

REQUEST FOR PROPOSAL

SPACE BRAIN HACK

**Bid Submission Deadline:
December 14th, 2022 at 2:00 PM (EST)**

**Submit Bids by CPC Connect service
or by Fax 819-997-9776**

Reference: CSA File No. 9F015-22-0045

Note: Please read this invitation to tender carefully for further details on the requirements and bid submission instructions.

November 17th, 2022

PART 1 - GENERAL INFORMATION

1.1 Introduction

The bid solicitation is divided into six parts plus appendix and annexes, as follows:

- Part 1 General Information: provides a general description of the requirement;
- Part 2 Bidder Instructions: provides the instructions, clauses and conditions applicable to the bid solicitation;
- Part 3 Bid Preparation Instructions: provides Bidders with instructions on how to prepare their bid;
- Part 4 Evaluation Procedures and Basis of Selection: indicates how the evaluation will be conducted, the evaluation criteria that must be addressed in the bid, and the basis of selection;
- Part 5 Certifications and Additional Information: includes the certifications and additional information to be provided; Security, Financial and Other Requirements: includes specific requirements that must be addressed by Bidders; and
- Part 6 Resulting Contract Clauses: includes the clauses and conditions that will apply to any resulting contract.

List of Annexes:

- Annex B - Basis of Payment
- Annex C - Statement of Work
- Annex D - Performance Evaluation Form
- Annex E - Integrity Form - List of names

1.2 Summary

The Canadian Space Agency (CSA) is seeking a Contractor to engage and support educators working with youth in grades 6-12 (grade 6 to secondary 5 in Quebec) for the national implementation of its [Space Brain Hack](#) activity. Through this initiative, youth are invited to brainstorm and propose solutions, innovations, and inventions to open-ended problems, within specific limitations, to the same challenges that experts are actively working on as Canada prepares to visit the Moon as part of the Lunar Gateway program. The solutions brainstormed and out-of-box thinking coming from Canadian youth may help inspire experts and shape Canada's space program.

- **Period of the Contract**

From contract award date to March 31st, 2024.

- **Option to Extend the Contract**

The Contractor grants to Canada the irrevocable option to extend the term of the Contract by up to 1 additional one (1) year period under the same conditions.

- **Work location**

The work will take place at the Contractor's location and will engage educators nationwide. The Contractor will need to be available for teleconference or video calls with the CSA team. The Contractor will be responsible for developing and establishing the physical resources and infrastructure required for the activities to be delivered virtually, with consideration for in-person events being a possibility.

- **Travel**

If travel to the Canadian Space Agency headquarters is required, the Contractor shall be reimbursed for travel and living expenses as per the [National Joint Council's Travel Directive](#). A Contractor that is located in the Montréal Metropolitan Community shall not be reimbursed for travel to/from/within this region.

- **Official languages**

The activities and supporting material must be provided in English or French, and the CSA will edit and translate into French or English. The Contractor shall provide resources able to provide engagement and support in both official languages. Communications (oral and written) between the Contractor and the CSA team will be conducted in English and/or French as agreed between the Contractor and the CSA team.

1.3 Security requirements

There are no security requirements associated with this requirement.

1.4 Trade Agreements

This requirement is subject to the provisions of the Canadian Free Trade Agreement (CFTA).

1.5 Comprehensive Land Claims Agreements (CLCAs)

The resulting contract will not include deliveries within locations within Yukon, Northwest Territories, Nunavut, Quebec, or Labrador that are subject to Comprehensive Land Claims Agreements (CLCAs). Any requirements for deliveries within locations within Yukon, Northwest Territories, Nunavut, Quebec, or Labrador that are subject to CLCAs will have to be treated as a separate procurement, outside of this bid solicitation.

1.6 The Canada Post Corporation's (CPC) Connect service

This bid solicitation allows bidders to use the CPC Connect service provided by Canada Post Corporation to transmit their bid electronically. Bidders must refer to Part 2 entitled Bidder Instructions, and Part 3 entitled Bid Preparation Instructions, of the bid solicitation, for further information.

1.7 Debriefings

Bidders may request a debriefing on the results of the bid solicitation process. Bidders should make the request to the Contracting Authority within 15 working days from receipt of the results of the bid solicitation process. The debriefing may be in writing, by telephone or in person (virtual).

PART 2 - BIDDERS INSTRUCTIONS

2.1 Standard Instructions, Clauses and Conditions

All instructions, clauses and conditions identified in the bid solicitation by number, date and title are set out in the [Standard Acquisition Clauses and Conditions Manual \(https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual\)](https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual) issued by Public Works and Government Services Canada.

Bidders who submit a bid agree to be bound by the instructions, clauses and conditions of the bid solicitation and accept the clauses and conditions of the resulting contract.

The [2003 \(2022-03-29\) - Standard Instructions - Goods or Services](#), are incorporated by reference into and form part of the bid solicitation.

2.2 Submission of Bids

Bids must be submitted only to Public Works and Government Services Canada (PWGSC) Bid Receiving Unit by the date, time and place indicated on page 1 of the bid solicitation.

For bidders choosing to submit using [Canada Post Corporation's \(CPC\) Connect service](#) for bids closing at the Bid Receiving Unit, the email address is:

tpsgc.pareceptiondessomissions-apbidreceiving.pwgsc@tpsgc-pwgsc.gc.ca

Note: Bids will not be accepted if emailed directly to this email address. This email address is to be used to send bids through a CPC Connect message if the Bidder is using its own licensing agreement for CPC Connect service or to open a CPC Connect conversation, as detailed in Standard Instructions [2003](#), send as early as possible, and in any case, at least six business days prior to the solicitation closing date and time, (in order to ensure a response), an email that includes the bid solicitation number to the specified PWGSC Bid Receiving Unit requesting to open a CPC Connect conversation. Requests to open a CPC Connect conversation received after that time may not be answered.

OR

By facsimile number: (819) 997-9776.

DO NOT COPY THE CONTRACTING AUTHORITY

2.3 Enquiries - Bid Solicitation

All enquiries must be submitted in writing to the Contracting Authority sophorn.sok@asc-csa.gc.ca no later than two (2) calendar days before the bid closing date. Enquiries received after that time may not be answered.

Bidders should reference as accurately as possible the numbered item of the bid solicitation to which the enquiry relates. Care should be taken by Bidders to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the question(s) or may request that the Bidder do so, so that the proprietary nature of the question(s) is eliminated and the enquiry can be answered to all Bidders. Enquiries not submitted in a form that can be distributed to all Bidders may not be answered by Canada.

2.4 Applicable Laws

Any resulting contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in the province of Quebec.

Bidders may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their bid, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of their choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the Bidders.

2.5 Bidders' conference

A bidders' conference will be held via Microsoft TEAMS **on November 28th, 2022**. The virtual conference will begin at **2:00 pm EST**, the link will be provided upon confirmation. The scope of the requirement outlined in the bid solicitation will be reviewed during the conference and questions will be answered. It is recommended that bidders who intend to submit a bid attend or send a representative.

Bidders are requested to communicate with the Contracting Authority before the conference to confirm attendance. Bidders should provide, in writing, to the Contracting Authority, the name(s) of the person(s) who will be attending and a list of issues they wish to table no later than **November 25th, 2022**.

Any clarifications or changes to the bid solicitation resulting from the bidders' conference will be included as an amendment to the bid solicitation. Bidders who do not attend will not be precluded from submitting a bid.

2.6 Former Public Servant

Contracts awarded to former public servants (FPS) in receipt of a pension or of a lump sum payment must bear the closest public scrutiny, and reflect fairness in the spending of public funds. In order to comply with Treasury Board policies and directives on contracts awarded to FPSs, bidders must provide the information required in section 5.1.2 to Part 5 – Certifications and additional information before contract award. If the answer to the questions and, as applicable the information required have not been received by the time the evaluation of bids is completed, Canada will inform the Bidder of a time frame within which to provide the information. Failure to comply with Canada's request and meet the requirement within the prescribed time frame will render the bid non-responsive.

2.7 Communications Notification

As a courtesy, the Government of Canada requests that successful bidders notify the Contracting Authority in advance of their intention to make public an announcement related to the award of a contract.

2.8 Bid Challenge and Recourse Mechanisms

Several mechanisms are available to potential suppliers to challenge aspects of the procurement process up to and including contract award.

Canada encourages suppliers to first bring their concerns to the attention of the Contracting Authority. Canada's [Buy and Sell](#) website, under the heading "[Bid Challenge and Recourse Mechanisms](#)" contains information on potential complaint bodies such as:

- Office of the Procurement Ombudsman (OPO)
- Canadian International Trade Tribunal (CITT)

Suppliers should note that there are **strict deadlines** for filing complaints, and the time periods vary depending on the complaint body in question. Suppliers should therefore act quickly when they want to challenge any aspect of the procurement process.

PART 3 - BID PREPARATION INSTRUCTIONS

Canada requests that bidders provide their bid in separate sections as follows:

Section I: Technical Bid

Section II: Financial Bid

Section III: Certifications

Prices must appear in the financial offer only. No prices must be indicated in any other section of the bid.

If the Bidder chooses to submit its bid electronically, Canada requests that the Bidder submits its bid in accordance with [section 08 of the 2003 standard instructions](#). The CPC Connect system has a limit of 1GB per single message posted and a limit of 20GB per conversation.

If the Bidder is simultaneously providing copies of its bid using multiple acceptable delivery methods, and if there is a discrepancy between the wording of any of these copies and the electronic copy provided through CPC Connect service, the wording of the electronic copy provided through CPC Connect service will have priority over the wording of the other copies.

Section I: Technical Bid

In their technical bid, Bidders should demonstrate their understanding of the requirements contained in the bid solicitation and explain how they will meet these requirements. Bidders should demonstrate their capability and describe their approach in a thorough, concise and clear manner for carrying out the work.

The technical bid should address clearly and in sufficient depth the points that are subject to the evaluation criteria against which the bid will be evaluated. Simply repeating the statement contained in the bid solicitation is not sufficient. In order to facilitate the evaluation of the bid, Canada requests that Bidders address and present topics in the order of the evaluation criteria under the same headings. To avoid duplication, Bidders may refer to different sections of their bids by identifying the specific paragraph and page number where the subject topic has already been addressed.

Part 4, Evaluation Procedures, contains additional instructions that bidders should consider when preparing their technical bid.

Section II: Financial Bid

Bidders must submit the sum of the applicable direct and indirect costs which are, or must be reasonably and properly incurred and/or allocated, in the performance of the Contract, less any applicable credits. These costs must be determined in accordance with the Contractor's cost accounting practices as accepted by Canada and applied consistently over time.

Bidders should review Contract Cost Principles 1031-2 - <https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual/3/1031-2/6> for a description of allowable costs.

Bidders must submit their financial bid in accordance with the Basis of Payment in the **Annex B**. The total amount of Goods and Services Tax must be shown separately, if applicable.

The requirement does not provide for exchange rate fluctuation protection. Any request for exchange rate fluctuation protection will not be considered and will render the bid non-responsive.

Section III: Certifications and Additional Information

Bidders must submit the certifications and additional information required under Part 5.

PART 4 - EVALUATION PROCEDURES AND BASIS OF SELECTION

4.1 Evaluation Procedures

- (a) Bids will be assessed in accordance with the entire requirement of the bid solicitation.
- (b) An evaluation team composed of representatives of Canada will evaluate the bids.

4.1.1 Technical Evaluation

4.1.1.1 Mandatory Technical Criteria (TABLE #1)

At Bid closing time, the Bidder must comply with the Mandatory Requirements in TABLE #1 and provide the necessary documentation to support compliance.

Bids which fail to meet the mandatory technical criteria will be declared non-responsive. Each mandatory technical criterion should be addressed separately.

TABLE #1 - Mandatory Criteria			
Number	Mandatory Criterion	Meet or Not	Reference relevant section, page number of bid.
MT.1	<p>The proposal must include at least three (3) examples of projects/activities that demonstrates how the Bidder and/or their subcontractors have at least 5 years of experience within the last 15 years in education developing appropriate resources with links to school curricula and creating learning activities targeting grade 6-12 youth and/or grade 6-12 educators. The resources are for diverse educators that incorporate STEM concepts. The types of resources could include educator guides, presentations, student worksheets, training workshops, and curriculum aligned lesson plans. The number of years and experience will be evaluated by the descriptions of the projects provided in the proposal.</p> <p>For each example, should provide the following:</p> <ul style="list-style-type: none"> - Type and description of the projects/activities (include topic(s) and brief overview of the content) - target audience - duration of the projects/activities (including start and end dates from inception to completion) - Length of the projects/activities (for e.g. 90-minute class activity, half-day activity, etc.) - location(s) (where the activity took place) - approximate number of participants - type of resources developed - content development process i.e. research process, verifying and validating content, feedback process, focus groups, etc. - the clients for whom the work was completed must be provided. (if applicable) 		

4.1.1.2 Point Rated Technical Criteria (TABLE #2)

Bids which meet all the mandatory technical criteria will be evaluated and scored as specified in the table inserted below.

Bids which fail to obtain the required minimum number of points specified will be declared non-responsive. Each point rated technical criterion should be addressed separately.

TABLE #2 - Point-Rated Technical Criteria							
Criterion	Potential scores				Threshold	Results	Evaluator's remarks
RC1 – Experience in adapting the supports for educators serving youth in grades 6-12 (grade 6 to secondary 5 in Quebec) in different delivery contexts	0	7	14	20	7		
RC2 – Strategies for Educator Engagement	0	12	16	20	12		
RC3 - Experience developing assessment tools and assessing students' work	0	12	16	20	12		
RC4 – Scope, feasibility and risks of the proposed project management plan	0	10	15	20	10		
RC5 – Experience in engaging educators and youth nationally	0	7	12	20	0		
Maximum Score				100			
Overall Total Minimum required					60		
Total Obtained						/100	

RC1 – Experience in adapting the supports for educators serving youth in grades 6-12 in different delivery contexts

The proposal must provide an example of an activity that demonstrates the Bidder's experience in applying diverse approaches in supporting educators to successfully administer STEM activities to youth in grades 6-12. The example must detail techniques and strategies for preparing educators in different delivery contexts to be confident in using the activities with their students. The approaches could include resources, training workshops, one-on-one support, etc. Delivery contexts include examples such as the classroom, after school programs, camps, science centers, museums, different grades, etc.

Examples of approaches should include the following information:

- activity format description,
- activity outline,
- strategy used and support provided,
- the original delivery context,
- what adaptations were made or prepared based on the different delivery contexts,
- the total number of educators supported, and
- educator feedback on their experience

The groups that are typically underrepresented in STEM include girls, indigenous youth, those from socio-economically vulnerable backgrounds, visible minorities with a specification on black youth, students with disabilities and/or exceptionalities. The educators working with these youth may require additional support to adapt the activity. In order to accomplish this, it is important to have the knowledge of the contexts and an understanding of the barriers faced by youth and educators as well as approaches to overcome these barriers.

0) Proposal provides insufficient detail to assess the criteria;

OR

approaches are minor adaptations that do not demonstrate an understanding of needs of educators in different engagement contexts.

7) Proposal provides three (3) examples of bidder's and/or subcontractor's experience with engaging educators working with youth in grades 6-12 in STEM activities with the requested level of detail.

AND

Examples illustrate two (2) approaches to preparing educators to engage in the activity with youth within the same engagement setting. The approaches could include resources, training workshops, one-on-one support, etc.

14) Proposal provides three (3) examples of bidder's and/or subcontractor's experience with engaging educators working with youth grades 6-12 in STEM activities with the requested level of detail.

AND

Examples illustrate three (3) or four (4) approaches to preparing educators to engage in the activity with youth. The approaches illustrate adaptations to the diversity of needs of educators include resources, training workshops, one-on-one support, strategies for engaging youth, etc.

AND

At least two (2) of the approaches are examples illustrating adaptation of activities to fit educator delivery contexts in more than one setting. Different delivery contexts include classrooms, after school programs, camps, science centres, museums, different grades, etc. Where the Bidder has experience predominantly supporting educators in one context, examples may demonstrate an understanding of needs of educators working in different delivery context.

20) Proposal provides three (3) examples of bidder's and/or subcontractor's experience with engaging educators working with youth in grades 6-12 in STEM activities with the requested level of detail.

AND

Examples illustrate four (4) or more approaches to preparing educators to engage in the activity with youth and feedback received on those approaches from the educators and/or students. The approaches could include resources, training workshops, one-on-one support, strategies for engaging youth, etc.

AND

Two (2) or more of approaches are examples illustrating adaptation of activities to fit educator delivery context in more than three settings. Different delivery contexts include classrooms, after school programs, camps, science centres, museums, different grades, etc.

AND

The proposal must also demonstrate understanding of needs of educators who work with youth that are underserved or underrepresented in STEM.

RC2 – Strategies for Educator Engagement

The Bidder must provide example(s) of a completed campaign involving the engagement of K-12 educators across the country, where a number of strategies were used to capture educator attention and facilitate activity uptake. The example must include steps taken by the Bidder/subcontractor to understand educator needs and motivations, how any insights were used to improve activity uptake and the outcomes after the implementation of new strategies.

0) Proposal provides insufficient details to assess the criteria;

OR

The rationale of the proposed engagement plan is not supported by at least one example of a completed engagement campaign.

12) The proposal must provide one (1) example of a completed campaign involving the engagement of K-12 educators across the country, where a number of strategies were used to capture educator attention and facilitate activity uptake. The example must include steps taken by the Bidder/subcontractor to understand educator needs and motivations and how any insights were used to improve activity uptake.

The example must include the following:

- the length of the campaign
- subject matter covered throughout the campaign
- how the educators were initially reached and what strategy(ies) were used to engage and promote to those in the network at that time
- how the gaps in uptake were identified in the reach of the program (gather feedback, statistics/data, focus groups, etc.)

16) The proposal must provide one (1) example of a completed campaign involving the engagement of K-12 educators across the country, where a number of strategies were used to capture educator attention and facilitate activity uptake. The example must include steps taken by the Bidder/subcontractor to understand educator needs and motivations and how any insights were used to improve activity uptake.

The example must include the following:

- the length of the campaign
- subject matter covered throughout the campaign
- how the educators were initially reached and what strategy(ies) were used to engage and promote to those in the network at that time
- how gaps in uptake were identified in the reach of the program (gather feedback, statistics/data, focus groups, etc.)
- Subsequent strategies used to reach new educators in regions where gaps may have been identified and what the outcomes were after implementing the strategies
- If assistance from outside organizations was acquired to assist in filling the above identified gaps

20) The proposal must provide two (2) examples of a completed campaign involving the engagement of 6-12 educators across the country, where a number of strategies were used to capture educator attention and facilitate activity uptake. The example must include steps taken by the Bidder/subcontractor to understand educator needs and motivations and how any insights were used to improve activity uptake.

Both examples must include the following:

- the length of the campaign
- subject matter covered throughout the campaign
- how the educators were initially reached and what strategy(ies) were used to engage and promote to those in the network at that time
- how the gaps in uptake were identified in the reach of the program (gather feedback, statistics/data, focus groups, etc.)
- Subsequent strategies used to reach new educators in regions where gaps may have been identified and what the outcomes were after implementing the strategies
- If assistance from outside organizations was acquired to assist in filling the above gaps.

RC3 - Experience developing assessment tools and assessing students' work

The proposal must demonstrate bidder's experience developing assessment tools for large-scale STEM challenge-type activities with upwards of 500 youth participants, and accurately assessing a high-volume of participant submitted projects.

0) The proposal does not provide any example of assessing students' work as well as development of rubrics for activities aimed at youth in grades 6-12

OR

the examples provided does not contain enough details to assess the criteria.

12) The proposal provides one (1) example demonstrating the Bidders and/or subcontractors' experience in managing for medium-scale STEM challenges involving 300 or more participants, or two (2) examples of managing a small-scale STEM challenge involving 100 or more participants. The challenge must be aimed at youth in grade 6-12.

The examples must include the following:

- type of activity
- target audience
- duration of the activity
- the clients for whom the work was completed

AND

The example(s) provide details on the Bidders experience developing and implementing assessment tools used to accurately assess large quantities of student projects.

16) The proposal provides two (2) examples demonstrating the Bidders and/or subcontractors' experience in managing for medium-scale STEM challenges involving 300 or more participants, or 1 example of managing a large-scale STEM challenge involving 500 or more participants. The challenge must be aimed at youth in grade 6-12.

The examples must include the following:

- type of activity
- target audience
- duration of the activity
- the clients for whom the work was completed

AND;

The example(s) provide details on the Bidders experience developing and implementing assessment tools used to accurately assess large quantities of student projects.

AND;

The example(s) provides details outlining how the assessment was completed, the participant submission process, including activity collection and management.

20) The proposal provides two (2) or more examples demonstrating the Bidders and/or subcontractors' experience in managing large-scale STEM challenges involving 500 or more participants. The challenge must be aimed at youth in grade 6-12.

The examples must include the following:

- type of activity
- target audience
- duration of the activity
- the clients for whom the work was completed

AND;

The examples provide details on the Bidders experience developing and implementing assessment tools used to accurately assess large quantities of student projects.

AND;

The examples provides details outlining how the assessment was completed, the participant submission process, including activity collection and management.

RC4 - Scope, feasibility, and risks of the proposed project management plan

The Bidder must provide a project management plan that demonstrates how they intend to manage the development of resources, implementation of the engagement plan, and assessment of submissions. The plan must include details such as potential risks with mitigation strategies, schedule, human resources, etc. The proposal must outline the intended Space Brain Hack project team, including their roles and expertise relevant to the project.

The project management plan must include an engagement, communications and promotions plan to bring awareness about the Space Brain Hack initiative across Canada via diverse communication channels in order to maximize participation and details how the educators will be engaged throughout the challenge period. Details on the plan must include systematic steps for monitoring the health of the campaign to identify and understand gaps in uptake amongst target audiences. The plan must include the reach of the existing network, techniques for expanding the initial network, approach for engagement in different educational settings.

0) The project management plan does not contain details on how the work will be carry out during the project.

OR

The plan does not provide any details on the Bidder's experience or competency in engagement, promotions and communications.

10) The Bidder must provide a project management plan that demonstrates how they intend to manage the development of resources, utilization of the engagement, communications and promotions plan, and assessment of submissions. The proposal must provide a schedule and evidence on how the Bidder plans to acquire and support resources for the duration of the project (materials, staff, etc.) are provided. No information on risks provided.

AND

Details of the expertise, experience and/or competencies, roles and responsibilities of key project team members that would take part in the project, such as the project manager, public engagement coordinator, communications coordinator/advisor, consultants in education, educational developers, instructional designers, etc.

15) The Bidder must provide a project management plan that demonstrates how they intend to manage the development of resources, utilization of the engagement, communications and promotions plan, and assessment of submissions. The proposal must provide a schedule and evidence on how the Bidder plans to acquire and support resources for the duration of the project (materials, staff, etc.), and examples of foreseen risks and issues. No description of risk mitigation plans or strategies were provided.

AND

Details of the expertise, experience and/or competencies, roles and responsibilities of key project team members that would take part in the project, such as the project manager, public engagement coordinator, communications coordinator/advisor, consultants in education, educational developers, instructional designers, etc.

20) The Bidder must provide a project management plan that demonstrates how they intend to manage the development of resources, utilization of the engagement, communications and promotions plan, and assessment of submissions. The proposal must provide a schedule and evidence on how the Bidder plans to acquire and support resources for the duration of the project (materials, staff, etc.). Examples of risks and issues, as well as risk mitigation plans or strategies are provided.

AND

The plan describes the expertise, experience and/or competencies, roles and responsibilities of key project team members that would take part in the project and relates how they will make the project a success.

Key team members could include such as the project manager, public engagement coordinator, communications coordinator/advisor, consultants in education, educational developers, instructional designers, etc.

RC5 – Experience in engaging educators and youth nationally

The proposal demonstrates experience engaging with educators and Kindergarten-12 (K-12) youth in at least 1 STEM activity in the last 5 years across Canada. To ensure the coverage is across Canada, the country has been divided in the four following regions:

- 1) Newfoundland and Labrador, Prince Edward Island, Nova Scotia, New Brunswick
- 2) Ontario and Quebec
- 3) Manitoba, Saskatchewan, Alberta, and British Columbia
- 4) Nunavut, Northwest Territories, and Yukon Territory

Type of activities that are acceptable to include: hands-on activities and workshops, camps, clubs as well as real-time virtual engagement supported by an on-site educator.

For the experience in each STEM activity, the proposal should include the following:

- Type and description on the activity (include topic (s) and brief overview of the activity content),
- targeted audience,
- duration of the projects/activities (including start and end dates from inception to completion)
- Length of the projects/activities (for e.g. 90-minute class activity, half-day activity, etc.)
- location(s) (where the activity took place),
- approximate number of participants from each of the four regions specified above, and
- the clients for whom the work was completed must be provided.(if applicable)

The Remote Areas are [locations in prescribed northern zones \(Zone A\) or in the prescribed intermediate zones \(Zone B\) as defined by the Canada Revenue Agency \(CRA\)](#). Rural and Remote areas may also include locations with logistical challenges, such as areas with limited Internet access, classrooms with limited access to technology equipment, and activities outside urban centres (i.e. regional municipalities, rural regions, regional districts, regional governments, etc.).

0) Proposal provides insufficient detail to assess the criteria;

OR

The proposal does not demonstrate having experience engaging with educators and K-12 youth in at least 1 STEM activity in the last 5 years in only *ONE* (1) of the four regions specified.

7) The bidder and/or their subcontractors demonstrates experience engaging with educators and Kindergarten-12 (K-12) youth in at least 1 STEM activity in the last 5 years in *TWO* (2) of the four regions specified;

AND

have experience engaging educators and K-12 youth in at least 1 STEM activity in rural and/or remote regions.

12) The bidder and/or their subcontractors demonstrates experience engaging with educators and Kindergarten-12 (K-12) youth in at least 1 STEM activity in the last 5 years in *THREE* (3) of the four regions specified;

AND

have experience engaging educators and K-12 youth in at least 1 STEM activity in rural and/or remote regions.

20) The bidder and/or their subcontractors demonstrates experience engaging with educators and Kindergarten-12 (K-12) youth in at least 1 STEM activity in the last 5 years *in each of* the four (4) regions specified.

4.2 Financial Evaluation

For bid evaluation and Contractor selection purposes, the evaluated price of a bid will be determined in accordance with the Pricing Schedule detailed in TABLE #3 (Annex B - Basis of payment).

The price of the bid will be evaluated in Canadian dollars, Applicable Taxes excluded, FOB destination, Canadian customs duties and excise taxes included.

4.3 Basis of Selection - Highest Combined Rating of Technical Merit 60% and Price 40%

4.3.1 To be declared responsive, a bid must:

- (a) comply with all the requirements of the bid solicitation; and
- (b) meet all the mandatory evaluation criteria (see TABLE #1) ; and
- (c) obtain the required minimum points specified for each criterion for the Point-rated technical evaluation; and
- (d) obtain the required minimum of 60 points overall for the Point-rated technical evaluation criteria which are subject to point rating. The rating is performed on a scale of 100 points. (see TABLE # 2);

4.3.2 Bids not meeting (a) or (b) or (c) and (d) will be declared non-responsive.

4.3.3 The selection will be based on the highest responsive combined rating of technical merit and price. The ratio will be 60% for the technical merit and 40% for the price.

4.3.4 To establish the technical merit score, the overall technical score for each responsive bid will be determined as follows: total number of points obtained / maximum number of points available multiplied by the ratio of 60%.

4.3.5 To establish the pricing score, each responsive bid will be prorated against the lowest evaluated price and the ratio of 40%.

4.3.6 For each responsive bid, the technical merit score and the pricing score will be added to determine its combined rating.

4.3.7 Neither the responsive bid obtaining the highest technical score nor the one with the lowest evaluated price will necessarily be accepted. The responsive bid with the highest combined rating of technical merit and price will be recommended for award of a contract. In the event of a tie, the bid with the lower price will be selected.

The table below illustrates an example where all three bids are responsive and the selection of the contractor is determined by a 60/40 ratio of the technical merit and price, respectively. The available points equals 100 and the lowest evaluated price is \$100,000.00.

Bidder	Bidder 1	Bidder 2	Bidder 3
Overall Score for All the Point Rated Technical Criteria	100/100	75/100	51/100
Bid Evaluated Price	\$150,000	\$136,000	\$100,000
Technical Merit Score	$100/100 \times 60 = 60$	$75/100 \times 60 = 45$	$51/100 \times 60 = 30.6$
Pricing Score	$100/150 \times 40 = 26.67$	$100/136 \times 40 = 29.41$	$100/100 \times 40 = 40$
Combine Rating	86.67	74.41	70.60
Overall Rating	1 st	2 nd	3 rd

PART 5 – CERTIFICATIONS AND ADDITIONAL INFORMATION

Bidders must provide the required certifications and additional information to be awarded a contract.

The certifications provided by Bidders to Canada are subject to verification by Canada at all times. Unless specified otherwise, Canada will declare a bid non-responsive, or will declare a contractor in default if any certification made by the Bidder is found to be untrue, whether made knowingly or unknowingly, during the bid evaluation period or during the contract period.

The Contracting Authority will have the right to ask for additional information to verify the Bidder's certifications. Failure to comply and to cooperate with any request or requirement imposed by the Contracting Authority will render the bid non-responsive or constitute a default under the Contract.

5.1 Certifications Required with the Bid

Bidders must submit the following duly completed certifications as part of their bid.

5.1.1 Certification – Bid

SACC Manual Clause [A3015T](#) (2014-06-26)

Compliance with the certifications bidders provide to Canada is subject to verification by Canada during the bid evaluation period (before award of a contract) and after contract award. The Contracting Authority will have the right to ask for additional information to verify bidders' compliance with the certifications before award of a contract. The bid will be declared non-responsive if any certification made by the Bidder is untrue, whether made knowingly or unknowingly. Failure to comply with the certifications or to comply with the request of the Contracting Authority for additional information will also render the bid non-responsive.

5.1.2 Former Public Servant

Contracts awarded to former public servants (FPS) in receipt of a pension or of a lump sum payment must bear the closest public scrutiny, and reflect fairness in the spending of public funds. In order to comply with Treasury Board policies and directives on contracts awarded to FPSs, bidders must provide the information required below before contract award. If the answer to the questions and, as applicable the information required have not been received by the time the evaluation of bids is completed, Canada will inform the Bidder of a time frame within which to provide the information. Failure to comply with Canada's request and meet the requirement within the prescribed time frame will render the bid non-responsive.

5.1.2.1 Definitions

For the purposes of this clause, "*former public servant*" is any former member of a department as defined in the [Financial Administration Act](#), R.S., 1985, c. F-11, a former member of the Canadian Armed Forces or a former member of the Royal Canadian Mounted Police. A former public servant may be:

- a. an individual;
- b. an individual who has incorporated;
- c. a partnership made of former public servants; or
- d. a sole proprietorship or entity where the affected individual has a controlling or major interest in the entity.

"lump sum payment period" means the period measured in weeks of salary, for which payment has been made to facilitate the transition to retirement or to other employment as a result of the implementation of various programs to reduce the size of the Public Service. The lump sum payment period does not include the period of severance pay, which is measured in a like manner.

"pension" means a pension or annual allowance paid under the [Public Service Superannuation Act](#) (PSSA), R.S., 1985, c. P-36, and any increases paid pursuant to the [Supplementary Retirement Benefits Act](#), R.S., 1985, c. S-24 as it affects the PSSA. It does not include pensions payable pursuant to the [Canadian Forces Superannuation Act](#), R.S., 1985, c. C-17, the [Defence Services Pension Continuation Act](#), 1970, c. D-3, the [Royal Canadian Mounted Police Pension Continuation Act](#), 1970, c. R-10, and the [Royal Canadian Mounted Police Superannuation Act](#), R.S., 1985, c. R-11, the [Members of Parliament Retiring Allowances Act](#), R.S. 1985, c. M-5, and that portion of pension payable to the [Canada Pension Plan Act](#), R.S., 1985, c. C-8.

5.1.2.2 Former Public Servant in Receipt of a Pension

As per the above definitions, is the Bidder a FPS in receipt of a pension?

Yes () No ()

If so, the Bidder must provide the following information, for all FPSs in receipt of a pension, as applicable:

- a. name of former public servant;
- b. date of termination of employment or retirement from the Public Service.

By providing this information, Bidders agree that the successful Bidder's status, with respect to being a former public servant in receipt of a pension, will be reported on departmental websites as part of the published proactive disclosure reports in accordance with [Contracting Policy Notice: 2019-01](#) and the [Guidelines on the Proactive Disclosure of Contracts](#).

5.1.2.3 Work Force Adjustment Directive

Is the Bidder a FPS who received a lump sum payment pursuant to the terms of the Work Force Adjustment Directive?

Yes () No ()

If so, the Bidder must provide the following information:

- a. name of former public servant;
- b. conditions of the lump sum payment incentive;
- c. date of termination of employment;
- d. amount of lump sum payment;
- e. rate of pay on which lump sum payment is based;
- f. period of lump sum payment including start date, end date and number of weeks;
- g. number and amount (professional fees) of other contracts subject to the restrictions of a work force adjustment program.

For all contracts awarded during the lump sum payment period, the total amount of fees that may be paid to a FPS who received a lump sum payment is \$5,000, including Applicable Taxes.

5.1.3 Procurement Business Number

Suppliers are required to have a Procurement Business Number before contract award. Suppliers may register for a PBN online at Supplier Registration Information: <https://srisupplier.contractsCanada.gc.ca/>

For non-Internet registration, suppliers may contact the InfoLine at 1-800-811-1148 to obtain the telephone number of the nearest Supplier Registration Agent.

Procurement Business Number: _____

5.1.4 Ineligibility and Suspension Policy

Bidders, offerors or suppliers certify to the following when submitting a bid:

- they have read and understand the **Ineligibility and Suspension Policy**; <http://www.tpsgc-pwgsc.gc.ca/ci-if/politique-policy-eng.html>
- they understand that certain domestic and foreign criminal charges and convictions, and other circumstances, will or may result in a determination of ineligibility or suspension;
- they are aware that Canada may request additional information, certifications and validations for the purposes of making a determination of ineligibility or suspension;
- they have provided a list of all foreign criminal charges and convictions;
- none of the domestic criminal offences and other circumstances described in the Policy applies to them, their affiliates and their first tier subcontractors; and
- they are not aware of a determination of ineligibility or suspension that applies to them.

5.1.5 Integrity Provisions – List of Names

Bidders who are incorporated, including those bidding as a joint venture, must provide a complete list of names of all individuals who are currently directors of the Bidder. (See Annex E - Integrity Form).

Bidders bidding as sole proprietorship, as well as those bidding as a joint venture, must provide the name of the owner(s). (See Annex E - Integrity Form).

Bidders bidding as societies, firms or partnerships do not need to provide lists of names

5.1.6 Federal Contractors Program for Employment Equity - Bid Certification

By submitting a bid, the Bidder certifies that the Bidder, and any of the Bidder's members if the Bidder is a Joint Venture, is not named on the Federal Contractors Program (FCP) for employment equity "FCP Limited Eligibility to Bid" list available at the bottom of the page of the [Employment and Social Development Canada \(ESDC\) - Labour's website](#).

Canada will have the right to declare a bid non-responsive if the Bidder, or any member of the Bidder if the Bidder is a Joint Venture, appears on the "FCP Limited Eligibility to Bid list at the time of contract award.

5.1.7 Status and Availability of Resources

The Bidder certifies that, should it be awarded a contract as a result of the bid solicitation, every individual proposed in its bid will be available to perform the Work as required by Canada's representatives and at the time specified in the bid solicitation or agreed to with Canada's representatives. If for reasons beyond its control, the Bidder is unable to provide the services of an individual named in its bid, the Bidder may propose a substitute with similar qualifications and experience. The Bidder must advise the Contracting Authority of the reason for the substitution and provide the name, qualifications and experience of the proposed replacement. For the purposes of this clause, only the following reasons will be considered as beyond the control of the Bidder: death, sickness, maternity and parental leave, retirement, resignation, dismissal for cause or termination of an agreement for default.

If the Bidder has proposed any individual who is not an employee of the Bidder, the Bidder certifies that it has the permission from that individual to propose his/her services in relation to the Work to be performed and to submit his/her résumé to Canada. The Bidder must, upon request from the Contracting Authority, provide a written confirmation, signed by the individual, of the permission given to the Bidder and of his/her availability. Failure to comply with the request may result in the bid being declared non-responsive.

5.1.8 Education and Experience

The Bidder certifies that all the information provided in the résumés and supporting material submitted with its bid, particularly the information pertaining to education, achievements, experience and work history, has been verified by the Bidder to be true and accurate. Furthermore, the Bidder warrants that every individual proposed by the Bidder for the requirement is capable of performing the Work described in the resulting contract.

5.1.9 Insurance Requirements

The Contractor is responsible for deciding if insurance coverage is necessary to fulfill its obligation under the Contract and to ensure compliance with any applicable law. Any insurance acquired or maintained by the Contractor is at its own expense and for its own benefit and protection. It does not release the Contractor from or reduce its liability under the Contract.

5.1.10 Certification - Contract

SACC Manual Clause [A3015C](#) (2014-06-26)

Compliance with the certifications provided by the Contractor in its bid is a condition of the Contract and subject to verification by Canada during the term of the Contract. If the Contractor does not comply with any certification or it is determined that any certification made by the Contractor in its bid is untrue whether made knowingly or unknowingly, Canada has the right, pursuant to the default provision of the Contract, to terminate the Contract for default.

CERTIFICATION SIGNATURE

We hereby certify compliance with the above noted certification requirements for:

- 5.1.1 Certification – Bid
- 5.1.2 Former Public Servant
- 5.1.3 Procurement Business Number
- 5.1.4 Ineligibility and Suspension Policy
- 5.1.5 Integrity Provisions – List of names
- 5.1.6 Federal Contractors Program for Employment Equity - Bid Certification
- 5.1.7 Status and Availability of Resources
- 5.1.8 Education and Experience
- 5.1.9 Insurance Requirements
- 5.1.10 Certification – Contract

Signature

PART 6 - RESULTING CONTRACT CLAUSES

The following clauses and conditions apply to and form part of any contract resulting from the bid solicitation.

6.1 Priority of Documents

If there is a discrepancy between the wordings of any documents that appear on the list, the wording of the document that first appears on the list has priority over the wording of any document that subsequently appears on the list.

- (a) the Articles of Agreement;
- (b) the general conditions: [2035 \(2022-05-12\) - General Conditions – Higher Complexity - Services](#)
- (c) Annex B, Basis of Payment;
- (d) Annex C, Statement of Work;
- (e) the Contractor's bid dated _____, (*insert date of bid*);
- (f) Annex D, Performance Evaluation Form

6.2 Standard Clauses and Conditions

All clauses and conditions identified in the Contract by number, date and title are set out in the [Standard Acquisition Clauses and Conditions Manual \(https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual\)](#) issued by Public Works and Government Services Canada.

6.2.1 General Conditions

[2035 \(2022-05-12\) - General Conditions – Higher Complexity - Services](#), apply to and form part of the Contract.

6.2.2 Inspection and Acceptance

The Technical Authority is the Inspection Authority. All reports, deliverable items, documents, goods and all services rendered under the Contract are subject to inspection by the Inspection Authority or representative. Should any report, document, good or service not be in accordance with the requirements of the Statement of Work and to the satisfaction of the Inspection Authority, as submitted, the Inspection Authority will have the right to reject it or require its correction at the sole expense of the Contractor before recommending payment.

6.3 Security Requirements

There is no security requirement applicable to this Contract.

6.4 Statement of Work

The Contractor must perform the Work in accordance with the Statement of Work at Annex C and the Contractor's technical bid entitled _____, dated _____.

6.4.1 Optional Services

The Contractor grants to Canada the irrevocable option to acquire the services described at Annex C of the Contract under the same conditions and at the prices and/or rates stated in the Contract. The option may only be exercised by the Contracting Authority and will be evidenced, for administrative purposes only, through a contract amendment.

The Contracting Authority may exercise the option at any time before the expiry of the Contract by sending a written notice to the Contractor.

6.5 Term of Contract

6.5.1 Period of the Contract

The work is to be performed during the period of the Contract award date to March 31st, 2024.

6.5.2 Option to Extend the Contract

The Contractor grants to Canada the irrevocable option to extend the term of the Contract by up to 1 additional one (1) year period under the same conditions. The Contractor agrees that, during the extended period of the Contract, it will be paid in accordance with the applicable provisions as set out in the Basis of Payment.

Canada may exercise this option at any time by sending a written notice to the Contractor before the expiry date of the Contract. The option may only be exercised by the Contracting Authority, and will be evidenced for administrative purposes only, through a contract amendment.

6.5.3 Comprehensive Land Claims Agreements (CLCAs)

The Contract does not include deliveries of services within locations within Yukon, Northwest Territories, Nunavut, Quebec, or Labrador that are subject to Comprehensive Land Claims Agreements (CLCAs). Any requirements for deliveries of services within locations within Yukon, Northwest Territories, Nunavut, Quebec, or Labrador that are subject to CLCAs will have to form part of a separate contract.

6.6 Authorities

6.6.1 Contracting Authority

Sophorn Sok
Procurement and Contract Administration
Canadian Space Agency
6767 route de l'Aéroport
Saint-Hubert, QC
Canada J3Y 8Y9
Telephone : (514) 708-6583
E-Mail: sophorn.sok@asc-csa.gc.ca

The Contracting Authority is responsible for the management of the Contract and any changes to the Contract must be authorized in writing by the Contracting Authority. The Contractor must not perform work in excess of or outside the scope of the Contract based on verbal or written requests or instructions from anybody other than the Contracting Authority.

6.6.2 Technical Authority

(To fill in at award date)

Name: _____

Title: _____

Canadian Space Agency
6767 route de l'Aéroport
Saint-Hubert, QC
Canada J3Y 8Y9

Telephone: ____ - ____ - _____

E-mail address: _____

The Technical Authority is the representative of the department or agency for whom the Work is being carried out under the Contract and is responsible for all matters concerning the technical content of the Work under the Contract. Technical matters may be discussed with the Technical Authority; however, the Technical Authority has no authority to authorize changes to the scope of the Work. Changes to the scope of the Work can only be made through a contract amendment issued by the Contracting Authority.

6.6.3 Contractor's Representative

(To fill in at award date)

6.7 Payment

6.7.1 Basis of Payment - Firm price

Professional Fees

In consideration of the Contractor satisfactorily completing all of its obligations under the Contract, the Contractor will be paid a firm price of \$ _____ (*insert amount at contract award*). Customs duties are included and Applicable Taxes are extra.

Travel and Living Expenses

The Contractor will be reimbursed for the authorized travel and living expenses reasonably and properly incurred in the performance of the Work, at cost, without any allowance for overhead or profit, in accordance with the meal and private vehicle allowances specified in Appendices B, C and D of the [National Joint Council Travel Directive](#), and with the other provisions of the directive referring to "travelers", rather than those referring to "employees". Canada will not pay the Contractor any incidental expense allowance for authorized travel.

All travel must have the prior authorization of the Technical Authority. All payments are subject to government audit.

Estimated Cost: \$ TBD

Canada will not pay the Contractor for any design changes, modifications or interpretations of the Work unless they have been approved, in writing, by the Contracting Authority before their incorporation into the Work.

6.7.2 Methods of Payment - Milestone

Canada will make milestone payments in accordance with the Schedule of Milestones detailed in the Contract and the payment provisions of the Contract if:

- a. an accurate and complete invoice and any other documents required by the Contract have been submitted in accordance with the invoicing instructions provided in the Contract;
- b. all such documents have been verified by Canada;
- c. the Work performed has been accepted by Canada.

6.8 Electronic Payment of Invoices - Contract

The Government of Canada is phasing out paper cheques in favour of Direct Deposit for all payments issued by the Receiver General. Direct Deposit is a secure and reliable method of receiving payment, eliminating the risk of lost or stolen cheques. You will find all the information to enrol in direct deposit with Canadian Space Agency at: <http://www.asc-csa.gc.ca/eng/forms/vendor-direct-depot-form.asp>

6.9 Invoicing Instructions

The Contractor must submit invoices in accordance with the section entitled "Invoice Submission" of the general conditions. Invoices cannot be submitted until all work identified in the invoice is completed.

Each invoice must be supported by:

- a. a copy of the release document and any other documents as specified in the Contract;
- b. a copy of the monthly progress report.

Claims must be distributed as follows for certification and payment:

- One (1) copy must be forwarded to the following address:

CANADIAN SPACE AGENCY
9F015 – FINANCIAL SERVICES
facturation-invoicing@asc-csa.gc.ca

- One (1) copy must be forwarded to the Technical Authority identified under the section entitled "Authorities" of the Contract.

6.10 Certifications and additional information

6.10.1 Compliance

Unless specified otherwise, the continuous compliance with the certifications provided by the Contractor in its bid or precedent to contract award, and the ongoing cooperation in providing additional information are conditions of the Contract and failure to comply will constitute the Contractor in default. Certifications are subject to verification by Canada during the entire period of the Contract.

6.10.2 Insurance

The Contractor is responsible for deciding if insurance coverage is necessary to fulfill its obligation under the Contract and to ensure compliance with any applicable law. Any insurance acquired or maintained by the Contractor is at its own expense and for its own benefit and protection. It does not release the Contractor from or reduce its liability under the Contract.

6.10.3 Applicable Laws

The Contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in _____ (*insert the name of the province as specified by the Bidder in its bid*).

6.11 Performance Evaluation

Contractor shall take note that the performance of the Contractor during and upon completion of the work shall be evaluated by the Government of Canada. Should the Contractor's performance be considered unsatisfactory more than once, the Contractor's bidding privileges on future work may be suspended for a period of 18 months or 36 months.

Contractor Performance Evaluation Report Form is used to record the performance. See Annex D.

6.12 No responsibility to pay for work not performed due to closure of Government office

Where the contractor, its employees, subcontractors, or agents are providing services on government premises under the contract and those premises are inaccessible because of the evacuation or closure of government offices, and as a result no work is performed, Canada is not responsible for paying the contractor for work that otherwise would have been performed if there had been no evacuation or closure

If, as a result of any strike or lock-out, the contractor or its employees, subcontractors or agents cannot obtain access to government premises and, as a result, no work is performed, Canada is not responsible for paying the contractor for work that otherwise would have been performed if the contractor had been able to gain access to the premises

6.13 Recourse for suppliers with respect to the Procurement Process

Canada encourages suppliers to first bring their concerns to the attention of the Contracting Authority. There are several mechanisms available to suppliers to address concerns they may have related to federal government procurement, such as: the Office of the Procurement Ombudsman (OPO), the Canadian International Trade Tribunal (CITT), the Competition Bureau, and before the Federal Court of Canada and any of Canada's provincial superior courts. Regardless of the forum to which a supplier brings a complaint, there are strict timelines for filing complaints. Additional information can be found at Canada's Buy and Sell website at www.buyandsell.gc.ca under the heading "Supplier Dispute Management Process".

6.13.1 Dispute Resolution

The Parties agree to make every reasonable effort, in good faith, to settle amicably all disputes or claims relating to or arising from the Contract, through negotiations between the Parties' representatives authorized to settle. If the Parties do not reach a settlement within 10 working days, each party hereby consents to fully participate in and bear the cost of mediation led by the Procurement Ombudsman pursuant to Subsection 22.1(3)(d) of the *Department of Public Work and Government Services Act* and Section 23 of the *Procurement Ombudsman Regulations*.

The Office of the Procurement Ombudsman may be contacted by telephone at 1-866-734-5169, by e-mail at boa.opo@boa-opo.gc.ca, or by web at www.opo-boa.gc.ca.

6.13.2 Contract Administration

The parties understand that the Procurement Ombudsman appointed pursuant to Subsection 22.1(1) of the *Department of Public Works and Government Services Act* will review a complaint filed by the complainant respecting the administration of the Contract if the requirements of Subsection 22.2(1) of the *Department of Public Works and Government Services Act* and Sections 15 and 16 of the *Procurement Ombudsman Regulations* have been met.

To file a complaint, the Office of the Procurement Ombudsman may be contacted by e-mail at boa.opo@boa-opo.gc.ca, by telephone at 1-866-734-5169, or by web at www.opo-boa.gc.ca.

ANNEX B / BASIS OF PAYMENT

The Bidder must complete this pricing schedule by inserting in its financial bid for each of the item specified below its quoted firm all inclusive price (in Can \$).

Table #3 – Pricing schedule		
Period: From contract award date to March 31 st , 2024.		
Item	Description	All-inclusive Firm price
Project Management		
1	The Contractor will be responsible for issuing the agenda at least 2 business days in advance of the kick-off meeting and for issuing minutes within a maximum of 3 business days of the meeting to capture decisions and actions. The kick-off meeting should take place no later than one (1) week after the start date of the contract.	\$
Development and Review of Resource Packages and Assessment Rubric		
2	Completed resource package including an educator guide, presentation, worksheets, and assessment rubric for Challenge #2, deliverables are due by May 31, 2023.	\$
3	Completed resource package including an educator guide, presentation, worksheets, and assessment rubric for Challenge #3, deliverables are due by March 31, 2024.	\$
Engage and Support Educators		
4	Engagement and promotional plan describing proposed approaches of current/future promotional networks to be used, their expected reach, marketing efforts targeting the various audiences and regions, and educator support provided from the time of award of the contract. Reflection, adaptation, and extra effort may be required to ensure educators serving the youth from groups underrepresented in STEM are engaged. The plan for each challenge cycle must be presented to the CSA for approval.	\$
Assessment of Challenge Entries		
5	Completed assessment for all the entries as well as selection of Top 20 entries by March 31, 2023 for Challenge #1.	\$
6	Completed assessment for all the entries as well as selection of Top 20 entries by March 31, 2024 for Challenge #2.	\$
Data Collection and Reporting* Including bi-weekly meetings		
7	Mid-contract report must be delivered to the CSA by August 2023. In addition to the data listed above, this report must include: <ul style="list-style-type: none"> • Details on the reach of engagements – such as conference sessions, etc., with details collected from the educators listed above; • Feedback collected on the assessment and the resource package; • Challenges faced during the project and mitigation strategies applied; • Recommendations for the second challenge based to the feedback and experience so far. 	\$
8	A closing report must be delivered to the CSA at the latest at the end of March 2024. The report should include for Challenge #1 and #2: <ul style="list-style-type: none"> • number of educators and youth engaged per province and territory; • number of educators reached who work with underrepresented youth; • number of engagements delivered in French and English per province and territory; • challenges faced during the project and mitigation strategies applied; • an analysis summarizing the feedback received from educators during or after the activities and highlighting sample comments; • recommendations for similar activities in the future. 	\$
Sub-Total firm price		\$
Applicable taxes (__%)		\$
Total		\$

Option to Extend the Term of the Contract

This section is only applicable if the option to extend the Contract is exercised by Canada.

During the extended period of the Contract specified below, the Contractor will be paid as specified below to perform all the Work in relation to the Contract extension.

Table # 4 – Pricing schedule for Optional services		
Item	Description	All-inclusive Firm price
Development and Review of Resource Packages and Assessment Rubric		
A	Completed resource package including an educator guide, presentation, worksheets, and assessment rubric for Challenge #4.	\$
Engage and Support Educators		
B	Engagement and promotional plan describing proposed approaches of current/future promotional networks to be used, their expected reach, marketing efforts targeting the various audiences and regions, and educator support provided from the time of award of the contract. Reflection, adaptation, and extra effort may be required to ensure educators serving the youth from groups underrepresented in STEM are engaged. The plan for each challenge cycle must be presented to the CSA for approval.	\$
Assessment of Challenge Entries		
C	Completed assessment for all the entries as well as selection of Top 20 entries for Challenge #3 .	\$
Data Collection and Reporting* Including bi-weekly meetings		
D	Mid-contract report must be delivered to the CSA. In addition to the data listed above, this report must include: <ul style="list-style-type: none"> • Details on the reach of engagements – such as conference sessions, etc., with details collected from the educators listed above; • Feedback collected on the assessment and the resource package; • Challenges faced during the project and mitigation strategies applied; • Recommendations for the second challenge based to the feedback and experience so far. 	\$
E	A closing report must be delivered to the CSA. The report should include for Challenge #3 : <ul style="list-style-type: none"> • number of educators and youth engaged per province and territory; • number of educators reached who work with underrepresented youth; • number of engagements delivered in French and English per province and territory; • challenges faced during the project and mitigation strategies applied; • an analysis summarizing the feedback received from educators during or after the activities and highlighting sample comments; • recommendations for similar activities in the future. 	\$

ANNEX C / STATEMENT OF WORK

The Contractor must perform the Work specified hereunder, in accordance with its technical bid entitled _____, dated _____. (*To be inserted at contract award*)

SPACE BRAIN HACK

Objectives

The Canadian Space Agency (CSA) is seeking a Contractor to engage and support educators working with youth in grades 6-12 (grade 6 to secondary 5 in Quebec) for the national implementation of its [Space Brain Hack](#) activity. Through this initiative, youth are invited to brainstorm and propose solutions, innovations, and inventions to open-ended problems, within specific limitations, to the same challenges that experts are actively working on as Canada prepares to visit the Moon as part of the Lunar Gateway program. The solutions brainstormed and out-of-box thinking coming from Canadian youth may help inspire experts and shape Canada's space program.

The Contractor and/or subcontractor(s) should have expertise in the development of curricula-aligned educational resources. It will be asked to develop teaching materials to assist and enable educators, provide educator support throughout the challenge period, and promote the submission of ideas from youth across the country. The ideal Contractor has experience and knowledge regarding student assessment strategies, the processes involved, and has the capacity to assess student-submitted ideas, providing a selection of notable entries for review by CSA topic experts.

In order to reach youth through Science, Technology, Engineering and Mathematics (STEM) activities, it is important to consider educators who have an influence on their learning, future education, and career choices. Educators can include parents, teachers, volunteers, and youth group leaders through various organizations (e.g. schools, school boards, teachers' associations, science centres, youth organizations, youth associations, clubs, community groups, etc.).

The Contractor should have experience optimizing educational activities for multiple audiences and contexts, including but not limited to: classrooms, after-school or club-based groups, and groups of youth from demographic audiences underrepresented in STEM. Throughout this process, feedback from educators will be collected, analyzed, and reported on by the Contractor. The activity and educator support must be delivered at no cost for the participants during the contract period and should be available in both official languages.

The target audience for this initiative includes educators and youth across Canada. It is expected that through strategic partnerships, the Contractor also ensures engagement of educators who cater to the following groups underrepresented in STEM: girls, indigenous students, racialized students, students with varied abilities, and those in socio-economically disadvantaged areas. The educators working with these youth may require additional support to adapt the activity.

Background

The Canadian Space Agency partners with government, industry, universities, and international organizations to meet citizens' evolving needs. The CSA undertakes a number of activities to support industry and science endeavors such as earth observation by satellite and collection of data, development of innovative space technologies and applications used on Earth, and participation in astronaut missions, astronomy and planetary studies, and scientific research in space. These contributions can include developing and testing novel ideas and technologies to solve problems that experts at CSA, in industry, and academia encounter.

Space has a unique ability to inspire young people across all genders, cultures and communities to pursue an interest and studies in STEM subjects. CSA is committed to inspiring young Canadians through space as highlighted in the Government's Space Strategy for Canada entitled "[Exploration, Imagination, Innovation: A New Space Strategy for Canada](#)". All young Canadians should have access to high-quality space learning activities, experiences and training that inspire and empower them as the next generation to contribute to an innovative global space sector. As such, the CSA aims to design and deliver STEM activities that promote equality, diversity, and inclusiveness to reach youth from diverse backgrounds.

Every year, from early October to the end of February educators will have the opportunity to engage youth on a real open-ended Space problem. The educators and youth will be provided with a resource package that contains all the background information as well as tool kit on the website with all the additional information. Youth may access this activity through educators in a number of different learning contexts, or individually, and can submit ideas for consideration by the CSA. The most promising ideas of the challenge will be announced in May of every year.

Scope of work

The Contractor will engage educators working in a variety of settings (schools, STEM organizations, camps, science centres, etc.) across every Canadian province and territory to encourage youth target audiences from grades 6 to 12 (grade 6 to secondary 5 in Quebec) to participate in the Space Brain Hack initiative each year of the contract.

Using a variety of communication methods and opportunities, the Contractor will inform educators and students of the challenge details through social media, conferences, and various other forms of engagements to promote participation in coordination with the CSA's Communications and Public Affairs Directorate.

The Contractor will work with information from CSA experts to build educational resources, including, grade-level appropriate (two groups: grades 6-8 and grades 9-12) informational products, and other required support to participating educators throughout the challenge period to ensure their confidence and satisfaction with the initiative.

Throughout the contract period, the Contractor will provide on-going updates and feedback based on their engagement with educators, and adjust approaches in regions where participation may be considered low. The target is to engage with at least 100 educators (parents, teachers, volunteers, and youth group leaders) in a combination of settings (schools, STEM organizations, camps, science centres, etc.) in the first challenge taking place in 2022-2023. For 2023-2024, the Contractor should secure at least 200 educators. All the educators must be across the four following regions:

- 1) Newfoundland and Labrador, Prince Edward Island, Nova Scotia, New Brunswick.
- 2) Ontario and Quebec.
- 3) Manitoba, Saskatchewan, Alberta, and British Columbia.
- 4) Nunavut, Northwest Territories, and Yukon Territory

The Contractor will be working on various aspects of the project tasks (promotion, assessment, resource package development, educator engagement, and data and reporting) in each of the following three challenges, taking place in the following timeframes:

- Challenge #1 runs from October 2022 to February 2023
- Challenge #2 will run from October 2023 to February 2024
- Challenge #3 will run from October 2024 to February 2025

Governance

Project Management

The CSA will provide the Contractor with relevant background information and access to expertise, as necessary, for the Contractor to perform the work. Every attempt will be made, throughout the course of the contract, to provide timely information requested by the Contractor, if deemed relevant to the project.

The Contractor will conduct a kick-off meeting, via teleconference or video call, with the CSA team for the purpose of introducing the Contractor's resources and CSA team members and confirming the scope, deliverables, relevant documents, timelines, basis of payment and invoicing/payment schedule.

To guide the overall project execution, the Contractor will share their plan on how it expects to drive the project and ensure its success. This plan should contain information such as the project team organization and division of responsibilities, including those from subcontractors; a high level schedule; a high level estimate of costs per deliverable per fiscal year; information on risk management and approaches to mitigate risks (including risk funds); a process for managing modifications and/or adaptations, and baseline information for progress measurement and reporting.

The Contractor must regularly communicate with the CSA team to inform on the advancement of the work and to discuss progress. These updates will be in the form of meetings with a written summary and the frequency will depend on the timeline and tasks. The Contractor's written summaries must be provided in a format that facilitates efficient communication and decision-making as determined by the CSA team.

At the closure of the project, the Contractor will provide a final report.

Project Management - Deliverables required:	Kick-off meeting - The Contractor will be responsible for issuing the agenda at least 2 business days in advance of the kick-off meeting and for issuing minutes within a maximum of 3 business days of the meeting to capture decisions and actions. The kick-off meeting should take place no later than one (1) week after the start date of the contract. A plan for the overall project execution to be updated as the project progresses.
--	--

Project Tasks

Development and Review of Resource Packages and Assessment Rubric

To aid the educators in preparing and successfully implementing the challenge with the youth, each challenge will be accompanied by a resource package. The package is intended to provide them with the information, guidance, and confidence needed to teach the content linked to the challenge while also reducing the educators' preparation time to no more than what would be required for a regular lesson. This resource package will include grade-level appropriate materials (two versions: Grade 6-8 and 9-12) such as:

- an educator guide
- a presentation
- worksheets

The educator guide should include high level curriculum mapping of the topic, objectives, learning outcomes, grade appropriate background information, proposed format to implement the challenge, pre-challenge activities (if any) as well as additional resources. The Contractor will develop an assessment rubric to be used by its team and the CSA to evaluate the submissions. The documents will be based on the topic chosen for the challenge for that year.

Challenge #1

Benefiting from the pilot edition of the Space Brain Hack, the CSA will be responsible to supplying a resource package and assessment rubric for Challenge #1.

Challenge #2 & #3

Based on suggestions from the Contractor and CSA experts' input, the CSA will select a topic for Challenges #2 and #3. The Contractor will develop the resource package and the assessment rubric using CSA-provided templates, informed by a comprehensive review of Challenge #1 documents and feedback. The CSA will provide access to information and experts on the topic chosen to aid in the development of the materials. The CSA expects the Contractor to review the created resources with a variety of educators who interact with the youth in the target grades to gather feedback and identify information gaps before the package is finalized.

The draft versions of the documents will be provided to the CSA for review and content validation. It is important to note that the process of content validation will be done prior to public release. Planning for this deliverable should include time for multiple iterations before the delivery of the finalized documents. The timeframe for review of the documents by CSA would vary anywhere from 1 week to a month depending on the length of the documents. The Contractor will be providing the documents in the language of their choosing and the CSA will be responsible for review and translation.

Development and Review of Resource Packages and Assessment Rubric - Deliverables required and deadlines:	Completed resource package including an educator guide, presentation, worksheets, and assessment rubric for: <ul style="list-style-type: none">• Challenge #2, deliverables are due by May 31, 2023.• Challenge #3, deliverables are due by March 31, 2024.
---	--

Engage and Support for Educators

From the time of award of the contract, the contractor will coordinate educator engagement and support efforts, and information/expert sessions with the CSA.

Engagement

The initiative must be promoted across Canada. Promotion of each challenge must consider conferences that happen outside of the traditional school schedule i.e. summer time, reading break, etc. Special efforts must also be made to reach educators of underrepresented youth in STEM. Promotion should be conducted in coordination with the CSA.

Activity promotion will target educators and could include a variety of platforms and communications channels such as virtual and in-person engagement, science fairs, email blasts/newsletters, traditional and new media, cross-promotion, targeted social media posts, etc. The use of innovative marketing tools is encouraged. The promotion of the initiative must align with educator's planning for the school year, typically started during spring time prior to the upcoming school year and continuing through summer.

Educator Support

Additional support throughout the duration of the activity must also be made available to the educators in both English and French via email and phone. Enquiries should be replied to within 2 business days and within 24 hours during the final month of each challenge. Inquiries could include request for help with submitting forms online, downloading and accessing resource package material, as well as answering any questions related to the challenge, the implementation of the challenge and the challenge's terms and conditions. The Contractor must report to the CSA any recurring issues faced by the educators to devise a mitigation strategy.

Plans for educator engagement and promotional activities must to be approved by the CSA in advance (before preparation begins). The Contractor must submit a draft of resources and a plan on how they will meet the needs of the audience (including details like the content, format, and length of the documents) for CSA's approval. Support and consultation from the CSA and experts will be available throughout this process.

<p>Engage and Support for Educators - Deliverables required and deadlines:</p>	<p>Engagement and promotional plan describing proposed approaches of current/future promotional networks to be used, their expected reach, marketing efforts targeting the various audiences and regions, and educator support provided from the time of award of the contract. Reflection, adaptation, and extra effort may be required to ensure educators serving the youth from groups underrepresented in STEM are engaged. The plan for each challenge cycle must be presented to the CSA for approval. The engagement and promotion plan for Challenge #2 is due by the end of June 2023. The Contractor will include lessons learned and provide strategies for future challenges from the experiences of the previous challenge(s).</p>
---	--

Assessment of the Challenge Entries

An important aspect of the challenge is awarding and recognizing the amazing ideas submitted by Canadian youth. This part of the work will involve the Contractor assessing all the entries and proposing the top 20 entries to the CSA. The assessment will take place based on the rubric developed by the CSA in Challenge #1 and by the Contractor in Challenge #2 and #3. The Contractor will review the entries in each Challenge for eligibility, assess all the eligible entries, and provide CSA with all the assessments including justifications for the rankings in the form of notes, comments, and numbered ranking. The experts at the CSA and the contractor will review the top 10 entries in each grade level (Gr 6-8 and Gr 9-12/Secondary V in QC) and select the winners. The winning entries will be presented with prizes and the CSA will announce the winners.

<p>Assessment of the Challenge Entries - Deliverables required and deadlines:</p>	<ul style="list-style-type: none"> Completed assessment for all the entries as well as selection of Top 20 entries by March 31, 2023 for Challenge #1 and March 31, 2024 for Challenge #2.
--	---

Data Collection and Reporting

The Contractor must collect the following information from the educators:

- Grade level and number of youth participating in each challenge
- Participating schools/organizations
- City/town and province of the schools/organizations
- Whether any of the participants are in the underrepresented groups in STEM (girls, Indigenous youth, racialized youth, youth with exceptionalities, and youth from socio-economically disadvantaged areas)
- Likelihood of the educators participating in the Challenge again
- Percentage of youth interested in participating in the Challenge again
- General feedback on the resources as well as the Challenge

CSA may request the data at any point during the contract and these ad hoc requests may require a short response time due to the urgency of the situation. The Contractor will report the data to the CSA during the weekly/biweekly meetings as well as on monthly basis. The Contractor will include this information in the mid-contract as well as closing report. The contractor will report regularly to CSA on the engagements and feedback from educators on the initiative.

<p>Data Collection and Reporting - Deliverables required and deadlines:</p>	<ul style="list-style-type: none"> • Reporting of data during bi-weekly meetings with the CSA team. The information will include the data listed as well as the following: <ul style="list-style-type: none"> ○ Any gaps noted in the engagement reach ○ Mitigation strategies for filling the gaps • Mid-contract report must be delivered to the CSA by August 2023. In addition to the data listed above, this report must include: <ul style="list-style-type: none"> ○ Details on the reach of engagements – such as conference sessions, etc., with details collected from the educators listed above; ○ Feedback collected on the assessment and the resource package; ○ Challenges faced during the project and mitigation strategies applied; ○ Recommendations for the second challenge based to the feedback and experience so far. • A closing report must be delivered to the CSA at the latest at the end of March 2024. The report should include for Challenge #1 and #2: <ul style="list-style-type: none"> ○ number of educators and youth engaged per province and territory; ○ number of educators reached who work with underrepresented youth; ○ number of engagements delivered in French and English per province and territory; ○ challenges faced during the project and mitigation strategies applied; ○ an analysis summarizing the feedback received from educators during or after the activities and highlighting sample comments; ○ recommendations for similar activities in the future.
--	---

Deliverables Reception and Approval

Unless otherwise agreed with the CSA, all deliverables must be completed by the dates indicated in the different documents provided by the Contractor and accepted by the CSA team. Amendments and updates to the agreed deliverables must be discussed with the CSA team and accepted by them before the contractor proceeds with the work.

Document deliverables must be submitted to the CSA team in an electronic format (Word, Excel, PowerPoint) that is best suited for the task, unless otherwise instructed by the CSA team. Reports provided in Word must have an executive summary and table of contents.

Once a deliverable is submitted, the CSA team will have ten (10) business days to review, provide their feedback and approve the deliverable. For deliverables that take place over several weeks or months, the Contractor and the CSA team can negotiate reception and approval of a deliverable by milestones instead of a single CSA approval at the completion of the deliverable.

DURATION

The activities for the initiative will take place from the date of the award to March 2024 and is subdivided in several tasks and follows the timeline detailed below:

Task	Start Date	End Date	Responsibility of
Challenge #1: Challenge Timeframe	Started 20-Oct-22	February 23, 2023	CSA and Contractor
Challenge #2: Resource package development	As soon as the topic is decided in Fall 2022	31-May-23	Contractor
Challenge#1 Assessment of all entries	Contract start date	31-Mar-23	Contractor
Challenge #1: Review of top 20 entries	31-Mar-23	30-Apr-23	CSA
Challenge #1: Announcement of the winners	01-May-23	15-May-23	CSA
Challenge #2: Pre-challenge Promotion	15-May-23	03-Oct-23	CSA and Contractor
Challenge #2: Challenge Timeframe	04-Oct-23	28-Feb-24	Contractor
Challenge #3: Resource package development	20-Oct-22	February 23, 2023	CSA and Contractor
Challenge #2: Assessment of all entries	As soon as the topic is decided in Fall 2022	31-May-23	Contractor

ANNEX D / PERFORMANCE EVALUATION REPORT
