lifts).
- e. Cleaning of bins on CSC property by the Contractor is strictly prohibited. Only two organic waste collection methods are acceptable:
 - i. one-for-one bin exchange swap at time of collection with clean bins; or
 - ii. bin liner dump and return of existing bins. The Contractor must supply a new clean bin liner for each emptied bin at no additional cost to the CSC.

1.4 Deliverables:

- a. The Contractor must collect organic waste materials from the sites specified and according to the frequency in the table below. The approximate current annual quantity of organic waste generated, provided for reference, is 750 tonnes. The Contractor must provide the number of bins in the table below to each site as a minimum, at any time.

COLLECTION SITE	COLLECTION FREQUENCY	MINIMUM WEEKLY BINS ON SITE
Millhaven Institution	Monday, Wednesday, Friday	8
Bath Institution	Monday, Wednesday, Friday	20

- f. General requirements and implications of the work include:
 - i. Collection sites are correctional institutions with restricted access and movement. As part of site security requirements, CSC staff will inspect and search the Contractors staff, load and vehicles for contraband before granting access to the site;
 - ii. At contract award, the Project Authority must approve the pickup schedule proposed by the Contractor. If the Contractor has a scheduling conflict throughout the contract period, the Contractor must receive approval in advance for the new pickup schedule from designated CSC site representatives. Note that access to CSC sites is typically restricted to the

- Mandatory Technical Criteria

It is imperative that the proposal address each of these criteria to demonstrate that the requirements are met.

- 1.2 LISTING EXPERIENCE WITHOUT PROVIDING ANY SUBSTANTIATING DATA TO SUPPORT WHERE, WHEN AND HOW SUCH EXPERIENCE WAS OBTAINED WILL RESULT IN THE STATED EXPERIENCE NOT BEING CONSIDERED FOR EVALUATION PURPOSES.
- 1.3 All experience must be strictly work-related. Time spent during education and/or training will not be considered, unless otherwise indicated.
- 1.4 Experience must be demonstrated through a history of past projects, either completed or on-going.
- 1.5 References must be provided for each project/employment experience.

1.6 Response Format

- I. In order to facilitate evaluation of proposals, it is recommended that bidders' proposals address the mandatory criteria in the order in which they appear in the Evaluation Criteria and using the numbering outlined.
- II. Bidders are also advised that the month(s) of experience listed for a project or experience whose timeframe overlaps that of another referenced project or experience will only be counted once. For example: Project 1 timeframe is July 2001 to December 2001; Project 2 timeframe is October 2001 to January 2002; the total months of experience for these two project references is seven (7) months.
- III. For any requirements that specify a particular time period (e.g., 2 years) of work experience, CSC will disregard any information about experience if the technical bid does not include the required month and year for the start date and end date of the experience claimed.

IV. CSC will also only evaluate the duration that the resource actually worked on a project or projects (from the start date to end date), instead of the overall start and end date of a project or a combination of projects in which a resource has participated.
