

**Location of installations for boreholes and pumping tests - East Area**

- Pumping well (to construct)
- Existing observation well
- Observation well (to construct)
- Treated groundwater discharge point
- Temporary discharge line (untreated groundwater) (~60m)
- Temporary discharge line (treated groundwater) (~175 m)
- Mobile groundwater treatment unit (with watertight containers upstream/downstream)
- Cleared work area
- Municipal boundaries
- TCE plume limit (2019) - Upper unconfined deltaic aquifer
- TCE plume limit (2019) - Semi-confined deltaic aquifer
- Property boundaries - DND
- Access road (gravel)
- Highways/Roads/Streets
