#### SECTION 1 - INVITATION AND INSTRUCTIONS TO BIDDERS

Is this a Manufacturer Product Specific Procurement?

## Step 2. 🛛 Competitive or 🗌 Non-Competitive

For competitive Requirements when only one bid is received:

A bid must comply with the requirements of the bid solicitation and meet all mandatory technical evaluation criteria to be declared responsive. The responsive bid with the lowest evaluated price will be recommended for award of a contract.

For Competitive Requirements when only one bid is received:

The Bidder must provide the following information <u>AFTER</u> bid closing, if requested to do so by Canada:

- One or more of the following price justifications:
  - 1. a current published price list indicating the percentage discount available to Canada; or
  - 2. a copy of paid invoices for the like quality and quantity of the goods, services or both sold to other customers; or
  - 3. a price breakdown showing the cost of direct labour, direct materials, purchased items, engineering and plant overheads, general and administrative overhead, transportation, etc., and profit; or
  - 4. any other supporting documentation as requested by Canada.

#### For Non-Competitive Requirements:

The Bidder must provide the following information <u>WITH</u> the bid:

- One or more of the following price justifications:
  - 1. a current published price list indicating the percentage discount available to Canada; or
  - 2. a copy of paid invoices for the like quality and quantity of the goods, services or both sold to other customers; or
  - 3. a price breakdown showing the cost of direct labour, direct materials, purchased items, engineering and plant overheads, general and administrative overhead, transportation, etc., and profit; or
  - 4. any other supporting documentation as requested by Canada.

## Step 3. General or PSIB

For PSIB procurement:

**Canadian Content** 

The Supplier should propose conforming products(s) denoted as "Canadian Content" in the Supplier's SA. Canada may preference all bids containing products(s) with this designation.

#### Terms of the RFB:

This RFB is issued pursuant to the Supplier's Furniture for Workspaces Supply Arrangement (SA) that forms part of the series of SAs issued by PWGSC with the number E60PQ-140003/PQ. The terms and conditions in the Supplier's SA apply to and form part of this RFB. Bidders who submit a bid agree to be bound by those terms and conditions as well as the terms and conditions in this RFB.

The WTCM is the Workspaces Terms and Conditions Manual that contains all terms and conditions in full text that form part of individual RFBs under this SA.

The Bidder must provide the following information <u>WITH</u> the bid:

• The information requested by Canada in Annex A herein.

The Bidder must also provide the information at article 4 below at the time indicated in article 3.

#### **Security Requirement:**

- 1. Conditions
  - a. the Bidder must hold a valid organization security (VOS) clearance as indicated in Annex B;
  - b. the Bidder's proposed individuals requiring access to classified or protected information, assets or sensitive work site(s) must meet the security requirement as indicated in Annex B.
- For additional information on security requirements, bidders should refer to the Canadian Industrial Security Directorate (CISD), Industrial Program of Public Works and Government Services Canada (<u>http://ssi-iss.tpsgc-pwgsc.gc.ca/index-eng.html</u>) website.
- 3. The conditions in article 1 above must be met by the Bidder:

Before installation work starts. Bidders are reminded to obtain the required security clearance promptly. Any delay in the award of a contract to allow the successful bidder to obtain the required clearance will be at the entire discretion of the Contracting Authority.

- 4. Bidders are to supply the following information, as a minimum, to demonstrate compliance with the Security Requirement.
  - a. The Bidder's valid VOS clearance number issued by CISD;
  - b. The name of all individuals who will require access to classified or protected information, assets or sensitive work sites. It is desirable to also include their date of birth, their middle name, and their security clearance number issued by CISD.

#### **Bid Evaluation**

An evaluation team composed of representatives of Canada will evaluate the bids.

#### ANNEX A REQUIREMENT and BASIS OF PAYMENT

# 1. Category Selection

Combined Categories Rule:
For reasons of compatibility, the following categories will be combined for evaluation and contract award purposes:
The rule only applies to the categories below that are checked. The unchecked categories will be evaluated separately and may be awarded to multiple suppliers;
Category 1
Category 2
Category 5
* Exception: when using the Cat 1, 2, 5 combined categories rule, IU's may calculate the percentage of NSA product allowed (as defined in their solicitation document) against the total quantity of the combined categories.
Design Upgrade Rule:
The IU may exercise an option to upgrade products up to 20% of each Category product total before Applicable Taxes after contract award.
The Design Upgrade amount is used at the discretion of the Project Authority (PA) <b>prior to the manufacturing/ordering of the products</b> , the PA will provide the Contractor with a written notice of Canada's Design Upgrade choices for each of the product(s) to be upgraded. The Contractor will provide the pricing of the upgraded product(s) to a maximum of 20% of each Category Contract Price of Table 8. The Contracting Authority will issue an amendment to the contract with the Design Upgrades and pricing.
The Supplier certifies that all the Design Upgraded products offered will conform to all specifications and meet the testing requirements detailed in the Specifications of the Supply Arrangement.
Design Upgrade: is the process of replacing a product with a more innovative or enhanced version of the same product.
NSA:
NSA products can be incorporated in the RFB and must not exceed 30% of the firm quantity by category. NSA items must be added to the category that is most closely related and must be generic.

The requirement	includes the	following	category	(ies)	of work.
The requirement	includes the	TOHOWING	category	les	UT WUTK.

Category 1b – Supporting components and freestanding furniture

RULE: Metal Storage

Identified Users may procure metal storage products forming part of Category 1 when the metal storage products will be part of a requirement for a workstation(s)/work point(s). If this rule does not apply, Category 3 must be used for the metal storage products forming part of this category.

b. Category 2 – Freestanding Height Adjustable Desk / Table Products

c. 🔀 Category 3 – Metal Filing and Storage Cabinets

Identifying the maximum height of the Personal Storage Towers, Wardrobes and Storage Cabinets is acceptable as per 6B. 4.1 of the SA (table 1 Additional product details)

d. Category 4 – Wood Veneer – Freestanding Products

e. Category 5 – Ancillary and Lighting Products

f. Category 6 - Support Space – Collaborative Furniture

**RULE:** Category 6 can be further subdivided by space or like product in order to increase or allow competition. Space is defined as a location available for a particular purpose such as a meeting room space or a collaborative space. Like products are defined as products with similar design and construction. If NSA products form part of the requirement, the IU must validate the 30% NSA prior to subdividing the category. NSA products can be added to any subdivide or in its own subdivide.

The IU must identify how Category 6 will be subdivided in the Product Table for Category 6.

#### ANNEX D ADDITIONAL SPECIFICATIONS, CERTIFICATIONS

## 1. Specifications

**General Features** 

- Two or more lockers ganged together must be freestanding and easily moved/relocated as office location is expected to change in a few years. Easily moved defined as: does not require disassembly to be relocated.
- Must be capable of ganging side-to-side and back-to-back.
- All furniture must be supplied with hardware to complete the installation.
- All furniture must be equipped with corrosion-resistant levelling glides on the legs, base, and supports. The levelling glides must not exceed the width of the base and must have a vertical adjustment (length) of at least 25mm (1in.), with a tolerance of +/-6.35mm(+/-0.25in.), unless noted otherwise. Products that are 1524mm (60in.) in length or less can have a vertical adjustment (length) of 19mm (.75in.) with a tolerance of ±6.35mm(+/-0.25in.). Glides must be secured and not become loose or detached while in use. They must also be accessible and removable for adjustment or replacement.
- Interchangeability: Each component must have the capability of being assembled, disassembled, and reconfigured without damage or loss of serviceability when changes are required. Parts must be capable of being replaced.
- All edges and corners with which the user is intended to come in contact must have a minimum of 3mm radius.
- Safety: Fixed, moveable or adjustable parts must be constructed so that they cannot unintentionally become loose, dislodged or cause personal injury.
- Casework:
  - Doors must fit squarely and evenly on all sides, when closed. Resilient bumpers must be provided on all door assemblies to minimize impact noise when closing doors. An alternate means to minimize impact noise is acceptable.
  - All exposed and semi-exposed casework, including doors and tops, must be finished in the same material unless otherwise noted.
  - Exposed and semi-exposed edges must be treated by applying edge bandings.
- Accessories: Adjustable shelves, coat hooks, removable boot/shoe tray, ventilation, levelling base, door limiter, hidden hinges, and 'D' pulls as noted on elevations/plans.
- Removeable boot/shoe tray for each locker must be made up of a waterproof material that is noncorrosive/rust proof such as poly carbonate or similar with protective glides or similar to prevent scratching with a minimum 10 mm lip continuous to avoid liquid drainage.
- Door must provide a number/name plate holder for the user to apply removable locker numbers or name identification.
- All shelves, doors, and the interior of the storage cabinet must be finished in high-pressure laminate, and/or low-pressure laminate as specified.
- Adjustable shelves that extend across the full width of the balance of cabinet interior not accommodated by the coat compartment. No fixed shelves permitted. Shelves cannot interfere with locking mechanism.
- Venting to be included in top and bottom of locker door. 6" wide x 4" high at top and bottom of locker door.

Lockable:

- All doors within the unit must be capable of being locked by use of a keyless lock.
- Locks must not be reset after each use.
- Keyless lock A locking mechanism without the use of a key, excluding a hasp lock. Keyless lock must be supplied with:
- Long Life Batteries. If keyless lock is rechargeable, the separate unit for recharging is not required to be supplied. Batteries to be replaceable by administrator, with readily available (non-proprietary) batteries.
- Two (2) tools or keys for accessing the battery compartment or charging port when battery fails while in the locked position (if compartment or port is located inside the unit).
- Two (2) master keys or fobs for re-programming user codes.
- Electronic keypad programmable for single user.
- Manager-security programming and override (bypass) function with electronic keys.
- Digital locks minimum 4 digits code programming.
- Constant locking device allowing the mechanism to remain locked in an open position (door locks automatically when closed).
- Tamper resistant metal housing.
- Low battery sound or light indicator.

#### 2. Certifications

#### 2.1 NSA Product Conformance (Required precedent to Issuance of a contract)

The Supplier certifies that all the NSA products offered will conform to all specifications indicated in Annex A and D of the RFB, and meet the testing and performance requirements found at ANNEX A-1 and A-2 of the Supply Arrangement, as applicable.

Supplier's Signature

Date

## **NSA Product Conformance Certification** (applies after contract award)

The Supplier warrants that the NSA Product Conformance Certification submitted by the Supplier with its bid is accurate and complete. The Supplier must keep proper records and documentation relating to the NSA product conformance and the testing requirements in this Annex, as applicable. The Supplier must not, without obtaining the prior written consent of the SAA, dispose of any such records or documentation until the expiration of the Contract or the expiry date of the Warranty, whichever is later. All such records and documentation must at all times during the retention period be open to audit, inspection and examination by the representatives of Canada, who may make copies and take extracts.

In addition, the Supplier must provide representatives of the SAA access to all locations where any part of the Work is being performed at any time during working hours. Representatives of the SAA may examine and test the Work as they see fit. The Supplier must provide all assistance and access to facilities, test pieces, samples and documentation that the representatives of the SAA may reasonably require for the carrying out of the inspection, which may also include the submission of test reporting documentation as listed in Annex A and D. The Supplier must forward such test pieces, samples and/or documentation that may also include letters of certification from the laboratories to such person or location as the representatives of the SAA specifies.
