**Amendment 003** is raised to answer questions posed by a Supplier.

QUESTION	RESPONSE
Q. 1: Does Department of National Defence (DND) prefer to have capital cost at the onset with lower monthly rates, or does DND wish to moderate the cost more constantly over the life of the contract?	Yes, The intent is to have the Majority of the Capital Lease equipment portion paid out earlier, however, it will depend on policy and cost of what we can achieve.
Q. 2: What is the anticipated life of the service contract?	15 years is what we are suggesting, there could be possibility for extensions.
Q. 3: Can it be assumed that the exact schedule for installations is not yet known and that the introduction of systems will likely be over multiple years?	Correct exact schedule unknown until we reach implementation however rough assumptions is 3 installations per year, over 5 years.
Q. 4: Is DND intent on a SaaS model in which the contractor performs all work on all sites?	Not intent, that would be the desire, however, there are avenues to have ADM(IE) perform ground works and preparation/.
Q. 5: What is the target availability (A0) (i.e. % of time to be operational)?	>98%, this will be further defined in the RFP and technical statement of requirements. However minimum availability will be based off of ICAO.
