# Questions and Answers # 4

**Question #1: Category 6A - Item #3:**

For video conference tables that are only 42" deep, a column base is not typically recommended as it reduces the leg room and seating space. (see sketch below). Would the client also accept an alternative base type of post legs (GoCUID 6MVCSNVSLL42138WYYX)?

The SA details list Panel Bases as an option in the description, but there is no GoCUID representing panel bases. Are Panel bases included within the Column Base GoCUID?

**Answer #1: Category 6A - Item #3:**

The client is not requesting a panel base support for the videoconferencing table. GoCUID 6MVCSNVSML42138WYYX that the client chose was taken from the GCWorkplace Standard Furniture Typicals as pictured below. We have updated the Description of the Product for this item under Subcategory 6A as per amendment 003. Please note that according to the specifications in the SA, the minimum overall width at the narrowest end for a video conferencing table is 42". The client also accepts an alternative base type of post legs however we still require V-shape, Modesty Panel and Power and Data.

| DESCRIPTION | CAT. | QTY | WIDTH | DEPTH | HEIGHT | OPTIONS | FINISHES | GoCUID |
|---|---|---|---|---|---|---|---|---|
| A  Video Conference Table | 6 | 1 | 3505 mm (138 in.) | 1067 mm (42 in.) | 737 mm (29 in.) | V-Shape, Modesty Panel, Power and Data, Column Base | Laminate | 6MVCSNVSML42138WYYX |

**Question #2: Category 6C - Item #7:**

The minimum size for a medium square ottoman is 36"x36". There does not appear to be any ottomans of this size on the floor plan. Please confirm if this is the size required, or if a the small ottomans with a minimum footprint of 24"x24" would be preferred (GOCUID 6SUOPSXXLUXXXXXLNNN) ?

**Answer #2:** GOCUID 6SUOPSXXLUXXXXXLNNN is actually preferred by my client. Please refer to amendment 003 for this change.
