Care should be taken by Bidders to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the question(s) or may request that the Bidder do so, so that the proprietary nature of the question(s) is eliminated, and the enquiry can be answered to all Bidders. Enquiries not submitted in a form that can be distributed to all Bidders may not be answered by Canada.

- a) Any resulting contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in Ontario.

PART 3 BID PREPARATION INSTRUCTIONS

3.1 Bid Preparation Instructions

Copies of Bid: Canada requests that Bidders provide their bid in separately bound sections as follows:

- (a) **Section I:** Technical Bid and Certifications – Technical Bid must be submitted in PDF and Word Format. If there is any discrepancy between the two formats, the PDF will have priority over the Word format.
- (b) **Section II:** Financial Bid – Must be in original Excel format, not as a PDF.

3.2 Section I: Technical Bid (Mandatory at Solicitation Closing):

- (a) **Bid Submission Form:** Bidders are requested to include the Form 1 – Bid Submission Form with their bids. It provides a common form in which bidders can provide information required for evaluation and contract award, such as a contact name, and the Bidder's Procurement Business Number, the Bidder's status under the Federal Contractors Program for Employment Equity, etc. Using the form to provide this information is not mandatory, but it is recommended. If Canada determines that the information required by the Bid Submission Form is incomplete or requires correction, Canada will provide the Bidder with an opportunity to do so.
- (b) **Annex C - Mandatory Requirements for Equivalent Products** (if applicable)
- (c) **Certifications:** It is a requirement that bidders submit the certifications required under Part 5.

3.3 Section II: Financial Bid (Mandatory at Solicitation Closing):

- (a) **Pricing:** Bidders must submit their financial bid in accordance with Annex B – List of Deliverables and Prices, and by filling out Annex B. Bidders must quote firm unit prices in Canadian dollars, Delivered Duty Paid (DDP) destination delivery included, and Duty included (where applicable). The total amount of Applicable Taxes must be shown separately. The completed Annex B must also include the appropriate product code for every line item otherwise the bid will be deemed non-compliant and will be given no further consideration. The Bidder is requested to fill in the bid prices at Annex B.
- (b) **All Costs to be Included:** The financial bid must include all costs for the requirement described in the bid solicitation for the entire Contract Period. The identification of all necessary equipment, software, peripherals, cabling and components required to meet the requirements of the bid solicitation and the associated costs of these items is the sole responsibility of the Bidder.
- (c) **Blank Prices:** Bidders are requested to insert "\$0.00" for any item for which it does not intend to charge or for items that are already included in other prices set out in the tables. If the Bidder leaves any price blank, Canada will treat the price as "\$0.00" for evaluation purposes and may request that the Bidder confirm that the price is, in fact, \$0.00. No Bidder will be permitted to add or change a price as part of this confirmation. Any Bidder who does not confirm that the price for a blank item is \$0.00 will be declared non-responsive.

PART 4 EVALUATION PROCEDURES AND BASIS OF SELECTION

4.1 Evaluation Procedures

- (a) Bids will be assessed in accordance with the entire requirement of the bid solicitation including the technical and financial evaluation criteria.
- (b) **Requests for Clarifications:** If Canada seeks clarification or verification from the Bidder about its bid, the Bidder will have 2 working days (or a longer period if specified in writing by the Contracting Authority) to provide the necessary information to Canada. Failure to meet this deadline will result in the bid being declared non-responsive.
- (c) **Requests for Further Information:** If Canada requires additional information in order to do any of the following pursuant to the Section entitled "Conduct of Evaluation" in 2003, Standard Instructions - Goods or Services - Competitive Requirements:
 - (i) verify any or all information provided by the Bidder in its bid;

the Bidder must provide the information requested by Canada within 2 working days of a request by the Contracting Authority.

- (d) **Extension of Time:** If additional time is required by the Bidder, the Contracting Authority may grant an extension in his or her sole discretion.

4.2 Technical Evaluation

- (a) Each bid will be reviewed to determine whether it meets the Mandatory Requirements of the bid solicitation. Bids that do not comply with each and every Mandatory Requirement will be declared non-responsive and be disqualified.
- (b) **Testing:**

At the discretion of Canada, any proposed equipment may be tested to demonstrate that it will meet or exceed Canada's mandatory technical specifications.

The Bidder must deliver the equipment proposed to either a location designated by Canada, or to an industry-recognized independent, mutually agreed to, third party testing firm location, no later than 2 business days following a written request by Canada. The Bidder must be available to answer questions and provide further information as requested concerning its equipment. Bidders may be given 48 hours to correct any deficiencies identified during the testing period. Failure to correct any of the deficiencies within this period will render the bid non-responsive and it will be disqualified. All of the associated costs related to this testing will be the responsibility of the Bidder.

At Canada's discretion the required testing can be waived provided the Bidder submits a relevant performance test report from a recognized independent 3rd party-testing firm acceptable to Canada. The report must be based on testing done on the identical equipment, hardware and firmware versions being offered and includes testing against all mandatory technical specifications of the Category.

4.3 Financial Evaluation

- (a) The financial evaluation will be conducted by calculating the Total Bid Price using the Pricing Table in Annex B – Pricing Table completed by the Bidders. The Total Bid Price will be based on the sum of all total prices for the deliverables specified in Annex B, GST/HST extra.
- (b) All prices quoted for products listed in the pricing table must include 12 months of OEM maintenance and support at the specified Service level in the Annex B.

4.4 Basis of Selection

- (a) A bid must comply with all requirements of the bid solicitation and meet all mandatory evaluation criteria to be declared responsive. **The responsive bid with the lowest evaluated price will be recommended for award of a contract.**
- (b) Bidders should note that all contract awards are subject to Canada's internal approvals process, which includes a requirement to approve funding in the amount of any proposed contract. Despite the fact that the Bidder may have been recommended for contract award, a contract will only be awarded if internal approval is granted according to Canada's internal policies. If approval is not granted, no contract will be awarded.
- (c) All Bidders will be informed of the outcome of the RFQ.

PART 5 CERTIFICATIONS

Bidders must provide the required certifications and associated information to be awarded a contract.

The certifications provided by Bidders to Canada are subject to verification by Canada at all times. Unless specified otherwise, Canada will declare a bid non-responsive, or will declare a contractor in default if any certification made by the Bidder is found to be untrue whether made knowingly or unknowingly, during the bid evaluation period or during the contract period.

The Contracting Authority will have the right to ask for additional information to verify the Bidder's certifications. Failure to comply and to cooperate with any request or requirement imposed by the Contracting Authority will render the bid non-responsive or constitute a default under the Contract

5.1 Certifications Precedent to Contract Award and Additional Information

The certifications and Additional information listed below should be submitted with the bid, but may be submitted afterwards. If any of these required certifications or additional Information is not completed and submitted as requested, the Contracting Authority will inform the Bidder of a time frame within which to provide the information. Failure to provide the certification or the additional information listed below within the time frame provided will render the bid non-responsive.

(a) OEM Certification

Any Bidder that is not the Original Equipment Manufacturer (OEM) for every item of hardware and/or software proposed as part of its bid is required to submit the OEM's certification regarding the Bidder's authority to provide and maintain the OEM's hardware and/or software, which must be signed by the OEM (not the Bidder). No Contract will be awarded to a Bidder who is not the OEM of the hardware and/or software it proposes to supply to Canada, unless the OEM certification has been provided to Canada. Bidders are requested to use Form 2 – OEM Certification Form included with the bid solicitation. Although all the contents of the OEM Certification Form are required, using the form itself to provide this information is not mandatory. For Bidders/OEMs who use an alternate form, it is in Canada's sole discretion to determine whether all the required information has been provided. Alterations to the statements in the form may result in the bid being declared non-responsive.

If the hardware and/or software proposed by the Bidder originates with multiple OEMs, a separate OEM certification is required from each OEM.

For the purposes of this bid solicitation, OEM means the manufacturer of the hardware and/or software, as evidenced by the name appearing on the hardware and/or software, on all accompanying documentation, on mandatory certification reports, and on any support software. "Hardware" is defined as the assembled end product being proposed.

(b) Integrity Provisions – Required Documentation

In accordance with the [Ineligibility and Suspension Policy \(http://www.tpsgc-pwgsc.gc.ca/ci-if/politique-policy-eng.html\)](http://www.tpsgc-pwgsc.gc.ca/ci-if/politique-policy-eng.html), the Bidder may be requested to provide the required documentation in Form 2 – Integrity Form, as applicable, to be given further consideration in the procurement process.
