PART 2 – BIDDER INSTRUCTIONS

2.1 Standard Instructions, Clauses and Conditions

All instructions, clauses and conditions identified in the bid solicitation by number, date and title are set out in the Standard Acquisition Clauses and Conditions Manual (<https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual>) issued by Public Works and Government Services Canada (PWGSC).

Bidders who submit a bid agree to be bound by the instructions, clauses and conditions of the bid solicitation and accept the clauses and conditions of the resulting contract.

The [2003](#) (2020-05-28) Standard Instructions – Goods and Services – Competitive Requirements, are incorporated by reference into and form part of the bid solicitation, with the following modifications:

- a) Section 02, Procurement Business Number is deleted in its entirety.
- b) Subsection 5.2(d), Submission of Bids, is deleted in its entirety and replaced with the following: Send its bid only to the address specified in the bid solicitation.
- c) Subsection 5.4, Submission of Bids, is amended as follows: Delete: 60 days Insert: 90 calendar days.
- d) Section 6, Late Bids, is deleted in its entirety.
- e) Section 7, Delayed Bids, is deleted in its entirety and replaced with the following: It is the Bidder's responsibility to ensure that the Contracting Authority has received the entire submission. Misrouting or other electronic delivery issues resulting in late submission of bids will not be accepted.
- f) Section 8, Transmission by facsimile or by epost Connect, is deleted in its entirety.
- g) Subsection 20.2, Further Information, is deleted in its entirety.

2.1.1 Equivalent Products

1. Products that are equivalent in form, fit, function, quality and performance to the item(s) specified in the bid solicitation will be considered where the Bidder:
 - a) designates the brand name, model and/or part number and NSCM/CAGE of the substitute product.
 - b) provide at least one of the following technical data:
 - i) The manufacturer's engineering drawing (minimum level 2), or
 - ii) Industrial specification data / information sheets from the true (Design Control) manufacturer, or
 - iii) Manufacturer's catalogue of components.
2. Products offered as equivalent in form, fit, function, quality and performance will not be considered if:
 - a) the bid fails to provide all the information requested to allow the Contracting Authority to fully evaluate the equivalency of each substitute product; or
 - b) the substitute product fails to meet or exceed the mandatory performance criteria specified in the bid solicitation for that item.

c) the technical documentation fails to have been acquired from the design control authority (note that the technical documentation from a supplier or subsidiary manufacturer is not acceptable).

3. In conducting its evaluation of the bids, Canada may, but will have no obligation to, request Bidders offering a substitute product to provide technical information demonstrating the equivalency (e.g. Drawing, specifications, engineering reports and/or test reports), or to demonstrate that the substitute product is equivalent to the item specified in the bid solicitation, at the sole cost of Bidders, within 15 calendar days of the request. If the bidder fails to provide the requested information within the specified delay, Canada may declare the bid non-responsive.

2.2 Electronic Submission of Bids

a) Bids must be submitted only to the Department of National Defence by the date, time and place indicated on page 1 of the bid solicitation. Bids must be received electronically as noted in subparagraph b).

b) Electronic Submissions: Individual e-mails exceeding five (5) megabytes, or that includes other factors such as embedded macros and/or links, may be rejected by the DND e-mail system and/or firewall(s) without notice to the Bidder or Contracting Authority. Larger bids may be submitted through more than one e-mail. The Contracting Authority will confirm receipt of documents. It is the Bidder's responsibility to ensure that the Contracting Authority has received the entire submission. Bidders should not assume that all documents have been received unless the Contracting Authority confirms receipt of each document. In order to minimize the potential for technical issues, Bidders are requested to allow sufficient time before the closing time and date to confirm receipt. Technical and financial documents received after the closing time and date will not be accepted.

Due to the nature of the bid solicitation, bids transmitted by facsimile will not be accepted.

2.3 Enquiries - Bid Solicitation

All enquiries must be submitted in writing to the Contracting Authority no later than 7 calendar days before the bid closing date. Enquiries received after that time may not be answered.

Bidders should reference as accurately as possible the numbered item of the bid solicitation to which the enquiry relates. Care should be taken by Bidders to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the question(s) or may request that the Bidder do so, so that the proprietary nature of the question(s) is eliminated, and the enquiry can be answered to all Bidders. Enquiries not submitted in a form that can be distributed to all Bidders may not be answered by Canada.

2.4 Applicable Laws

Any resulting contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in Ontario.

Bidders may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their bid, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of their choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the Bidders.

2.5 Availability of Drawings

Drawings are available upon request. Bidders are to fax their request for drawings to: DND - Attention: Contracting Authority, Email: alexander.reynolds@forces.gc.ca specifying the Solicitation File No. Bidders are responsible to request drawings early enough to ensure that the drawings are received (through regular mail) before bid closing. Drawings for all items referred to in this Request for Proposal will be forwarded to interested bidders as a Technical Data Package (TDP) under a separate cover.

It should be noted that the drawings have been inadvertently identified as Proprietary to the Contractor who developed the drawings. The Crown has received official correspondence from the Contractor noting that these drawings have been misidentified and the Crown has unlimited rights to use these drawings in accordance with the Contract(s) under which the drawings were developed.

In order to receive a TDP, the proposed Bidder must return a signed copy of Annex C - Non Disclosure Agreement to the Contracting Authority on page 1 of this Request for Proposal. It is to be duly signed by a senior representative of the company. The TDP will not be released to any bidder without receipt of the Non-Disclosure Agreement. Bidders are advised that the Contractor who developed the drawings will be provided with a copy of each signed Non-Disclosure Agreement. He will also be advised when each copy of the TDP has been returned to the Crown.
