Amendment 001

This amendment 001 is raised to respond to questions from Industry.

Questions from Industry:

Q.1. What level of clearance would bidder representatives need in order to attend the site visit on September 24th?

A.1. The level of clearance required for the site visit on September 24th is enhance reliability.

Q.2. Under 2.8 Mandatory Site Visit states "*it is mandatory that the Bidder or a representative of the Bidder visit the work site to be held at NETE facility in LaSalle, Quebec on Saturday, September 24th, 2022. The site visit will begin at 10:00 EDT.*"

Touring the facility on this date does not provide the insight required to fully understand the nature of the conduct of work at this location. Would it be possible to modify this date to a business day (Monday to Friday) so our Team can be given the opportunity to witness the operation of the facility with the personnel included. This access would give the Team a complete understand of the plant operations.

A.2. It is not possible to have the site visit on a business day because of classified and commercial in confidence information at the NETE facility during working hours. The site visit will remain as per Section 2.8 of the RFP.

Q.3. For the Mandatory site visit, can you please confirm that all personnel visiting on that day hold a SECRET clearance?

A.3. The level of clearance required for the site visit on September 24th is enhance reliability.

All other terms and conditions remain unchanged.
