Questions / Answers

Question 1 /Answer 1 (in red):

Can Canada clarify the following items related to Annex A PWS, Section 6.8, Mission Sparing Support – Air Demonstration Deployments with one PUK:

- Who will be responsible for the Pack Up Kit (PUK) Bill of Material?
The Life Cycle Material Manager in conjunction with the J85 Technical Manager and Technical Advisor will be responsible for developing and maintaining a PUK bill of material.
- What will the Squadron's responsibilities be for PUK staging and replenishment requirements given the contractor is only responsible for a 2nd Line Maintenance storage location (Sloc).
431 Sqn will be responsible for providing the necessary information to size the PUK, and also for making the necessary replenishment demands in the Canadian Forces (CF) Supply system.
- Who will be responsible for PUK shipping and logistic administration (preparation of dangerous goods shipping requirements, etc...)?
The CF Supply System.

Question 2:

Part 1 – General Information, Section 1.2.2 states "The Contract extensions will be exercised and awarded based upon the successful achievements as identified in Part 7 Annex D, Performance Management Specification". Contract extensions will be awarded at the sole discretion of Canada.
