

The following amendment 002 to the Request for Proposal (RFP) is raised to answer questions from the Industry:

Question 1:

Is the historical data to be integrated into the cloud solution listed in a spreadsheet, in standardized form (eg .xml), or rather in another digital format (eg .doc, .pdf, etc.)?

Answer 1:

On our current water data management system, we are able to extract reports of site sampling data in .xls format or individual sampling event reports in .pdf format. Our preference is that we get the historical data, by site, in an .xls format.

***** All other terms and conditions remain unchanged*****
