

Solicitation #5000069334 – Rotary Chairs
Questions – Answers

N*	Questions	Answers
1	Will each shipping location be able to accommodate a 53 ft trailer? If not, what is the max. truck length the location is able to accommodate?	The max we can accommodate is a 26 ft trailer.
2	<p>In response to the requirement for e3 Level 3 - Level 3 has no force or effect on the physical technical design, engineering, dimensions, relevant features, and adjustable functions needed to satisfy actual operational requirements, mainly ergonomics, accessibility, and sanitization. As such, and in compliance with the WELL Building Standard v1, a Level 2 rated product stands an equal chance to meet the operational requirements of Level 3 and still meet the requirements set forth in the WELL Building Standard v1. Further, the difference between obtaining a Level 2 vs. a Level 3 is based on a minimum point criterion that is not all-inclusive and only a very few criteria are actually product related. Canada has not outlined this criterion present in Level 3 pertinent to this RFP to ensure alignment of the product being offered is the same between all respondents.</p> <p>For these reasons we respectfully request that a minimum Level 2 product also be accepted.</p>	Negative, ECCC requires it to be level 3.
