## **AMENDMENT #002**

This amendment solicitation is raised to answer question(s) from the industry.

\*\*\*\*\*

**Please see Amendment #001 for question and answer #1.**

\*\*\*\*\*

**Questions #2 and #3 from the industry:**

### **QUESTION 2:**

Is the intent that the RCMP will issue multiple contracts that cover specific areas of Canada, or is the intent that there would be one provider for the RCMP towers across Canada? For example, is the RCMP open to having separate providers in Atlantic Canada, Western Canada, Ontario, Quebec, Northern Canada, etc.? or is it required that a single succeeding bidder be able to cover all requirements for all towers in Canada?

### **ANSWER 2:**

The intent is to award only one Contract to the successful Bidder for the Maintenance and Support Services (M&SS) to all RCMP antennas systems in Canada.

Canada consents that some part of the Work be performed by a subcontractor, but the Contractor is responsible for performing the Contract and Canada is not responsible to any subcontractor. The Contractor is responsible for any matters or things done or provided by any subcontractor under the Contract and for paying any subcontractors for any part of the Work they perform. The Contractor will have to ensure that the subcontractor is bound by the terms and conditions of the Contract.

### **QUESTION 3:**

Is there an estimated number of towers that would have to be covered by the succeeding bidder for maintenance and support services per year? I note that it says on an 'as and when requested' basis, but do you have an estimation on quantity to be inspected and maintained each year?

### **ANSWER 3:**

No there is not an estimated number of towers that would have to be covered by the succeeding bidder per year. You are correct, it is 'as and when requested' basis, that said, the RCMP has legal obligations to ensure the safety of its members and general public under the Canadian Labor Code and the Canadian Occupational Health and Safety Regulations. As a result, the RCMP will ensure that all its radio communication towers are compliant with applicable standards under Canadian Standards Association (CSA) S37-(18) whereby self support towers are inspected and maintained within 6 years and guyed towers within ever 4years.

**ALL OTHER TERMS AND CONDITIONS OF THE BID SOLICITATION REMAIN UNCHANGED**
