Additional Clauses for Standing Offer Agreement

**Traffic Control Services for
NCC Quebec Urban Lands and Gatineau Park**

1.0 INTRODUCTION

One method of supply used by the NCC to satisfy the requirements of identified internal users is to arrange a Standing Offer Agreement (SOA) to provide services to the NCC during a specified period. The identified internal users to be served may then be a delegated purchasing authority and may access the source of supply directly, as and when requested, by issuing purchase orders detailing the exact quantities of services they wish to order from the Offeror at a particular time during the effective period of the Offeror's offer and in accordance with the predetermined conditions. This method of supply is particularly useful in acquiring frequently ordered commercially and non-commercially available services when the total level of services that may be required by one or more identified users can be estimated beforehand, but it is not possible at the outset to identify the exact requirements for any given user at a specific time in the future.

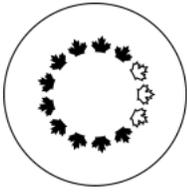

The NCC foresees a need to retain the services of a contractor to provide **Traffic Control Services for NCC Quebec Urban Lands and Gatineau Park** as more particularly stated herein and in the attached; you are hereby invited to provide to the NCC a Standing Offer. Submit your offer on the enclosed forms and format. Please be advised that the quantity of services and the estimated expenditure specified in the attached are only an approximation of requirements given in good faith. The making of a standing offer by the Offeror shall not constitute an agreement by the NCC to order any or all of the said services. The NCC may make one or several purchase orders against a Standing Offer, each such purchase orders constituting an acceptance of said Standing Offer for the part of the said services described in the purchase order. A request does not commit the NCC to authorize the utilization of a Standing Offer or to pay any cost incurred in the submission of offers, or cost incurred in making necessary studies for the preparation thereof, or to procure or contract for any services. The NCC reserves the right to reject or authorize for utilization any offer in whole or in part, with or without further discussion or negotiation.

2.0 GENERAL PROVISIONS

The Offeror acknowledges that a Standing Offer is not a contract. The Offeror offers to provide to the NCC, upon the terms and conditions hereinafter set out, the services detailed herein and at the rates listed herein or on the pricing basis set out herein, AS AND WHEN REQUESTED by authorized NCC users such services the authorized user orders, in accordance with the following provisions.

It is understood and agreed that:

- a purchase order against a Standing Offer shall form a contract only for those services, or both, which have been ordered, provided always that such a purchase order is made in accordance with the provisions of the Standing Offer;

- the issue and distribution of the authorization to use any resulting Standing Offer does not oblige the NCC to authorize or order all or any of the services described in the Standing Offer;
- The NCC's liability shall be limited to that which arises from purchase orders against any resulting Standing Offer made within the period specified herein;
- The NCC reserves the right to procure the specified services by means of contracts, standing offers, or by other contracting methods.
- The Offeror agrees that prices quoted herein are firm and must be valid for acceptance for 60 days from the closing date of this Request for Standing Offer (RFSO).

3.0 STANDING OFFER REQUIREMENT:

The National Capital Commission (NCC) wishes to retain the services of **Traffic Control Services for NCC Quebec Urban Lands and Gatineau Park** as detailed in the Terms of Reference on an "as and when requested" basis under a Standing Offer Agreement.

4.0 PERIOD OF THE STANDING OFFER AGREEMENT:

The resulting Standing Offer Agreement will be starting on the date of award and ending on March 31, 2026.

The NCC reserves the right to terminate the SOA of any firm that shows repeated failure to satisfactorily manage the quality, quantity, timeliness and/or respect the rates of the project, and of sub-contractor / specialists.

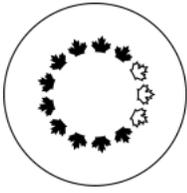

5.0 CALL-UP PURCHASE ORDER DOCUMENT:

The authorized "Purchase order Against a Standing Offer" document will be NCC Purchase Order # XXXXXX. The purchase order document shall specify the firm name and address, Purchase Order number, delivery date required, delivery location, description of services performed quantities, unit prices, purchase order limit, and an approval signature to proceed by the authorized designated user.

6.0 CALL-UP PURCHASE ORDER LIMITATION:

The maximum all-inclusive amount payable for any one purchase order (call-up) shall be \$ 2,500.00 CDN including all fees, disbursements, subcontractor(s) costs and all applicable taxes.

Work should not proceed until NCC's Contracts has issued a purchase order number specific to that call-up. If no extra work is authorized by the NCC Project Manager, the written quotation shall constitute the maximum amount payable under the purchase order.

15. Protesting NCC Technical Authority's Decision

If the Contractor, within ten (10) days of receiving any decision or direction of the NCC Technical Authority, gives written notice to the NCC Technical Authority that the decision or direction is accepted under protest, the National Capital Commission will pay to the Contractor the cost, calculated according to Section 19, of anything that the Contractor was required to do, as a result of the decision or direction, beyond what the contract correctly understood would have required him to do.

In such circumstances the NCC Technical Authority may complete or have the work completed as he sees fit and all costs and damages incurred by the National Capital Commission due to the non-completion of the work by the Contractor shall be payable by the Contractor to the National Capital Commission.

GENERAL CONDITIONS

4. If the National Capital Commission terminates the work other than in accordance with sub-section 3 hereof, the National Capital Commission will pay to the Contractor an amount calculated in accordance with Section 19 hereof subject to any additions or deductions otherwise provided by the General Conditions or Labour Conditions less any payments made pursuant to Section 24.3, hereof. 1 GOAL

The National Capital Commission (NCC) is seeking a contractor able to provide traffic control services in the province of Quebec. The goal is to identify one (1) contractor with whom the NCC can establish a contract for the summer and fall programs and a Standing Offer Agreement (SOA) for additional unforeseen circumstances on as needed basis.

2 TERM OF CONTRACT AND SOA

The term of the resulting Contract and SOA will be for a period of three (3) years commencing on the date of award and ending on March 31st, 2026.

The Contractor grants NCC the irrevocable option to extend the term of the contract by up to two (2) additional one-year periods at the same terms and conditions.

Each option year will have an inflationary increase of +2% from the previous year's fees.

3 CONTEXT

Each year, the NCC faces an overflow of visitors that wish to access Gatineau Park's popular sites by motorized vehicle. During the summer and fall seasons, some sites reach the capacity and require active traffic management operations.

During summer, visitors head to Gatineau Park beaches. When the weather forecasts indicate nice weather, the number of visitors that travel to the beaches by motorized vehicle often exceeds the capacity of the parking lots in these sectors. This overflow of visitors usually happens on weekends and holidays between mid-June and Labour Day.

To prevent people parking illegally or blocking traffic, the NCC deploys traffic controllers in the lac Philippe sector to invite visitors to find an alternative destination or wait patiently at a local business until parking spots become available.

During the fall, the park is visited by crowds that come admire the coloured leaves. The period of September and October is the busiest period of the year with an estimated number of visitors around 438,000 for the entire area of Gatineau Park (Gatineau Park Research Project, Environics Research Group, 2012). The peak period matches the colours of the leaves spans the end of September to the end of October.

The concentration of people arriving by motorized vehicle in the parkways sector creates many issues with traffic flow and parking capacity. In many areas, the number of cars reaches the roadway's capacity. This creates hold-ups and a negative visitor experience. The NCC deploys traffic controllers to manage traffic to ensure shuttle operations are fluid and prevent traffic congestion in parking lots and on the parkways.

Moreover, at other instances during the year, the NCC may need to deploy traffic controllers on the roads it owns for roadwork, events or other circumstances which require active traffic management on NCC roadways located in the province of Quebec.

4 MANDATE

4.1 Mandate objectives and expertise sought

The Contractor will provide traffic controllers to carry out the NCC's traffic management plans. The number of traffic controllers required for the summer and fall programs can be found in appendices A (Traffic Controllers - lac Philippe) and B (Traffic Controllers - Fall Rhapsody), including the specific dates and schedules for which traffic controllers are required.

During the summer, work will be carried out in the lac Philippe sector, located in the municipality of La Pêche, more specifically at the Breton Beach parking lot and the intersection of the lac Philippe parkway and Schnob road.

During the fall, work will be carried out on the Gatineau, Champlain and Fortune Lake Parkways in Gatineau Park located with the limits of the City of Gatineau and the municipality of Chelsea.

For the additional circumstances for which the NCC would require traffic controllers, these will be located either in the municipalities of Chelsea, La Pêche, Pontiac or the City of Gatineau, West of the Gatineau River.
