For the Minister - Pour le Ministre		

Amendment 001 is raised to answer questions and amend the following sections of the Request for Standing Offer:

Q1) Why is there no battery racks being quoted?

A1) This request does not include any racking. This is a request for single cell batteries to fit a pre-fabricated existing racking system. The batteries are requested to fit into existing racks.

Q2) Is this just a like for like replacement of individual cells from the existing manufacturer

A1) See Q1

Q3) Regarding the 2V batteries, in Annex A, Table 2, the required capacity range is 300-500 AH. However, in Annex B, the required capacities are Nominal 300AH (+/-10%) and Nominal 470AH (+/-10%).

Can you confirm what capacity is exactly required? Do you accept any capacity between 300-500 AH for this type or the offered battery must be in the range of 270-330 AH and 423- 517 AH as stated in Annex B?

There are same questions for table 3 and 4 of the Annex A. Please advise what capacities are required.

A3) This request is for single cell 2V batteries for capacities as stated in **Annex B**:

- **ITEM 1A (TSOR TABLE #2):** Quote one (1) single cell configuration for each of the following capacities: x **Nominal 300Ah (+/-10%)** at C/8 @ 1.75 VPC
- **ITEM 1B (TSOR TABLE #2):** Quote one (1) single cell configuration for each of the following capacities: x
 - **Nominal 470Ah (+/-10%)** at C/8 @ 1.75 VPC
- **ITEM 1C (TSOR TABLE #3):** Quote one (1) single cell configuration for each of the following capacities:
 - **Nominal 680Ah (+/-10%)** at C/8 @ 1.75 VPC
- **ITEM 1D (TSOR TABLE # 3):** Quote one (1) single cell configuration for each of the following capacities:
 - **Nominal 690Ah (+/-10%)** at C/8 @ 1.75 VPC
- **ITEM 1E (TSOR TABLE #4) :** Quote one (1) single cell configuration for each of the following capacities:
 - **Nominal 1100Ah (+/-10%)** at C/8 @ 1.75 VPC
- **ITEM 1F (TSOR TABLE # 4):** Quote one (1) single cell configuration for each of the following capacities:
 - **Nominal 1200Ah (+/-10%)** at C/8 @ 1.75 VPC

Q4) Regarding the 2V batteries, we need a clarification about the container requirement. Do you require an extra supportive metal container for the batteries, or the body of batteries must be made of metal?

Please note almost all of the battery's cases are made of ABS material.

A4) Often 2V cells are transported individually and integrated into existing racking. It is required that the cells are provided with a means to support manual lifting and transport. It is expected this will be in the form of an external metal shell complete with carrying handles.

AT PART 6 - STANDING OFFER AND RESULTING CONTRACT CLAUSES

PART B. RESULTING CONTRACT CLAUSES

DELETE:

6.4 Payment

6.4.1 Basis of Payment

In consideration of the Contractor satisfactorily completing all of its obligations under the Contract, the Contractor will be paid the firm unit prices specified in Annex 'B'. Customs duties are included and Goods and Services Tax or Harmonized Sales Tax is extra, if applicable.

INSERT:

6.4 Payment

6.4.1 Basis of Payment

In consideration of the Contractor satisfactorily completing all of its obligations under the Contract, the Contractor will be paid the firm unit prices specified in Annex 'B'. All applicable Custom duties and Excise taxes not included. Freight and shipping charges not included. Goods and Services Tax (GST) and/or the Harmonized Sales Tax (HST) not included.

DELETE:

ANNEX B – Pricing Schedule and Basis of Payment in it's entirety

INSERT:

ANNEX B – Pricing Schedule and Basis of Payment

Offerors must provide firm unit prices in Canadian dollars, FCA Free Carrier (Contractor's Facility), with all applicable Custom duties and Excise taxes not included. Freight and shipping charges not included. Goods and Services Tax (GST) and/or the Harmonized Sales Tax (HST) not included
