Amendment 3:

This amendment is raised to extend the bid solicitation period to October 31, 2022 as per the cover page of this amendment, and distribute questions received from potential bidders and answers by Canada.

These questions and answers will be added to the Annex C – Bidder's Questions and Canada's response at contract award.

Questions and Answers:

1. Can Canada please provide recent hazardous materials (asbestos/lead/other) surveys and/or management plans that Transport Canada or Northumberland Ferries would of have had completed for the Holiday Island?

Answer by Canada: There are no reports available from any recent hazmat surveys. There is a years old management plan, but it is not a currently valid document – only an indication of a past condition. (See attached)

2. Can Canada please provide up to date (digital) stability book, structural drawings, tank plans, docking plan, etc. for the Holiday Island?

Answer by Canada: Except for a tank capacity plan previously provided (see attached) the requested documents are not available in digital format. Paper copies are held onboard the ship and the successful contractor will have access to them after contract award.

3. Can Canada provide up to date tank soundings/volumes for all fluids onboard the Holiday Island?

Answer by Canada: See attached for copy of last onboard soundings.

4. Have all hydrocarbons been removed from Holiday Island?

Answer by Canada: Yes. Only residual volumes remain consistent with tanks which have not been cleaned.

5. Can Canada provide most recent inspection certificate for Holiday Island?

Answer by Canada: See copy attached.

6. Can Canada provide most recent Division 3 Report for Holiday Island?

Answer by Canada: Not currently available. Will be provided to successful contractor after contract award.

CCC No./N° CCC - FMS No./N° VME

7. Can Canada confirm the Holiday Island is currently in-class with a recognized organization (RO)?

Answer by Canada: Yes. Further to Q5 above, vessel has been confirmed to still be in class following the fire incident.

8. We would like to submit a request for a HAZMAT report for the MV Holiday or a list of unit rates to submit for HAZMAT.

Answer by Canada: An Hazardous Material Inventory is currently being carried out, however, it won't be available before bid closing and contract award. The HMI will only be provided as a reference document only. Canada will not be responsible should different types, quantities and locations of hazmat be found on the vessel. The Contractor is responsible to make its own assessment.

Attendees at the vessel viewing were given the opportunity to take samples and assess the hazardous vessel during the vessel viewing.

ALL OTHER TERMS AND CONDITIONS REMAINS THE SAME.
