Solicitation Amendment 003

Solicitation Amendment 003 is issued to answer the following questions:

Q1. Do you require unloading at the delivery destination?

A1. No, we have fork lifts, cranes and riggers to handle it.

Q2. Item 1.1.5, Considering the minimum inside dimension of the oven you are looking for, the lowest exterior height of oven will be 129". Would it be acceptable?

A2. As per solicitation amendment 002, maximum height can be increased to 130".

Q3. All electrical components of the unit we are going to offer is NFPA86 and UL508a certified. Would it be acceptable as an equivalent of CSA?

A3. All CSA equivalent methods are outlined in the specification. The electrical components as a whole must be certified by one of the CSA or equivalent 3rd parties. All certifications must be completed prior to delivery.

Q4. What is the product that the end user wants to cure/Dry? (ie steel, aluminum, plastic, etc.).

A4. Large Industrial motors, generators, stators, windings, armature, etc.

Q5. What are the approximate dimensions and weight of the product (each part AND total weight in the oven at one time)?

A5. Parts will vary each time the oven is used. At this time, the largest single piece that will go in is approximately 48" x 48" x 48", but is not solid through the centre, and weighs about 1000lbs; however this is subject to change to larger heavier pieces in the future.

Q6. What is the normal operating temperature?

A6. 350-500 degrees Fahrenheit.

Q7. Will the parts be loaded into a preheated oven or will the oven be starting from "cold" every batch?

A7. Oven will be started cold each batch, preheated to the desired temperature, and then products will be loaded into the oven.

CCC No./N° CCC - FMS No./N° VME

Q8. Are there any solvents or volatiles on the product that will be present in the oven? If so, how much will be in the oven (maximum) per batch?

A8. Yes, there will be volatiles in the oven, and it is estimated to be around 0.65 USG per batch.

All other terms and conditions remain the same.
