Bidders should reference as accurately as possible the numbered item of the bid solicitation to which the enquiry relates. Care should be taken by bidders to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the question(s) or may request that the Bidder do so, so that the proprietary nature of the question(s) is eliminated, and the enquiry can be answered to all Bidders. Enquiries not submitted in a form that can be distributed to all Bidders may not be answered by Canada.

5. Applicable Laws

In their technical bid, Bidders should explain and demonstrate how they propose to meet the requirements and how they will carry out the work.

To facilitate bid evaluation, Bidders may use the Mandatory Requirements and Rated Technical Criteria Spreadsheet in Annex B to provide information needed to substantiate the training and experience claimed. It is not mandatory for Bidders to use the Mandatory and Rated Technical Criteria Spreadsheet to submit a bid. However Bidders are encouraged to do so to facilitate evaluation of their bid.

1.1 Technical Evaluation

1.1.1 Mandatory Technical Criteria

1.2 Financial Evaluation

SACC Manual Clause A0220T (2014-06-26), Evaluation of Price - Bid

Bidders only have to submit an hourly rate for on-call services for their financial proposal.

Proposals containing a financial bid other than the one requested at **Article 3. Section II: Financial Bid** of **PART 3 – BID PREPARATION INSTRUCTIONS** will be declared non-compliant.

Note to Bidders: Table Totals will be calculated using the formula(s) in the relevant table in **Annex B – Proposed Basis of Payment**.

2. Basis of Selection

2.1 To be declared responsive, a bid must:

- a) comply with all the requirements of the bid solicitation; and
- b) meet all mandatory technical evaluation criteria.

2.2 Bids not meeting a) or b) will be declared non responsive.

The responsive bid with the lowest hourly rate for on-call services will be recommended for award of a contract.

If the information is not provided in the bid, the Contracting Authority will so inform the Bidder and provide the Bidder with a time frame within which to meet the requirement. Failure to comply with the request of the Contracting Authority and meet the requirement within that time period will render the bid non-responsive.

PART 5 - CERTIFICATIONS AND ADDITIONAL INFORMATION

Bidders must provide the required certifications and additional information to be awarded a contract.

The certifications provided by Bidders to Canada are subject to verification by Canada at all times. Unless specified otherwise, Canada will declare a bid non-responsive or will declare a contractor in default if any certification made by the Bidder is found to be untrue whether made knowingly or unknowingly, during the bid evaluation period or during the contract period.

The Contracting Authority will have the right to ask for additional information to verify the Bidders' certifications. Failure to comply and to cooperate with any request or requirement imposed by the Contracting Authority may render the bid non-responsive or constitute a default under the Contract.

1. Certifications Precedent to Contract Award and Additional Information

The certifications and additional information listed below should be submitted with the bid, but may be submitted afterwards. If any of these required certifications or additional information is not completed and submitted as requested, the Contracting Authority will inform the Bidder of a time frame within which to provide the information. Failure to provide the certifications or the additional information listed below within the time frame provided will render the bid non-responsive.

During the period of incarceration, inmates are provided with a range of coordinated health services that are accessible, affordable, and appropriate to the correctional environment

1.0 Background:

- 1.1 CSC has a legal obligation, under the Corrections and Conditional Release Act (CCRA), to “provide every inmate with essential health care and reasonable access to non essential health care”.
- 1.2 The Commissioner’s Directives 800 series are the key references on essential health services covering Clinical services, mental health and public health services.
- 1.3 The mission of Health Services is to provide offenders with efficient and effective health services that **encourage individual responsibility, promote healthy reintegration and contribute to safe communities.**
- 1.4 Consistent with its transformation agenda, CSC recognizes that health outcomes are a shared responsibility between service providers and inmates. Inmates must be involved in taking responsibility and proactive measures to safeguard their health, which includes dental health.
- 1.5 Health Services are provided in ambulatory Health Service Centres in institutions, regional hospitals and regional treatment / psychiatric centres. Inmates may have to go to the community for emergency services, specialized health care services and for hospitalization that cannot be accommodated in CSC’s regional hospitals. In CSC, health care is provided by a wide range of regulated and non-regulated health professionals.

Annex D – Evaluation Criteria

1.0 Technical Evaluation:

1.1 The following elements of the proposal will be evaluated and scored in accordance with the following evaluation criteria.

- Mandatory Technical Criteria

It is **imperative** that the proposal **address each of these criteria** to demonstrate that the requirements are met.

1.2 LISTING EXPERIENCE WITHOUT PROVIDING ANY SUBSTANTIATING DATA TO SUPPORT WHERE, WHEN AND HOW SUCH EXPERIENCE WAS OBTAINED WILL RESULT IN THE STATED EXPERIENCE NOT BEING CONSIDERED FOR EVALUATION PURPOSES.

1.3 All experience must be strictly work-related. Time spent during education and/or training will not be considered, unless otherwise indicated.

1.4 Experience must be demonstrated through a history of past projects, either completed or on-going.

1.5 References must be provided for each project/employment experience.

I. Where the stated experience was acquired within a Canadian Federal Government Department or Agency **as a Public Servant**, the reference must be a Public Servant who had a supervisory role over the proposed resource during the stated employment.

II. Where the stated experience was acquired within a Canadian Federal Government Department or Agency **as a consultant**, the reference must be the Public Servant who was identified as the Project Authority of the project on which the proposed resource acquired the experience.

III. References must be presented in this format:

- a. Name;
- b. Organization;
- c. Current Phone Number; and
- d. Email address if available

1.6 Response Format

I. In order to facilitate evaluation of proposals, it is recommended that bidders' proposals address the mandatory criteria in the order in which they appear in the Evaluation Criteria and using the numbering outlined.

II. Bidders are also advised that the month(s) of experience listed for a project or experience whose timeframe overlaps that of another referenced project or experience will only be counted once. For example: Project 1 timeframe is July 2001 to December 2001; Project 2 timeframe is October 2001 to January 2002; the total months of experience for these two project references is seven (7) months.

III. For any requirements that specify a particular time period (e.g., 2 years) of work experience, CSC will disregard any information about experience if the technical bid does not include the required month and year for the start date and end date of the experience claimed.

IV. CSC will also only evaluate the duration that the resource actually worked on a project or projects (from the start date to end date), instead of the overall start and end date of a project or a combination of projects in which a resource has participated.

1. Background / Contexte

Correctional Service Canada (CSC) is mandated, under the Corrections and Conditional Release Act (CCRA), to "provide every inmate with essential health care; and reasonable access to non essential health care"

When health care is provided to inmates, the Service shall

(a) support the professional autonomy and the clinical independence of registered health care professionals and their freedom to exercise, without undue influence, their professional judgment in the care and treatment of inmates;

(b) support those registered health care professionals in their promotion, in accordance with their respective professional code of ethics, of patient-centered care and patient advocacy; and

(c) promote decision-making that is based on the appropriate medical care, dental care and mental health care criteria

The Commissioner's Directives 800 Health Services and its associated guidelines are the key references on essential health care.

Health care services must respect gender, cultural, religious and linguistic differences.

In order to support inmates in taking responsibility for proactively safeguarding their health, CSC provides:

- information and education on health promotion and disease prevention
- direct health care services

En vertu de la *Loi sur le système correctionnel et la mise en liberté sous condition* (LSCMLC), le Service correctionnel du Canada (SCC) est tenu de « fournir aux détenus les soins de santé essentiels et un accès raisonnable aux soins non essentiels ».

Lorsque des soins de santé doivent être dispensés à des détenus, le Service :

a) soutient l'autonomie professionnelle et l'indépendance clinique des professionnels de la santé agréés ainsi que la liberté qu'ils possèdent d'exercer, sans influence inopportune, un jugement professionnel dans le cadre du traitement des détenus;

b) soutient ces professionnels de la santé agréés dans la promotion, selon leur code de déontologie, des soins axés sur le patient et de la défense des droits des patients;

c) favorise la prise de décisions fondée sur les critères appropriés en matière de soins médicaux, dentaires ou de santé mentale.

La Directive du commissaire 800 – Services de santé et les lignes directrices connexes constituent les principaux documents de référence sur les soins de santé essentiels.

Les Services de santé doivent respecter les différences liées au sexe, à la culture, à la religion et à la langue.

Pour aider les détenus à assumer leurs responsabilités afin qu'ils prennent des mesures proactives pour protéger leur santé, le SCC fournit:

- des renseignements sur la promotion de la santé et la prévention des maladies;
- des soins de santé directs.

Within CSC Institutions, health care is provided in Primary Care Health Centres (PCHC), Intermediate Mental Health Care Units, Regional Continuing Care Centres (RCCC), and Regional Treatment / Psychiatric Centres and other health care units as designated by the Commissioner.

Au sein des établissements du SCC, les soins de santé sont offerts dans des centres de soins de santé primaires (CSSP), des unités de soins intermédiaires de santé mentale, des centres régionaux de continuité de soins (CRCS), des centres psychiatriques/de traitement régionaux et d'autres unités de soins de santé désignées par le commissaire.

Inmates may have to go to the community for emergency health care, specialized health care, hospitalizations, and other essential health care that cannot be accommodated within CSC.

Il se peut que les détenus aient à se rendre dans la collectivité pour recevoir des soins d'urgence, des soins spécialisés ou d'autres soins de santé essentiels ou pour être hospitalisés lorsque ces soins ne peuvent être offerts dans un établissement du SCC.

Health care means medical care, dental care and mental health care, provided by registered health care professionals or by persons acting under the supervision of registered health care professionals.

On entend par soins de santé les soins médicaux, dentaires et de santé mentale fournis par des professionnels de la santé agréés ou par des personnes agissant sous la supervision de professionnels de la santé agréés.

The purpose of this Framework and the National Formulary is to promote consistency in the provision of health care across CSC.

Le présent Cadre et le Formulaire national ont pour but de favoriser l'uniformité dans la prestation des soins de santé à l'échelle du SCC.

2. Health Services Executive Team (HSET) and National Medical Advisory Committee (NMAC) / L'équipe de direction des Services de santé (EDSS) et Comité médical consultatif national (CMCN)

The Health Services Executive Team (HSET), based on the advice of the National Medical Advisory Committee, approves the essential health care framework, provides ongoing oversight of the delivery of health care, and ensures accountability, consistency, cost effectiveness, and best practices specific to the needs of CSC's population.

L'Équipe de direction des Services de santé (EDSS), selon les conseils du Comité médical consultatif national (CMCN), approuve le cadre relatif aux soins de santé essentiels, assure la surveillance continue de la prestation des soins de santé et veille à la responsabilisation, l'uniformité, la rentabilité et l'établissement de pratiques exemplaires propres aux besoins de la population du SCC.

The essential health care guidance document is reviewed by the NMAC and approved by HSET annually.

Le document d'orientation sur les soins de santé essentiels est examiné par le CMCN et approuvé annuellement par l'EDSS.

3. Access to essential Health Services / Accès aux services de santé essentiels

Self-referral: Inmates may initiate access by submitting, in confidence, a request for health care services, indicating the reason for the request. The requests are reviewed, prioritized according to urgency.

Aiguillage effectué à la demande d'un détenu : Les détenus peuvent présenter, à titre confidentiel, une demande de services de santé en précisant le motif de leur demande. Les demandes sont examinées et classées en ordre de priorité en fonction de leur niveau d'urgence.

Staff referral: Staff may make a referral on behalf of an inmate.

Aiguillage effectué à la demande d'un membre du personnel : Un membre du personnel peut effectuer un aiguillage au nom d'un détenu.

Walk-in: Some Primary Care Health Centres (PCHC) have "drop in hours" where inmates can be seen by showing up at the Centre.

Sans rendez-vous : Certains centres de soins de santé primaires (CSSP) ont des « cliniques sans rendez-vous » durant lesquelles les détenus peuvent être vus par un médecin lorsqu'ils se présentent.

Visits with Physicians/Specialists (including Psychiatrists) and other health care professionals are pre-booked according to need.

Les visites avec des médecins ou des spécialistes (y compris des psychiatres) et d'autres professionnels de la santé sont réservées à l'avance en fonction des besoins.

When inmates are referred to community medical/psychiatric services, they are subject to the same waiting periods as community members.

Lorsque des détenus sont aiguillés vers des services médicaux/psychiatriques dans la collectivité, ils sont assujettis au même délai d'attente que les membres de la collectivité.

The use of private clinics for the provision of essential health care is not permitted in CSC.

Au SCC, il est interdit d'avoir recours à des cliniques privées en vue de la prestation de soins de santé essentiels.

Accessing community services may be impacted by the operational requirements of the institution.

Les exigences opérationnelles de l'établissement peuvent avoir une incidence sur l'accès aux services dans la collectivité.

Centres correctionnels communautaires (CCC)

Les délinquants dans les CCC ont le droit de recevoir des prestations d'assurance-maladie et d'invalidité conformément aux critères applicables aux autres résidents de la province ou du territoire. Cependant, pour assurer la sécurité publique, lorsqu'il existe des lacunes ou des retards liés à la couverture provinciale des services de santé, le SCC fournira, à titre provisoire, des soins de santé essentiels aux délinquants qui résident dans les CCC.

Les soins de santé des délinquants dans les établissements résidentiels communautaires (ERC) sont la responsabilité des provinces et des territoires.

Dans des circonstances exceptionnelles où il est consigné qu'il faut assurer la sécurité publique, sous réserve de l'approbation du directeur régional, Services de santé (DRSS), le SCC fournira, à titre provisoire, des soins de santé essentiels pour combler les retards dans la couverture provinciale/territoriale des soins de santé.

Reducing/Removing barriers to Provincial Health Insurance and Disability Benefits

CORRECTIONAL SERVICE CANADA

SERVICE CORRECTIONNEL CANADA

Health outcomes are a shared responsibility between service providers and inmates.

Inmates are expected to assume responsibility for safeguarding their health.

In meeting its mandate to provide essential health care, CSC should not normally exceed the level of health care available through provincially public-funded health and social services programs.

In developing the essential health care framework, CSC considers the nature and level of health care coverage provided by provincial/territorial publicly funded health care systems.

Incarceration presents an important public health opportunity to promote and protect the health of a population with a high comorbidity of diseases at high risk of contracting and spreading infectious diseases.

These principles recognize that the determination about which service is required for an inmate relies on the judgement of the healthcare professionals, based on a sound clinical assessment guided by professionally accepted standards of practice.

Les prestataires de soins et les détenus sont conjointement responsables des résultats dans le domaine de la santé.

Les détenus devraient assumer la responsabilité de la protection de leur santé.

Normalement, dans l'exécution de son mandat relatif à la prestation de services essentiels, le SCC ne doit pas dépasser le niveau des services de santé disponibles dans les réseaux de santé publics et de services sociaux provinciaux.

Dans le cadre de l'élaboration du cadre des soins de santé essentiels, le SCC tient compte de la nature et du niveau de la couverture des soins de santé fournie par les réseaux de santé publics provinciaux/territoriaux.

Sur le plan de la santé publique, l'incarcération est une occasion de favoriser et de protéger la santé d'une population ayant un taux de comorbidité élevé, ainsi qu'un risque élevé de contracter et de propager des maladies infectieuses.

Ces principes reconnaissent qu'il appartient aux professionnels de la santé de décider des services à dispenser aux détenus, en fonction de l'évaluation clinique effectuée, et conformément aux normes professionnelles acceptées.

The requested special authorization must be recommended by the Institutional Physician/Nurse Practitioner or Dentist along with the medical justification for the request.

Gender Dysphoria specialized services require endorsement by a health care professional in gender identity, as well as approval by the surgeon to perform certain surgical interventions (e.g., gender-affirming surgery).

La liste approuvée précise les articles/services classés selon les catégories « approuvé », « non approuvé » et « sur autorisation spéciale ».

Les articles/services « approuvés » peuvent être mis en œuvre régulièrement à l'échelle de l'établissement.

Les articles/services « sur autorisation spéciale » exigent l'approbation régionale du gestionnaire, Services cliniques; et,

Il appartient aux professionnels de la santé de décider des besoins en soins de santé d'un détenu particulier, en fonction de l'évaluation clinique effectuée, et conformément aux normes professionnelles acceptées. L'autorisation spéciale demandée doit être recommandée par le médecin/l'infirmier praticien ou le dentiste en établissement, lequel doit fournir une justification médicale de la demande.

Les services spécialisés en dysphorie sexuelle doivent être approuvés par un professionnel de la santé dans le domaine de l'identité de genre, ainsi que par le chirurgien en vue de la réalisation de certaines interventions chirurgicales (p. ex. opération d'affirmation du genre).

CSC's Dental Service Standards were reviewed and revised in 2012/2013 fiscal year in collaboration with a National Dental Working Group which was comprised of 5 CSC Institutional Dentists and Regional and National Health Services professionals and senior managers.
