Bidders should reference as accurately as possible the numbered item of the bid solicitation to which the enquiry relates. Care should be taken by bidders to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the question(s) or may request that the Bidder do so, so that the proprietary nature of the question(s) is eliminated, and the enquiry can be answered to all Bidders. ANNEX A – Statement of Work

1. Introduction:

- 1.1 The Correctional Service of Canada (CSC) Health Services require the services of a psychologist for *Fraser Valley Institution*.

The psychologist will provide psychological assessment and/or treatment services to offenders and collaborate with the interdisciplinary health services team that includes, but is not limited to nursing, psychology, social work, occupational therapy and other allied healthcare professionals. Collaboration with the case management team is also essential and in community sites, the treatment/supervision team also includes the Parole Officer Supervisor, Parole Officer, and the CSC staff psychologist and/or the Project Authority.

2. Background:

- 2.1 CSC has a legal obligation, under the Corrections and Conditional Release Act (CCRA), to “provide every offender with essential health care and reasonable access to non essential mental health care”.
- 2.2 The Commissioner’s Directives 800 series are the key references on essential health services covering Clinical services, mental health and public health services.
- 2.3 The mission of Health Services is to provide offenders with efficient and effective health services that **encourage individual responsibility, promote healthy reintegration and contribute to safe communities**.
- 2.4 Consistent with its transformation agenda, CSC recognizes that health outcomes are a shared responsibility between service providers and offenders. Offenders must be involved in taking responsibility and proactive measures to safeguard their health, which includes mental health.
- 2.5 In institutional settings, Health Services are provided in ambulatory Health Service Centres in institutions, regional hospitals and regional treatment / psychiatric centres. Incarcerated offenders may have to go to the community for emergency services, specialized health care services and for hospitalization that cannot be accommodated in CSC’s regional hospitals. In CSC, health care is provided by a wide range of regulated and non-regulated health professionals.
- 2.6 In broad terms health care means medical, dental, mental health care and public health services. During the period of incarceration, offenders are provided with a range of coordinated health services that are accessible, affordable, and appropriate to the correctional environment.
- 2.7 Security requirements: The contractor will have to obtain a Designated Organization Screening and personnel security clearance.

3. Objective:

- 3.1 Provide essential and non-essential mental health and/or psychological assessment or psychological risk assessment services to offenders, as requested by the Project Authority, at Fraser Valley Institution as a psychologist.

3.2 Treatment Orientation

The treatment/counselling orientation utilized by Correctional Service Canada (CSC) is cognitive-behavioural. All psychological treatments offered to offenders by the contractors must be evidence-based with known application to offender populations. The principal focus of treatment will depend on the nature of the referral and the offender’s needs. Although the usual objectives of treatment

include the reduction of risk to reoffend, a priority should also be placed on the amelioration of the offender's mental health and emotional or behavioural functioning, including feelings, attitudes, beliefs and behaviours that moderately to severely impact or interfere with daily functioning. The offender's motivation for the index offence (particularly in cases of sexual offenders) should be addressed in this context.

4. Performance standards:

- 4.1 The Contractor must take into account gender, cultural, religious and linguistic differences and be responsive to the special needs of women and Aboriginal People.

4.2 Quality Assurance of Psychological Services:

- a. The Contractor must provide all services in compliance with federal and provincial legislation and standards, provincial and national guidelines, practice standards and CSC Policy/Guidelines including the CSC Mental Health Policy and guidelines.
 - b. The Contractor must provide services in accordance with the ethical and professional practice standards of the applicable provincial regulatory body, the Canadian Code of Ethics for Psychologists and relevant legislation guiding the practice of Psychology within correctional settings.
 - c. The Contractor is expected to consult with the Project Authority to ensure that all psychological practices are consistent with the relevant and most current legislation, practice standards and policies.
 - d. On a yearly basis or as determined by the Project Authority, the Project Authority or designate will review a sample of reports to determine if they meet CSC and professional standards for psychological reports. If a report is judged to be substandard, the Contractor must amend the report as requested at no extra cost to the Crown. The amendment must be completed and the amended report submitted to the Project Authority within one (1) week following the date when the amendment was requested.
 - e. Timeliness of the submission of all reports will be monitored on an ongoing basis by the Project Authority. Timeliness will form part of the assessment of the Contractor's work.
- 4.3 The following is a list of key relevant legislation and CSC Policy/Guidelines but should not be considered an exhaustive list. CSC's policies and guidelines can be found on the CSC internet website at www.CSC-SCC.GC.ca or available in hard copy.

Placement of reports on the psychology file and in OMS will normally be carried out by CSC staff. However, the Project Authority may, at their sole discretion, request that the Contractor place reports in the offenders' psychology file and OMS.
- c. As an accountability and quality assurance measure, the Project Authority will periodically review the Contractor's documentation for compliance with contract requirements, consistency and completeness.

4.5 Limits of Confidentiality

- a. Most psychological reports will be available to anyone with access to the Offender Management System (OMS), on a need to know basis. As the limits of confidentiality are broad, as described in CD 803 - Consent to Health Service Assessment, Treatment And Release of Information, before interviewing the offender, the Contractor must ensure that the limits to confidentiality have been communicated and that the offender has consented - in writing - to the assessment and/or counselling process.
- b. Contractors must use CSC Form 4000-18: Consent to Participate In / Receive Health Services for all cases and ensure that the form, signed by the offender and a witness, is included with all reports. (The Project Authority will supply copies of this form to the Contractor upon request). The Contractor must document the consent process in all reports by the Contractor.
- c. Relative to the assessment of risk, in the event that the offender refuses to provide consent, the Project Authority may request that Contractor complete the risk assessment process using all available information.

4.6 Information Sharing – Psychology Reports

- a. Unless pre-arranged with the Project Authority, the Contractor must share all reports that are written for Case Management purposes (including for the Parole Board of Canada) and/or those that contribute to decision-making with the offender by the author of the report. Correctional Service Canada policy specifies that the author and offender sign and date the report at the time that the report is shared. The Contractor must advise the Project Authority if he/she is unable to share the reports and coordinate signatures with the offender. At the discretion and prior approval of the Project Authority, CSC will assume the information sharing and offender signature responsibility.
- b. The Contractor must submit all reports in type written format. The Contractor must send a signed hard copy of reports along with an electronic copy on an encrypted USB stick (Microsoft Word compatible) or via an encrypted e-mail to Correctional Service Canada staff designated by the Project Authority. Electronic copies are required for uploading to the OMS.

- c. Completed psychological reports are to be signed by the Contractor, a psychologist registered for autonomous practice with adults in the province of practice. The Contractor assumes all responsibility for report content.
- d. If amendments to reports are requested by the Project Authority, the Contractor will respond to these requests and make amendments to the report as necessary within one (1) week of notification. If the request for an amendment originates with the offender, the institution will facilitate contact between the offender and the Contractor by phone as necessary. However, should the Project Authority determine that the situation requires direct intervention by the Contractor, the Contractor will arrange to interview the offender in person at the institution.

III. For any requirements that specify a particular time period (e.g., 2 years) of work experience, CSC will disregard any information about experience if the technical bid does not include the required month and year for the start date and end date of the experience claimed.

1. Background / Contexte

Correctional Service Canada (CSC) is mandated, under the Corrections and Conditional Release Act (CCRA), to “provide every inmate with essential health care; and reasonable access to non essential health care”

When health care is provided to inmates, the Service shall

- (a) support the professional autonomy and the clinical independence of registered health care professionals and their freedom to exercise, without undue influence, their professional judgment in the care and treatment of inmates;
- (b) support those registered health care professionals in their promotion, in accordance with their respective professional code of ethics, of patient-centered care and patient advocacy; and
- (c) promote decision-making that is based on the appropriate medical care, dental care and mental health care criteria

The Commissioner’s Directives 800 Health Services and its associated guidelines are the key references on essential health care.

Health care services must respect gender, cultural, religious and linguistic differences.

In order to support inmates in taking responsibility for proactively safeguarding their health, CSC provides:

- information and education on health promotion and disease prevention
- direct health care services

En vertu de la *Loi sur le système correctionnel et la mise en liberté sous condition* (LSCMLC), le Service correctionnel du Canada (SCC) est tenu de « fournir aux détenus les soins de santé essentiels et un accès raisonnable aux soins non essentiels ».

Lorsque des soins de santé doivent être dispensés à des détenus, le Service :

- a) soutient l’autonomie professionnelle et l’indépendance clinique des professionnels de la santé agréés ainsi que la liberté qu’ils possèdent d’exercer, sans influence inopportune, un jugement professionnel dans le cadre du traitement des détenus;
- b) soutient ces professionnels de la santé agréés dans la promotion, selon leur code de déontologie, des soins axés sur le patient et de la défense des droits des patients;
- c) favorise la prise de décisions fondée sur les critères appropriés en matière de soins médicaux, dentaires ou de santé mentale.

La Directive du commissaire 800 – Services de santé et les lignes directrices connexes constituent les principaux documents de référence sur les soins de santé essentiels.

Les Services de santé doivent respecter les différences liées au sexe, à la culture, à la religion et à la langue.

Pour aider les détenus à assumer leurs responsabilités afin qu’ils prennent des mesures proactives pour protéger leur santé, le SCC fournit:

- des renseignements sur la promotion de la santé et la prévention des maladies;
- des soins de santé directs.

Within CSC Institutions, health care is provided in Primary Care Health Centres (PCHC), Intermediate Mental Health Care Units, Regional Continuing Care Centres (RCCC), and Regional Treatment / Psychiatric Centres and other health care units as designated by the Commissioner.

Au sein des établissements du SCC, les soins de santé sont offerts dans des centres de soins de santé primaires (CSSP), des unités de soins intermédiaires de santé mentale, des centres régionaux de continuité de soins (CRCS), des centres psychiatriques/de traitement régionaux et d'autres unités de soins de santé désignées par le commissaire.

Inmates may have to go to the community for emergency health care, specialized health care, hospitalizations, and other essential health care that cannot be accommodated within CSC.

Il se peut que les détenus aient à se rendre dans la collectivité pour recevoir des soins d'urgence, des soins spécialisés ou d'autres soins de santé essentiels ou pour être hospitalisés lorsque ces soins ne peuvent être offerts dans un établissement du SCC.

Health care means medical care, dental care and mental health care, provided by registered health care professionals or by persons acting under the supervision of registered health care professionals.

On entend par soins de santé les soins médicaux, dentaires et de santé mentale fournis par des professionnels de la santé agréés ou par des personnes agissant sous la supervision de professionnels de la santé agréés.

The purpose of this Framework and the National Formulary is to promote consistency in the provision of health care across CSC.

Le présent Cadre et le Formulaire national ont pour but de favoriser l'uniformité dans la prestation des soins de santé à l'échelle du SCC.

2. Health Services Executive Team (HSET) and National Medical Advisory Committee (NMAC) / L'équipe de direction des Services de santé (EDSS) et Comité médical consultatif national (CMCN)

The Health Services Executive Team (HSET), based on the advice of the National Medical Advisory Committee, approves the essential health care framework, provides ongoing oversight of the delivery of health care, and ensures accountability, consistency, cost effectiveness, and best practices specific to the needs of CSC's population.

L'Équipe de direction des Services de santé (EDSS), selon les conseils du Comité médical consultatif national (CMCN), approuve le cadre relatif aux soins de santé essentiels, assure la surveillance continue de la prestation des soins de santé et veille à la responsabilisation, l'uniformité, la rentabilité et l'établissement de pratiques exemplaires propres aux besoins de la population du SCC.

The essential health care guidance document is reviewed by the NMAC and approved by HSET annually.

Le document d'orientation sur les soins de santé essentiels est examiné par le CMCN et approuvé annuellement par l'EDSS.

3. Access to essential Health Services / Accès aux services de santé essentiels

Self-referral: Inmates may initiate access by submitting, in confidence, a request for health care services, indicating the reason for the request. The requests are reviewed, prioritized according to urgency.

Aiguillage effectué à la demande d'un détenu : Les détenus peuvent présenter, à titre confidentiel, une demande de services de santé en précisant le motif de leur demande. Les demandes sont examinées et classées en ordre de priorité en fonction de leur niveau d'urgence.

Staff referral: Staff may make a referral on behalf of an inmate.

Aiguillage effectué à la demande d'un membre du personnel : Un membre du personnel peut effectuer un aiguillage au nom d'un détenu.

Walk-in: Some Primary Care Health Centres (PCHC) have "drop in hours" where inmates can be seen by showing up at the Centre.

Sans rendez-vous : Certains centres de soins de santé primaires (CSSP) ont des « cliniques sans rendez-vous » durant lesquelles les détenus peuvent être vus par un médecin lorsqu'ils se présentent.

Visits with Physicians/Specialists (including Psychiatrists) and other health care professionals are pre-booked according to need.

Les visites avec des médecins ou des spécialistes (y compris des psychiatres) et d'autres professionnels de la santé sont réservées à l'avance en fonction des besoins.

When inmates are referred to community medical/psychiatric services, they are subject to the same waiting periods as community members.

Lorsque des détenus sont aiguillés vers des services médicaux/psychiatriques dans la collectivité, ils sont assujettis au même délai d'attente que les membres de la collectivité.

The use of private clinics for the provision of essential health care is not permitted in CSC.

Au SCC, il est interdit d'avoir recours à des cliniques privées en vue de la prestation de soins de santé essentiels.

Accessing community services may be impacted by the operational requirements of the institution.

Les exigences opérationnelles de l'établissement peuvent avoir une incidence sur l'accès aux services dans la collectivité.

Provincial/Territorial Identification Card

As part of the discharge/release planning, the Institutional Parole Officer is responsible for assisting the offender in obtaining Provincial/Territorial Identification such as Birth Certificate, Health Insurance, Disability Benefits, Social Insurance Number etc. in the province of release.

Community Correctional Centres (CCC)

Offenders in CCC's are entitled to receive provincial Health Insurance and Disability Benefits consistent with the criteria applicable to others residing in the Province/Territory. However, in the interest of public safety where there are gaps, or delays, in provincial health services coverage, CSC will provide, **on an interim basis**, essential health care to offenders residing in CCCs.

Health care for offenders in Community Residential Facilities (CRF) is the responsibility of provinces and territories.

In exceptional circumstances, where there is a documented public safety interest, with the approval of the Regional Director Health Services (RDHS), CSC will provide, on an interim basis, essential health care to address delays in provincial/territorial health care coverage.

Cartes d'identité provinciales/territoriales

Dans le cadre du processus de planification de la continuité des soins/de la mise en liberté, l'agent de libération conditionnelle en établissement est responsable d'aider le délinquant à obtenir des cartes d'identité provinciales/territoriales, notamment un certificat de naissance, une assurance maladie, des prestations d'invalidité, un numéro d'assurance sociale, etc., dans la province de libération.

Centres correctionnels communautaires (CCC)

Les délinquants dans les CCC ont le droit de recevoir des prestations d'assurance-maladie et d'invalidité conformément aux critères applicables aux autres résidents de la province ou du territoire. Cependant, pour assurer la sécurité publique, lorsqu'il existe des lacunes ou des retards liés à la couverture provinciale des services de santé, le SCC fournira, **à titre provisoire**, des soins de santé essentiels aux délinquants qui résident dans les CCC.

Les soins de santé des délinquants dans les établissements résidentiels communautaires (ERC) sont la responsabilité des provinces et des territoires.

Dans des circonstances exceptionnelles où il est consigné qu'il faut assurer la sécurité publique, sous réserve de l'approbation du directeur régional, Services de santé (DRSS), le SCC fournira, à titre provisoire, des soins de santé essentiels pour combler les retards dans la couverture provinciale/territoriale des soins de santé.

Reducing/Removing barriers to Provincial Health Insurance and Disability Benefits

The RDHS is responsible for communicating with provincial and territorial partners to assist in reducing/removing barriers to offenders obtaining full entitlement to provincial/territorial Health Insurance and Disability Benefits.

Réduction/élimination des obstacles aux prestations provinciales d'assurance-maladie et d'invalidité

Le DRSS est responsable de communiquer avec les partenaires provinciaux et territoriaux afin d'aider à réduire/éliminer les obstacles qui empêchent les délinquants d'obtenir toutes les prestations provinciales/territoriales d'assurance-maladie et d'invalidité auxquelles ils ont droit.

4. Reasonable access to non essential health care / Accès raisonnable aux services non essentiels

Non-essential health care will be at the inmate's complete expense including consultation fees, and at the discretion of the Institutional Head, any associated escort costs. Health Services will assist with the coordination of arrangements for inmate requested services¹. Inmate access to non-essential health care will be in accordance with:

Le détenu devra assumer tous les frais associés aux soins de santé non essentiels, y compris les frais de consultation, et, à la discrétion du directeur de l'établissement, tous les coûts associés aux escortes connexes. Les Services de santé contribueront à la coordination des dispositions requises pour les services demandés par le détenu². L'accès du détenu aux soins de santé non essentiels sera accordé conformément au :

Protocol: Requests for Non-Essential Health Services: Paid by the Inmate

Protocole : Demandes de services de santé non essentiels : Payés par le détenu

5. Guiding considerations for decisions about essential and non-essential health care / Principes directeurs relatifs aux décisions sur les services essentiels et non essentiels

The following guiding principles were considered in the development of the list (and exclusions) of funded health care and are in accordance with relevant legislation, CSC Policy.

Les principes directeurs suivants ont été pris en compte dans l'élaboration de la liste (et les exclusions) des services de santé financés et sont conformes aux lois et aux politiques pertinentes du SCC.

¹ Form 532 (Inmate Request to Encumber/Disburse Funds) is completed by the inmate with the assistance of health services staff

CORRECTIONAL SERVICE CANADA

SERVICE CORRECTIONNEL CANADA

Health outcomes are a shared responsibility between service providers and inmates.

Inmates are expected to assume responsibility for safeguarding their health.

In meeting its mandate to provide essential health care, CSC should not normally exceed the level of health care available through provincially public-funded health and social services programs.

In developing the essential health care framework, CSC considers the nature and level of health care coverage provided by provincial/territorial publicly funded health care systems.

Incarceration presents an important public health opportunity to promote and protect the health of a population with a high comorbidity of diseases at high risk of contracting and spreading infectious diseases.

These principles recognize that the determination about which service is required for an inmate relies on the judgement of the healthcare professionals, based on a sound clinical assessment guided by professionally accepted standards of practice.

Les prestataires de soins et les détenus sont conjointement responsables des résultats dans le domaine de la santé.

Les détenus devraient assumer la responsabilité de la protection de leur santé.

Normalement, dans l'exécution de son mandat relatif à la prestation de services essentiels, le SCC ne doit pas dépasser le niveau des services de santé disponibles dans les réseaux de santé publics et de services sociaux provinciaux.

Dans le cadre de l'élaboration du cadre des soins de santé essentiels, le SCC tient compte de la nature et du niveau de la couverture des soins de santé fournis par les réseaux de santé publics provinciaux/territoriaux.

Sur le plan de la santé publique, l'incarcération est une occasion de favoriser et de protéger la santé d'une population ayant un taux de comorbidité élevé, ainsi qu'un risque élevé de contracter et de propager des maladies infectieuses.

Ces principes reconnaissent qu'il appartient aux professionnels de la santé de décider des services à dispenser aux détenus, en fonction de l'évaluation clinique effectuée, et conformément aux normes professionnelles acceptées.

La liste approuvée précise les articles/services classés selon les catégories « approuvé », « non approuvé » et « sur autorisation spéciale ».

Items/services listed as "approved" can be implemented routinely at the institutional level.

Les articles/services « approuvés » peuvent être mis en œuvre régulièrement à l'échelle de l'établissement.

Items/services listed as "by special authorization" require regional approval by the Manager, Clinical Services; and,

Les articles/services « sur autorisation spéciale » exigent l'approbation régionale du gestionnaire, Services cliniques; et,

The determination about the health care requirements for a particular inmate relies on the judgement of the healthcare professionals, based on clinical assessment guided by professionally accepted standards of practice. The requested special authorization must be recommended by the Institutional Physician/Nurse Practitioner or Dentist along with the medical justification for the request.

Il appartient aux professionnels de la santé de décider des besoins en soins de santé d'un détenu particulier, en fonction de l'évaluation clinique effectuée, et conformément aux normes professionnelles acceptées. L'autorisation spéciale demandée doit être recommandée par le médecin/l'infirmier praticien ou le dentiste en établissement, lequel doit fournir une justification médicale de la demande.

Gender Dysphoria specialized services require endorsement by a health care professional in gender identity, as well as approval by the surgeon to perform certain surgical interventions (e.g., gender-affirming surgery).

Les services spécialisés en dysphorie sexuelle doivent être approuvés par un professionnel de la santé dans le domaine de l'identité de genre, ainsi que par le chirurgien en vue de la réalisation de certaines interventions chirurgicales (p. ex. opération d'affirmation du genre).
