***Provide additional information:**

Canada is requesting bidders: to provide drawings and/or pictures including descriptive literature for these products with your bid submission.

**** Modifiable Bases**

Canada is requesting bidders: to provide drawings and/or pictures including descriptive literature demonstrating how this product is made and could easily be adjusted or further modified to support surfaces ranging from, at minimum, 48in to 72in wide.

OSFI's intent is to, at OSFI's discretion, be able to modify the height adjustable base in the future for use in other projects which may require different width surfaces to what is defined here. We are looking to be able to re-use the existing mechanisms for surfaces ranging, at minimum, from 48in wide to 72in wide (depth would remain 30in).

Should OSFI decide to modify those height adjustable bases OSFI understands doing such modifications may void warranty and takes full responsibility.
