This Solicitation Amendment No. one (001) is raised to include the following addendum no. 001.

The following addendum to the tender documents is effective immediately. This addendum shall form part of the contract documents.

All other terms and conditions remain the same.

Addendum No. 001.

Q1. For the bolting of the 6" x 8" hardwood fenders, could ¾" diameter sheathing bolts be considered over the ¾" diameter hex bolts which require the bolt locations to be countersunk?

A1. The proposed substitution is a suitable alternative.

Q2. Please provide additional details on the 100mm New Backwall. No details regarding the connection to the wales or spacing and sizing of the timber is provided beyond "100mm".

A2. Refer to detail 1/M2/M3 for timber sizes, connections, and top & bottom wale spacing. Middle wale to be located as show on 1/M2/M6.

Q3. The Anchor Wall Detail (Detail 1B/M3/M3) appears to show the tie-rod as being 65mm dia. However, Section – Wharf Reconstruction (1/M2/M3) has the tie-rods labeled as 50mm dia. Please confirm which size is correct.

A3. Use 50mm Tie-Rods and adjust sleeves, nuts and hole diameters to suit.

Q4. Note 7 on page M3 states that the Pile Caps are Cast-In-Place, however the Wheel Guard Elevation (8/M4/M4) on page M4 calls them out as Pre-Cast Pile Caps, if the client intends for these to be pre-cast please provide further details on how the pile caps are to be secured on to the piles, and if there is to be a lining in the indents for the piles.

A4. Pile caps to be "Cast-In-Place"
