

Questions and answers – Round 3
Solicitation CIC – 155215

Q1. On page 10 of the solicitation, it is noted that PDFs submitted with the bid should be unprotected (without passwords). We intend to password protect our Contract Security Program Initial International Screening Form PDF, as it contains private/proprietary company information. Is it acceptable to submit a password protected Contract Security Program Initial International Screening form and then share the password separately with the Government of Canada when they need to open it?

A1. Yes, you can submitted an encrypted e-mail and share your password separately.
