Title:
Coastal Erosion Armour Stone installation, Fortress of Louisbourg National Historic Site

Amendment 001

The following is hereby amended:

- A. Answer questions from bidders

A. QUESTIONS AND ANSWERS

Q1. I see this tender out for armour stone and I wanted to reach out and ask you, besides yourself who would be the best person to reach out to regarding an alternate product for some Parks Canada Erosion Protection areas.

We distribute a Product called Flex MSE.
It is an Environment Friendly Vegetated retaining Wall system which could also be used in erosion, shoreline and streambank Protection areas.

A1. Thanks for the interest. We will be using armour stone on this project as it is an ocean side installation with extreme wave, storm surge, and tidal action as per the design.

ALL OTHER TERMS & CONDITIONS REMAIN UNCHANGED
