Amendment 004 is raised to answer bidder questions

- Q1. With reference to Annex A, Powder Management Unit
-Unit Dimensions (WxDxH): Maximum of 53in x 32in x 84in
-Unit Weight: Maximum of 1,200lbs
As the end user accepts both integrated powder handling system and a separate system, above requirements do not make sense. The machines with integrated powder handling system has bigger overall dimension and cannot be compared with the machine which has separate powder handling system. Each manufacturer has its own solution for powder handling and the shape and dimension is not a key factor at all. this requirement only limits number of qualified suppliers. We kindly request Canada to remove these requirements from the solicitation.
- A1: As per Amendments 001 and 002 both of these requirements have been removed.
- Q2. With reference to Annex A, Powder Management Unit: Please confirm DND requires inert version of powder management unit.
- A2: DND requires an inert powder management unit.

ALL OTHER TERMS AND CONDITIONS REMAIN UNCHANGED
