

Questions and answers – Round 1

Solicitation CIC – 155215

Q1. I review the document, it referred that. At least two (2) of the proposed counsellors/ clinical psychologists being able to provide services in English and French; is this something that would disqualifies an agency if they do not have bi-lingual clinicians?

A1. As part of the Mandatory Technical Criteria (MT), M2 indicates that at least two (2) of the proposed counsellors / clinical psychologists must be able to provide services in English and French. Should the Bidder not produce an attestation of language proficiency for at least two (2) counsellors attesting that they can speak both English and French, they will not meet the mandatory criteria and will thus not be considered.
