**The following questions and answers were published under the previous amendment**

**Q1:** In the subject RFP, 7. Basis of Selection, 7.4.1, the formula for the Financial Bid's Weighted Price is as follows:

Financial Bid's Weighted Price = (50% x Total Core Work Fee for Firm Periods) + (20% x Total Aggregated Labour Rates) + (30% x Total Calculated Mark-Up)

In Appendix B1, the formula for the Financial Bid's Weighted Price is changed to the following:

Financial Bid's Weighted Price = (50% x Total Core Work Fee for Firm Period) + Total Facility Operations & Maintenance Fee for Firm Period +(20% x Total Aggregated Labour Rates for the Firm Period) + (30% x Total Calculated Mark-Up for the Firm, Option & Transition Periods)

Can Canada please confirm which of these 2 formulas is correct?

**A1:** The formula found in Appendix B1 is the version that will be used for evaluation purposes.

In the RFP, 7. Basis of Selection, 7.4.1 the Financial Bid's Weighted Price formula is simply to show the specific weighted percentage that is being applied to the 3 items. You can refer to the Note at the bottom of 7.4.1 which states "Note: The FOM Fee will not be weighted."

**Q2:** The requirement that the SoS E&I facility be located within a 25km radius of the National Printing Bureau does not acknowledge that there are mature facilities in Canada existing outside of the perimeter that have most of the required infrastructure and services required for the SoS E&I Sustainment Services program. We recommend that in order to gain the best overall value for the Crown, Canada allow the SoS E&I facility to be located anywhere in Canada.

**A2:** The SoS E&I Facility's location within a 25km radius of the National Printing Bureau requirement is based on Canada's needs. Its military and public service workforce is located in the National Capital Region and requires access to the facility on a daily basis. Furthermore, DLCSPM is located at the National Printing Bureau.

**Q3:** **RFP Reference Annex F – Compliance Matrix and Technical Bid Evaluation Criteria – Appendix F2 – Mandatory Evaluation Criteria.**

MT 2.1 states "The SEMP must be based on DLCSPM standard, DLCSPM-SEP-2021 listed in Appendix A2 – Standards and References and must be in accordance with CDRL 200.001 and DID 200.001. Bidders must address all requirements of the DID in their proposed SEMP."

The DID 200.001 states "The SEMP must contain as a minimum the following information aligned with the major headings of Canada's SEP".

Can Canada clarify if it means that the SEMP must have the same major sections as the SEP (i.e. Introduction, Land C4ISR Capability Overview, Engineering Process, Governance, ..., Fielding Process, In-Service Support)? If it is the case:

1. Can Canada confirm that the sub-sections can be different? And
2. Can Canada clarify if the SEMP must also include and consider the sections marked as "To Be Developed" in the SEP (i.e. 10. Fielding Process and 11. In-Service Support)?

**A3:** The SEMP must include the major section outlined in DID 200.001. The content, including sub-sections, is to be based on the DLCSPM-SEP-2021

1. Sub-sections in the SEMP are to be identified by the bidder; and

2. No, however, bidders are encouraged to suggest responses.

**The following questions and answers are being published under this amendment**

- Q4:** DID 100.006 b. iv) states that for each proposed Indigenous business for subcontracting, a copy of the Procurement Strategy for Indigenous Business (PSIB) certification must be included. We understand that PSIB no longer issues certificates. Can Canada please confirm that a snapshot of the Indigenous Business Directory for the proposed Indigenous business will satisfy this requirement?
- A4:** Yes, a snapshot will be accepted. The Contracting Authority will notify Aboriginal Affairs and Northern Development Canada (AANDC) so that certification may be selectively audited for evidence and accuracy.
- Q5:** Under this requirement, Canada asks Bidders to provide their EMP in accordance with the Canada's Environmental Strategy. Can Canada please point Bidders towards where its Environmental strategies are clearly listed?
- A5:** As stated in Annex F – Compliance Matrix and Technical Bid Evaluation Criteria - Appendix F1 – Mandatory Evaluation Criteria – REV1 – Section MT7 – Proposed Environmental Management Plan - MT 7.1.3, please refer to the following site:  
<https://www.canada.ca/en/treasury-board-secretariat/services/innovation/greening-government/strategy.html>
- Q6:** Annex F – Compliance Matrix and Technical Bid Evaluation Criteria – Appendix F1 – Mandatory Evaluation Criteria – REV1 – Section MT7 – Proposed Environmental Management Plan – Cell MT 7.1.2  
  
In MT 7.1.2, Bidders are required to certify that they comply with Canada's Environmental policies, yet no policies are detailed as part of the RFP package. Can Canada publish the relevant policies that they required Bidders to "certify"?
- A6:** Bidder is requested to certify that the Bidder will comply with Canada's Environmental policies.
- Q7:** **RFP Reference Part 3 – Bid Preparation Instructions – Sub-section - 1.3.2**  
  
Part 3, 1.3.2 notes that prices should only be contained in Bidder's Financial Bid's. Other aspects of a Bidder's submission require the submission of Financial data, such as Section IV - ITB Bid and Section I - Technical Bid, Indigenous Participation Plan (IPP) (Estimated cost projected for participation of Indigenous Businesses). Can Canada confirm that inclusion of financial information in Section IV – ITB Bid and Section I - Technical Bid, Indigenous Participation Plans is acceptable?
- A7:** It is acceptable and required to provide the Bid Price as part of Section IV - ITB Value Proposition. The inclusion of financial information in the IPP is acceptable.
- Q8:** **RFP Reference Part 2 - Bidder Instructions – Section 2 - Submission of Bids**  
  
Article 2.3 of Part 2 states that bids must be delivered via CPC Connect only. However, in light of the fact that difficulties can arise with Connect which may prevent bidders from submitting timely bids, it is our view that PSPC should include an alternate method to submit a bid. This is in line with

PSPC policy on bid submissions, PN-128R1, dated 2018-05-22, which requires an RFP to include two delivery methods.

**A8:** Canada will accept submission of bids via CPC Connect or Facsimile in accordance with **Section 8** of the 2003 (2022-03-29) Standard Instructions - Goods or Services Competitive Requirements.
