

ANNEX B TECHNICAL EVALUATION CRITERIA

Mandatory Technical Criteria

At closing, the Supplier should comply with the following Mandatory Requirements and provide the necessary documentation to support compliance of its proposed investigator (s). Investigator (s) which fail to meet the mandatory technical criteria may be prevented from participating in future traditional competitive requirements solicitations and will be given no further consideration. Each requirement should be addressed separately.

All Suppliers are advised that only listing experience without providing any supporting data to describe when, where and how such experience was obtained will not be considered to be “demonstrated”. All professional experience must be fully documented and substantiated in the submission.

For evaluation purposes:

- Where means the name of the employer;
- When means the start date and end date (e.g. from January 2014 to March 2016) of the period during which the firm acquired the qualification/experience; and
- How means a clear description of the activities performed and the responsibilities assigned under the project and during this period.

Offerors are advised that the month(s) of experience listed for a project whose timeframe overlaps that of another referenced project will only be counted once. For example: Project 1 timeframe is July 2011 to December 2011; Project 2 timeframe is October 2011 to January 2012; the total months of experience for these two project references is seven (7) months.
