3. Former Public Servants

Contracts awarded to former public servants (FPS) in receipt of a pension or of a lump sum payment must bear the closest public scrutiny, and reflect fairness in the spending of public funds. In order to comply with Treasury Board policies and directives on contracts awarded to FPSs, bidders must provide the information required below before contract award. If the answer to the questions and, as applicable the information required have not been received by the time the evaluation of bids is completed, Canada will inform the Bidder of a time frame within which to provide the information. Failure to comply with Canada's request and meet the requirement within the prescribed time frame will render the bid non-responsive.

Definitions

For the purposes of this clause, "former public servant" is any former member of a department as defined in the [*Financial Administration Act*](#), R.S., 1985, c. F-11, a former member of the Canadian Armed Forces or a former member of the Royal Canadian Mounted Police. A former public servant may be:

- a. an individual;

- b. an individual who has incorporated;

- c. a partnership made of former public servants; or

- d. a sole proprietorship or entity where the affected individual has a controlling or major interest in the entity.

"lump sum payment period" means the period measured in weeks of salary, for which payment has been made to facilitate the transition to retirement or to other employment as a result of the implementation of various programs to reduce the size of the Public Service. The lump sum payment period does not include the period of severance pay, which is measured in a like manner.

"pension" means a pension or annual allowance paid under the [Public Service Superannuation Act](#) (PSSA), R.S., 1985, c. P-36, and any increases paid pursuant to the [Supplementary Retirement Benefits Act](#), R.S., 1985, c. S-24 as it affects the PSSA. It does not include pensions payable pursuant to the [Canadian Forces Superannuation Act](#), R.S., 1985, c. C-17, the [Defence Services Pension Continuation Act](#), 1970, c. D-3, the [Royal Canadian Mounted Police Pension Continuation Act](#), 1970, c. R-10, and the [Royal Canadian Mounted Police Superannuation Act](#), R.S., 1985, c. R-11, the [Members of Parliament Retiring Allowances Act](#), R.S. 1985, c. M-5, and that portion of pension payable to the [Canada Pension Plan Act](#), R.S., 1985, c. C-8.

If so, the Bidder must provide the following information, for all FPSs in receipt of a pension, as applicable:

- a. name of former public servant;
- b. date of termination of employment or retirement from the Public Service.

By providing this information, Bidders agree that the successful Bidder's status, with respect to being a former public servant in receipt of a pension, will be reported on departmental websites as part of the published proactive disclosure reports in accordance with [Contracting Policy Notice: 2019-1](#) and the [Guidelines on the Proactive Disclosure of Contracts](#).

Work Force Adjustment Directive

Is the Bidder a FPS who received a lump sum payment pursuant to the terms of the Work Force Adjustment Directive? **Yes** () **No** ()

- f. period of lump sum payment including start date, end date and number of weeks;
- g. number and amount (professional fees) of other contracts subject to the restrictions of a work force adjustment program.

4. Enquiries – Bid Solicitation

All enquiries must be submitted in writing to the Contracting Authority no later than ten (10) business days before the bid closing date. Enquiries received after that time may not be answered.

Bidders should reference as accurately as possible the numbered item of the bid solicitation to which the enquiry relates. Care should be taken by bidders to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the question(s) or may request that the Bidder do so, so that the proprietary nature of the question(s) is eliminated, and the enquiry can be answered to all Bidders. Enquiries not submitted in a form that can be distributed to all Bidders may not be answered by Canada.

5. Applicable Laws

Any resulting contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in the province of Ontario.

Bidders may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their bid, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of their choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the bidders.

PART 3 - BID PREPARATION INSTRUCTIONS

1. Bid Preparation Instructions

CSC requests that bidders provide their bid in separate sections as follows:

2. Section I: Technical Bid

In their technical bid, Bidders should explain and demonstrate how they propose to meet the requirements and how they will carry out the work.

3. Section II: Financial Bid

- (b) An evaluation team composed of representatives of CSC will evaluate the bids.

1.1 Technical Evaluation

1.1.1 Mandatory Technical Criteria

Proposals will be evaluated to determine if they meet all mandatory requirements outlined in **Annex D – Evaluation Criteria**. Proposals not meeting all mandatory criteria will be declared non-responsive and will be given no further consideration.

1.2 Financial Evaluation

SACC Manual Clause A0220T (2014-06-26), Evaluation of Price - Bid

3. Insurance Requirements

The Bidder must provide a letter from an insurance broker or an insurance company licensed to operate in Canada stating that the Bidder, if awarded a contract as a result of the bid solicitation, can be insured in accordance with the Insurance Requirements specified in article 11 of **PART 6 – RESULTING CONTRACT CLAUSES**.

If the information is not provided in the bid, the Contracting Authority will so inform the Bidder and provide the Bidder with a time frame within which to meet the requirement. Failure to comply with the request of the Contracting Authority and meet the requirement within that time period will render the bid non-responsive.

PART 5 - CERTIFICATIONS AND ADDITIONAL INFORMATION

Bidders must provide the required certifications and additional information to be awarded a contract.

The certifications provided by Bidders to Canada are subject to verification by Canada at all times. Unless specified otherwise, Canada will declare a bid non-responsive or will declare a contractor in default if any certification made by the Bidder is found to be untrue whether made knowingly or unknowingly, during the bid evaluation period or during the contract period.

The Contracting Authority will have the right to ask for additional information to verify the Bidders' certifications. Failure to comply and to cooperate with any request or requirement imposed by the Contracting Authority may render the bid non-responsive or constitute a default under the Contract.

1. Certifications Precedent to Contract Award and Additional Information

The certifications and additional information listed below should be submitted with the bid, but may be submitted afterwards. If any of these required certifications or additional information is not completed and submitted as requested, the Contracting Authority will inform the Bidder of a time frame within which to provide the information. Failure to provide the certifications or the additional information listed below within the time frame provided will render the bid non-responsive.

Bidders are reminded to obtain the required security clearance and, as applicable, security capabilities promptly. As indicated above, Bidders who do not provide all of the required information at bid closing will be given the opportunity to complete any missing information from the AFR form within a period set by the Contracting Authority. If that information is not provided within the timeframe established by the Contracting Authority (including any extension granted by the Contracting Authority in its discretion), or if Canada requires further information from the Bidder in connection with assessing the requests for security clearance (i.e., information not required by the AFR form), the Bidder will be required to submit that information within the time period established by the Contracting Authority, which will not be less than 48 hours. - Mandatory Technical Criteria

It is **imperative** that the proposal **address each of these criteria** to demonstrate that the requirements are met.

1. Background / Contexte

Correctional Service Canada (CSC) is mandated, under the Corrections and Conditional Release Act (CCRA), to "provide every inmate with essential health care; and reasonable access to non essential health care"

When health care is provided to inmates, the Service shall

(a) support the professional autonomy and the clinical independence of registered health care professionals and their freedom to exercise, without undue influence, their professional judgment in the care and treatment of inmates;

(b) support those registered health care professionals in their promotion, in accordance with their respective professional code of ethics, of patient-centered care and patient advocacy; and

(c) promote decision-making that is based on the appropriate medical care, dental care and mental health care criteria

The Commissioner's Directives 800 Health Services and its associated guidelines are the key references on essential health care.

Health care services must respect gender, cultural, religious and linguistic differences.

In order to support inmates in taking responsibility for proactively safeguarding their health, CSC provides:

- information and education on health promotion and disease prevention
- direct health care services

En vertu de la *Loi sur le système correctionnel et la mise en liberté sous condition* (LSCMLC), le Service correctionnel du Canada (SCC) est tenu de « fournir aux détenus les soins de santé essentiels et un accès raisonnable aux soins non essentiels ».

Lorsque des soins de santé doivent être dispensés à des détenus, le Service :

a) soutient l'autonomie professionnelle et l'indépendance clinique des professionnels de la santé agréés ainsi que la liberté qu'ils possèdent d'exercer, sans influence inopportune, un jugement professionnel dans le cadre du traitement des détenus;

b) soutient ces professionnels de la santé agréés dans la promotion, selon leur code de déontologie, des soins axés sur le patient et de la défense des droits des patients;

c) favorise la prise de décisions fondée sur les critères appropriés en matière de soins médicaux, dentaires ou de santé mentale.

La Directive du commissaire 800 – Services de santé et les lignes directrices connexes constituent les principaux documents de référence sur les soins de santé essentiels.

Les Services de santé doivent respecter les différences liées au sexe, à la culture, à la religion et à la langue.

Pour aider les détenus à assumer leurs responsabilités afin qu'ils prennent des mesures proactives pour protéger leur santé, le SCC fournit:

- des renseignements sur la promotion de la santé et la prévention des maladies;
- des soins de santé directs.

Within CSC Institutions, health care is provided in Primary Care Health Centres (PCHC), Intermediate Mental Health Care Units, Regional Continuing Care Centres (RCCC), and Regional Treatment / Psychiatric Centres and other health care units as designated by the Commissioner.

Au sein des établissements du SCC, les soins de santé sont offerts dans des centres de soins de santé primaires (CSSP), des unités de soins intermédiaires de santé mentale, des centres régionaux de continuité de soins (CRCS), des centres psychiatriques/de traitement régionaux et d'autres unités de soins de santé désignées par le commissaire.

Inmates may have to go to the community for emergency health care, specialized health care, hospitalizations, and other essential health care that cannot be accommodated within CSC.

Il se peut que les détenus aient à se rendre dans la collectivité pour recevoir des soins d'urgence, des soins spécialisés ou d'autres soins de santé essentiels ou pour être hospitalisés lorsque ces soins ne peuvent être offerts dans un établissement du SCC.

Health care means medical care, dental care and mental health care, provided by registered health care professionals or by persons acting under the supervision of registered health care professionals.

On entend par soins de santé les soins médicaux, dentaires et de santé mentale fournis par des professionnels de la santé agréés ou par des personnes agissant sous la supervision de professionnels de la santé agréés.

The purpose of this Framework and the National Formulary is to promote consistency in the provision of health care across CSC.

Le présent Cadre et le Formulaire national ont pour but de favoriser l'uniformité dans la prestation des soins de santé à l'échelle du SCC.

2. Health Services Executive Team (HSET) and National Medical Advisory Committee (NMAC) / L'équipe de direction des Services de santé (EDSS) et Comité médical consultatif national (CMCN)

The Health Services Executive Team (HSET), based on the advice of the National Medical Advisory Committee, approves the essential health care framework, provides ongoing oversight of the delivery of health care, and ensures accountability, consistency, cost effectiveness, and best practices specific to the needs of CSC's population.

L'Équipe de direction des Services de santé (EDSS), selon les conseils du Comité médical consultatif national (CMCN), approuve le cadre relatif aux soins de santé essentiels, assure la surveillance continue de la prestation des soins de santé et veille à la responsabilisation, l'uniformité, la rentabilité et l'établissement de pratiques exemplaires propres aux besoins de la population du SCC.

The essential health care guidance document is reviewed by the NMAC and approved by HSET annually.

Le document d'orientation sur les soins de santé essentiels est examiné par le CMCN et approuvé annuellement par l'EDSS.

3. Access to essential Health Services / Accès aux services de santé essentiels

Self-referral: Inmates may initiate access by submitting, in confidence, a request for health care services, indicating the reason for the request. The requests are reviewed, prioritized according to urgency.

Aiguillage effectué à la demande d'un détenu : Les détenus peuvent présenter, à titre confidentiel, une demande de services de santé en précisant le motif de leur demande. Les demandes sont examinées et classées en ordre de priorité en fonction de leur niveau d'urgence.

Staff referral: Staff may make a referral on behalf of an inmate.

Aiguillage effectué à la demande d'un membre du personnel : Un membre du personnel peut effectuer un aiguillage au nom d'un détenu.

Walk-in: Some Primary Care Health Centres (PCHC) have "drop in hours" where inmates can be seen by showing up at the Centre.

Sans rendez-vous : Certains centres de soins de santé primaires (CSSP) ont des « cliniques sans rendez-vous » durant lesquelles les détenus peuvent être vus par un médecin lorsqu'ils se présentent.

Visits with Physicians/Specialists (including Psychiatrists) and other health care professionals are pre-booked according to need.

Les visites avec des médecins ou des spécialistes (y compris des psychiatres) et d'autres professionnels de la santé sont réservées à l'avance en fonction des besoins.

When inmates are referred to community medical/psychiatric services, they are subject to the same waiting periods as community members.

Lorsque des détenus sont aiguillés vers des services médicaux/psychiatriques dans la collectivité, ils sont assujettis au même délai d'attente que les membres de la collectivité.

The use of private clinics for the provision of essential health care is not permitted in CSC.

Au SCC, il est interdit d'avoir recours à des cliniques privées en vue de la prestation de soins de santé essentiels.

Accessing community services may be impacted by the operational requirements of the institution.

Les exigences opérationnelles de l'établissement peuvent avoir une incidence sur l'accès aux services dans la collectivité.

Provincial/Territorial Identification Card

As part of the discharge/release planning, the Institutional Parole Officer is responsible for assisting the offender in obtaining Provincial/Territorial Identification such as Birth Certificate, Health Insurance, Disability Benefits, Social Insurance Number etc. in the province of release.

Community Correctional Centres (CCC)

Offenders in CCC's are entitled to receive provincial Health Insurance and Disability Benefits consistent with the criteria applicable to others residing in the Province/Territory. However, in the interest of public safety where there are gaps, or delays, in provincial health services coverage, CSC will provide, on an interim basis, essential health care to offenders residing in CCCs.

Health care for offenders in Community Residential Facilities (CRF) is the responsibility of provinces and territories.

In exceptional circumstances, where there is a documented public safety interest, with the approval of the Regional Director Health Services (RDHS), CSC will provide, on an interim basis, essential health care to address delays in provincial/territorial health care coverage.

Cartes d'identité provinciales/territoriales

Dans le cadre du processus de planification de la continuité des soins/de la mise en liberté, l'agent de libération conditionnelle en établissement est responsable d'aider le délinquant à obtenir des cartes d'identité provinciales/territoriales, notamment un certificat de naissance, une assurance maladie, des prestations d'invalidité, un numéro d'assurance sociale, etc., dans la province de libération.

Centres correctionnels communautaires (CCC)

Les délinquants dans les CCC ont le droit de recevoir des prestations d'assurance-maladie et d'invalidité conformément aux critères applicables aux autres résidents de la province ou du territoire. Cependant, pour assurer la sécurité publique, lorsqu'il existe des lacunes ou des retards liés à la couverture provinciale des services de santé, le SCC fournira, à titre provisoire, des soins de santé essentiels aux délinquants qui résident dans les CCC.

Les soins de santé des délinquants dans les établissements résidentiels communautaires (ERC) sont la responsabilité des provinces et des territoires.

Dans des circonstances exceptionnelles où il est consigné qu'il faut assurer la sécurité publique, sous réserve de l'approbation du directeur régional, Services de santé (DRSS), le SCC fournira, à titre provisoire, des soins de santé essentiels pour combler les retards dans la couverture provinciale/territoriale des soins de santé.

Reducing/Removing barriers to Provincial Health Insurance and Disability Benefits

The RDHS is responsible for communicating with provincial and territorial partners to assist in reducing/removing barriers to offenders obtaining full entitlement to provincial/territorial Health Insurance and Disability Benefits.

Réduction/élimination des obstacles aux prestations provinciales d'assurance-maladie et d'invalidité

Le DRSS est responsable de communiquer avec les partenaires provinciaux et territoriaux afin d'aider à réduire/éliminer les obstacles qui empêchent les délinquants d'obtenir toutes les prestations provinciales/territoriales d'assurance-maladie et d'invalidité auxquelles ils ont droit.

4. Reasonable access to non essential health care / Accès raisonnable aux services non essentiels

Non-essential health care will be at the inmate's complete expense including consultation fees, and at the discretion of the Institutional Head, any associated escort costs. Health Services will assist with the coordination of arrangements for inmate requested services¹. Inmate access to non-essential health care will be in accordance with:

[Protocol: Requests for Non-Essential Health Services: Paid by the Inmate](#)

Le détenu devra assumer tous les frais associés aux soins de santé non essentiels, y compris les frais de consultation, et, à la discrétion du directeur de l'établissement, tous les coûts associés aux escortes connexes. Les Services de santé contribueront à la coordination des dispositions requises pour les services demandés par le détenu². L'accès du détenu aux soins de santé non essentiels sera accordé conformément au :

[Protocole : Demandes de services de santé non essentiels : Payés par le détenu](#)

5. Guiding considerations for decisions about essential and non-essential health care / Principes directeurs relatifs aux décisions sur les services essentiels et non essentiels

The following guiding principles were considered in the development of the list (and exclusions) of funded health care and are in accordance with relevant legislation, CSC Policy.

Les principes directeurs suivants ont été pris en compte dans l'élaboration de la liste (et les exclusions) des services de santé financés et sont conformes aux lois et aux politiques pertinentes du SCC.

¹ Form 532 (Inmate Request to Encumber/Disburse Funds) is completed by the inmate with the assistance of health services staff

² Form 532 (Inmate Request to Encumber/Disburse Funds) is completed by the inmate with the assistance of health services staff

Health outcomes are a shared responsibility between service providers and inmates.

Inmates are expected to assume responsibility for safeguarding their health.

In meeting its mandate to provide essential health care, CSC should not normally exceed the level of health care available through provincially public-funded health and social services programs.

In developing the essential health care framework, CSC considers the nature and level of health care coverage provided by provincial/territorial publicly funded health care systems.

Incarceration presents an important public health opportunity to promote and protect the health of a population with a high comorbidity of diseases at high risk of contracting and spreading infectious diseases.

These principles recognize that the determination about which service is required for an inmate relies on the judgement of the healthcare professionals, based on a sound clinical assessment guided by professionally accepted standards of practice.

Les prestataires de soins et les détenus sont conjointement responsables des résultats dans le domaine de la santé.

Les détenus devraient assumer la responsabilité de la protection de leur santé.

Normalement, dans l'exécution de son mandat relatif à la prestation de services essentiels, le SCC ne doit pas dépasser le niveau des services de santé disponibles dans les réseaux de santé publics et de services sociaux provinciaux.

Dans le cadre de l'élaboration du cadre des soins de santé essentiels, le SCC tient compte de la nature et du niveau de la couverture des soins de santé fournie par les réseaux de santé publics provinciaux/territoriaux.

Sur le plan de la santé publique, l'incarcération est une occasion de favoriser et de protéger la santé d'une population ayant un taux de comorbidité élevé, ainsi qu'un risque élevé de contracter et de propager des maladies infectieuses.

Ces principes reconnaissent qu'il appartient aux professionnels de la santé de décider des services à dispenser aux détenus, en fonction de l'évaluation clinique effectuée, et conformément aux normes professionnelles acceptées.

**Appendix A. List of Health Care, Medical Equipment and Supplies /
Liste des services de santé, équipement et matériel médical**

(some items that Health Services does not provide may be provided by other departments)

The approved list identifies items/services according to "approved", "not approved", and "by special authorization".

Items/services listed as "approved" can be implemented routinely at the institutional level.

Items/services listed as "by special authorization" require regional approval by the Manager, Clinical Services; and,

The determination about the health care requirements for a particular inmate relies on the judgement of the healthcare professionals, based on clinical assessment guided by professionally accepted standards of practice. The requested special authorization must be recommended by the Institutional Physician/Nurse Practitioner or Dentist along with the medical justification for the request.

Gender Dysphoria specialized services require endorsement by a health care professional in gender identity, as well as approval by the surgeon to perform certain surgical interventions (e.g., gender-affirming surgery).

(certains articles que les Services de santé ne fournissent pas peuvent être fournis par d'autres services)

La liste approuvée précise les articles/services classés selon les catégories « approuvé », « non approuvé » et « sur autorisation spéciale ».

Les articles/services « approuvés » peuvent être mis en œuvre régulièrement à l'échelle de l'établissement.

Les articles/services « sur autorisation spéciale » exigent l'approbation régionale du gestionnaire, Services cliniques; et,

Il appartient aux professionnels de la santé de décider des besoins en soins de santé d'un détenu particulier, en fonction de l'évaluation clinique effectuée, et conformément aux normes professionnelles acceptées. L'autorisation spéciale demandée doit être recommandée par le médecin/l'infirmier praticien ou le dentiste en établissement, lequel doit fournir une justification médicale de la demande.

Les services spécialisés en dysphorie sexuelle doivent être approuvés par un professionnel de la santé dans le domaine de l'identité de genre, ainsi que par le chirurgien en vue de la réalisation de certaines interventions chirurgicales (p. ex. opération d'affirmation du genre).
