Amendment № 10

This amendment is raised to answer bidder's questions.

QUESTIONS AND ANSWERS

Question #16, in relation to revision #20

Given the limited number of network environments in Canada that service 200,000 end users, in the spirit of better competition, we would like to ask Canada to update the requirements of the tender Notice to include one of the two options;

a) If the Mandatory Technical Criteria for bidders in MTC3 (page 102 of the RFP) could be lowered to networks of 20,000 end users, or,

b) If references outside of Canada can be considered by the bidder's global affiliates to satisfy the above requirement.

Response #16a): The number of users in MTC3 has been lowered from 200K user or more to 50K or more users.

Response #16b): Please refer to the response provided to question #13 on solicitation amendment № 007.

Question #17:

We would like to submit the following question with respect to the subject solicitation:

Both MTC5 and RTC5 request detailed information on network analysis and network baselining/benchmarking. Could the Crown please describe what type of information it is looking for in response to the following items:

- Metrics captured and reporting results
- Duration of data capture
- Type of baseline reporting generated

Response #17:

- Metrics captured and reporting results – A description of the types of network metrics captured to establish a network baseline or benchmark at a point in time. What types of reports were produced that were used to compare baseline performance, against performance after network improvements or infrastructure changes were implemented.
- Duration of data capture – How long were the network statistics captured in advance of determining the network baseline or benchmark?
- Type of baseline reporting generated – List and describe the reports that were generated to compare baseline or benchmark network performance, against the network performance once improvements or network infrastructure changes were implemented.

ALL OTHER TERMS AND CONDITIONS REMAIN UNCHANGED
