## **AMENDMENT 002**

**DELETE** the following item:

### **7.8 Call-up Procedures**

1. Best Standing Offer: the offer that provides best value will be retained.

The Project Authority will establish the scope of work to be performed by the successful firm and negotiate the level of effort required to perform the work based on the hourly rates contained in the Standing Offer.

and

**INSERT** the following revised item:

### **7.8 Call-up Procedures**

1. Proportional basis: call-ups shall be issued on a proportional basis such that the offeror of the highest ranked standing offer receives the largest predetermined amount of the work, the offeror of the second highest ranked standing offer receives the second largest predetermined amount of the work, etc. This call-up procedure will be followed, unless an offeror did not perform satisfactorily on previous call-ups and a decision has been made not to call upon them again or if they are unable to respond within the specified response time or provide the requisite service, then another offeror may be contacted to perform the work.

For each individual Call-Up, contractors will be approached and considered using a Distribution System. This system will track all call-ups assigned to each contractor and will maintain a running total of the Value of Business Distributed. The system will contain for each contractor an Ideal Business Distribution percentage which has been established as follows; 45% of the business for the top ranked consultant, 30% for the 2nd ranked consultant and 25% for the third ranked consultant. In the event fewer than three (3) consultants are successful, the work distribution will be modified in similar proportions. The contractor who is furthest under the ideal amount of business that they should have received in relation to the other consultant will be selected for the next call-up.

The Technical Authority will establish the scope of work to be performed by the successful firm and negotiate the level of effort required to perform the work based on the hourly rates contained in the SO.

Offerors estimated proportion based on Evaluation is:        %
