Amendment 001 is being issued in response to questions from Supplier and to extend the bid closing date to 22 November 2022 at 2:00 PM EST.

REFERENCE: Annex C, Section 2.2 MRT Workshop

Q1: Will a deviation to the requested configuration be accepted/considered?

A1: Deviations to the requested configurations will be considered during the bid evaluation stage.

REFERENCE: Annex A, Section 1.6 Configuration Capability Table and Annex A, Section 1.2 Primacy of Requirements

Q2: Annex A Point 1.6: You display the truck minimum requirements.

1.6 Configuration Capability Table

The following table details the minimum design requirements, which must be met for the configuration offered:

| | |
|----------------------------------|----------------------------------|
| MINIMUM GVWR | 8,636 kg (19,000 lbs) |
| MINIMUM PAYLOAD | 5,454 kg (12,000 lbs) |
| CONVENTIONAL TOWED LOAD | 8,180 kg (18,000 lbs) |
| MINIMUM GAWR FRONT | 3,409 kg (7,500 lbs) |
| MINIMUM GAWR REAR | 6,363.4 kg (14,000 lbs) |
| VEHICLE SPEED | 105 km/h (65 mph) |
| VEHICLE GRADEABILITY | 0.8 Percent at 90 km/h (56 mph) |
| MINIMUM ENGINE HORSEPOWER/TORQUE | 330 HP/800 Pound-Feet |
| FUEL RESERVOIR CAPACITY | 267 Litres (60 Imperial Gallons) |

Annex A Point 1.2: There's a note saying that for the Maintenance Repair Body, the vehicle must include the manufacturer's standard 8 ft box.

The thing is that the minimum requirements at the point 1.6 of the Annex A are for a chassis-cab truck (typically a F550 or Ram 5500 with the specs that you ask). Yet you want the 8 ft box for the MRT truck but it doesn't exist on this type of trucks. You can have the 8 ft box but the specs of the truck must be reviewed: you will have to ask for a box-delete type of truck such as Ford F-250/350, Ram 2500/3500 or GMC 2500/3500. Moreover, the fuel reservoir capacity can only be at 181 liters maximum.

A2: The truck requirements listed at Annex A, paragraph 1.6 will remain unchanged.

Deviations to the standard 8-ft box are permitted. For the MRT, the Department of National Defence would accept a modified utility box, similar to the one described in Annex B, which is able to accept the space cab.
