Name and title of person authorized to sign on behalf of Vendor/Firm (type or print) Nom et titre de la personne autorisée à signer au nom due fournisseur/ de l’entrepreneur (taper ou écrire en caractères d’imprimerie)	
Signature	Date

QUESTIONS AND ANSWERS #3

QUESTION #1

At what level of granularity does PS need for their AAL (For example, national level, by province, by city, by postal code, etc.)

ANSWER #1

PS requires Average Annualized Loss to be calculated at the national level to enable national strategic risk assessments. More granular data is certainly welcome but is not a requirement and will not be evaluated in proposals submitted for this RFP.

QUESTION #2

What is the purpose or intent of the AAL methodology/calculation?

ANSWER #2

The use of AAL values for various hazards enables comparison across all hazards and across hazard events of various sizes as part of the risk and capability assessments taking place under the National Risk Profile (NRP). Public Safety uses AAL values to develop deterministic scenarios at varying orders of magnitude and as the economy risk score.
