Response(s) (R) to Question(s) (Q):

Q1: Item number 4.

The description is 90 x 42", the GOCUID is 96 x 48". Which size do you want?

It also asks for 6 data, and 6 duplexes per table. That is 12 power outlets for a 8' long table that only would sit 6 people comfortably. Are you sure you require that much power and data? The standard for this size is only 2 Duplexes (4 outlets) and 2 data.

R1: We would like 42"d x 90"w x 42"h. We would like 6 data and 6 power. 1 of each per chair, there is no WIFI.

Q2: Item number 9

Are you looking for a D-Shaped Top with a round end, or a standard rectangular top. For this application we are not sure why a D-top would be required.

R2: We prefer the look of the D-Top shape as one end of the booth is placed up against the wall.

Q3: Item number 2

GOCUID 6SMORBXXLU25G19LYNN calls for a bench with back that is 25-39" Wide. If you require 2 and 3 seater benches there GoCUID's available for those pieces. This specification is vague and without clarity we would quote based on the GoCuid provided to ensure fair competition. Please update the GoCUID(s) or provide a detailed drawing showing exactly what you are trying to build.

R3: Please proceed with quote on provided GoCuid. Sofa style seating is the goal to be created in lounge area's with a combination of 2 different sized pieces. L-Shape and U orientations to be created.

small pieces – 2 seater (47" by 26"): 27
bigger pieces – 3 seater (72" by 26"): 14

Q4: Please provide a 1 week extension so we can get clarity and quote properly.

R4: We would like to proceed with the original time line in order to meet the March 31, 2023 install.
