LIST OF REFERENCES

FOR

REPAIR, OVERHAUL AND IN-SERVICE SUPPORT

OF

PARACHUTES AND RELATED ITEMS

1 List of References

1.1. General

1.1.1. The Contractor shall use the mandatory references and supplemental information in this appendix. Compliance with the requirements delineated in the documents, standards and specifications that appear in the body of the Performance Work Statement (PWS) and in Table A6.1 of this Appendix is a mandatory requirement. Documents listed in Table A6.2 of this Appendix are to be considered supplemental information unless they are specifically called up in a tasking. All documents utilized shall be of the most current version or as specified by the Department of National Defence (DND).

1.2. Guidelines

1.2.1. The following guidelines are imposed with respect to the referenced publications:

- a. Precedence. Where documents listed herein contain reference to other documents, the lower tier documents shall be applicable to the extent that they are consistent with the overall system requirements. If there is a conflict between higher and lower tier documents, the higher tier document shall always take precedence. In the event of a conflict between documents at the same level, resolution shall be obtained from the Technical Authority (TA);
- b. Authorities. Whenever a technical, managerial, or similar authority is mentioned in reference documents, it shall be interpreted as meaning the TA. In the event that there is a conflict in direction, the nature of this conflict is to be brought to the attention of the TA; and
- c. Publications. The Contractor shall document all requirements for publications and submit these requirements through the Equipment Management Team (EMT). The Contractor shall be responsible for maintaining all DND publications and reference documentation in their custody in accordance with DND standards.
