### **Description of Work:**

The Health Products and Food Branch (HPFB) aims to better inform Canadians to help them make healthy choices by modernizing business efficiency, improving data analytics capacity, alternating service delivery models and enhancing regulatory transparency and openness. HPFB will make transparency the default way of doing business, while respecting the legitimate interest of businesses as necessary, protecting privacy and meeting other legal obligations. The main objectives have been to ensure HPFB's data is secure by developing data disaster discovery plans and software performance is maintained and improved. HPFB plans to continue investing in various IT projects to improve and expedite current processes and ensure consistent and seamless storage continuity and capabilities.

As such, Health Canada has a the need for a Contractor's services to offer service/system analysing services to review stored digital information holdings to improve transparency across the HPFB.

- Bidders must submit a bid for all resource categories
- The work is currently not being performed by a contracted resource
