PART 2 – BIDDER INSTRUCTIONS

1. Standard Instructions, Clauses and Conditions

All instructions, clauses and conditions identified in the bid solicitation by number, date and title are set out in the [Standard Acquisition Clauses and Conditions](https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual) (<https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual>) Manual issued by Public Works and Government Services Canada.

The 2003 (2022-03-29) Standard Instructions - Goods or Services - Competitive Requirements, are incorporated by reference into and form part of the bid solicitation.

2. Submission of Bids

Bids must be submitted only to The Office of the Superintendent of Financial Institutions (OSFI) by the date, time and email address indicated on page 1 of the bid solicitation.

Bids transmitted by facsimile to OSFI will not be accepted.

2.1 Improvement of Requirement During Solicitation Period

Should bidders consider that the specifications or Statement of Work contained in the bid solicitation could be improved technically or technologically, bidders are invited to make suggestions, in writing, to the Contracting Authority named in the bid solicitation. Bidders must clearly outline the suggested improvement as well as the reason for the suggestion. Suggestions that do not restrict the level of competition nor favour a particular bidder will be given consideration provided they are submitted to the Contracting Authority at least 15 calendar days before the bid closing date. Canada will have the right to accept or reject any or all suggestions.

3. Former Public Servant

Contracts awarded to public servants (FPS) in receipt of a pension or of a lump sum payment must bear the closest public scrutiny and reflect fairness in the spending of public funds. In order to comply with Treasury Board policies and directives on contracts with FPS, bidders must provide the information required below before contract award.

Definitions

For the purposes of this clause, "former public servant" is any former member of a department as defined in the [Financial Administration Act](#), R.S., 1985, c. F-11, a former member of the Canadian Armed Forces or a former member of the Royal Canadian Mounted Police. A former public servant may be:

- a. an individual;
- b. an individual who has incorporated;

- c. a partnership made of former public servants; or
- d. a sole proprietorship or entity where the affected individual has a controlling or major interest in the entity.

"lump sum payment period" means the period measured in weeks of salary, for which payment has been made to facilitate the transition to retirement or to other employment as a result of the implementation of various programs to reduce the size of the Public Service. The lump sum payment period does not include the period of severance pay, which is measured in a like manner.

"pension" means a pension or annual allowance paid under the [Public Service Superannuation Act](#) (PSSA), R.S., 1985, c.P-36, and any increases paid pursuant to the [Supplementary Retirement Benefits Act](#), R.S., 1985, c.S-24 as it affects the PSSA. It does not include pensions payable pursuant to the [Canadian Forces Superannuation Act](#), R.S., 1985, c.C-17, the [Defence Services Pension Continuation Act](#), 1970, c.D-3, the [Royal Canadian Mounted Police Pension Continuation Act](#), 1970, c.R-10, and the [Royal Canadian Mounted Police Superannuation Act](#), R.S., 1985, c.R-11, the [Members of Parliament Retiring Allowances Act](#), R.S., 1985, c.M-5, and that portion of pension payable to the [Canada Pension Plan Act](#), R.S., 1985, c.C-8.

Former Public Servant in Receipt of a Pension

As per the above definitions, is the Bidder a FPS in receipt of a pension? **Yes () No ()**

If so, the Bidder must provide the following information, for all FPS in receipt of a pension, as applicable:

- a. name of former public servant;
- b. date of termination of employment or retirement from the Public Service.

By providing this information, Bidders agree that the successful Bidder's status, with respect to being a former public servant in receipt of a pension, will be reported on departmental websites as part of the published proactive disclosure reports in accordance with [Contracting Policy Notice: 2012-2](#) and the [Guidelines on the Proactive Disclosure of Contracts](#).

Work Force Adjustment Directive

Is the Bidder a FPS who received a lump sum payment pursuant to the terms of the Work Force Adjustment Directive? **Yes () No ()**

If so, the Bidder must provide the following information:

- a. name of former public servant;
- b. conditions of the lump sum payment incentive;
- c. date of termination of employment;
- d. amount of lump sum payment;
- e. rate of pay on which lump sum payment is based;

- f. period of lump sum payment including start date, end date and number of weeks;
- g. number and amount (professional fees) of other contracts subject to the restrictions of a work force adjustment program.

For all contracts awarded during the lump sum payment period, the total amount of fees that may be paid to a FPS who received a lump sum payment is \$5,000, including Applicable Taxes.

4. Enquiries – Bid Solicitation

All enquiries must be submitted in writing to the Contracting Authority no later than five (5) calendar days before the bid closing date. Enquiries received after that time may not be answered.

Bidders should reference as accurately as possible the numbered item of the bid solicitation to which the enquiry relates. Care should be taken by bidders to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the questions or may request that the Bidder do so, so that the proprietary nature of the question is eliminated, and the enquiry can be answered with copies to all bidders. Enquiries not submitted in a form that can be distributed to all bidders may not be answered by Canada.

5. Extension of Time

If additional time is required by the Bidder, the Contracting Authority may grant an extension at his or her sole discretion.

6. Applicable Laws

Any resulting contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in Ontario.

Bidders may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their bid, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of their choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the bidders.

PART 3 – BID PREPARATION INSTRUCTIONS

1. Bid Preparation Instructions

(a) Canada requests that bidders provide their bid in separately bound sections as follows:

- Section I: Technical Bid (one (1) soft copy via e-mail).
- Section II: Financial Bid (one (1) soft copy via e-mail).
- Section III: Certifications (one (1) soft copy via e-mail).

Prices must appear in the financial bid only. No prices must be indicated in any other section of the bid.

Canada requests that bidders follow the format instructions described below in the preparation of their bid:

1. use a numbering system that corresponds to the bid solicitation.
- (b) Multiple bids from the same bidder are not permitted in response to this bid solicitation. Each bidder must submit only a single bid. If any bidder submits more than one bid, Canada will choose in its discretion which bid to consider.

For electronic bid:

- (a) Unless specified otherwise in the RFP, bids must be received by the Contract Authority at the location identified by the date, time and place indicated on page 1 of the solicitation.
- (b) If your bid is transmitted by electronic mail, Canada will not be responsible for late bids received at destination after the closing date and time, even if it was submitted before.

Section I: Technical Bid

In their technical bid, bidders should explain and demonstrate how they propose to meet the requirements and how they will carry out the Work.

Section II: Financial Bid

Bidders must submit their financial bid in accordance with the Basis of Payment. The total amount of Applicable Taxes must be shown separately.

All Costs to be Included: The financial bid must include all costs for the requirement described in the bid solicitation for the entire Contract Period, including any option years. The identification of all necessary equipment, software, peripherals, cabling and components required to meet the requirements of the bid solicitation and the associated costs of these items is the sole responsibility of the Bidder.

Blank Prices: Bidders are requested to insert “\$0.00” for any item for which it does not intend to charge or for items that are already included in other prices set out in the tables. If the Bidder leaves any price blank, Canada will treat the price as “\$0.00” for evaluation purposes and may request that the Bidder confirm that the price is, in fact, \$0.00. No bidder will be permitted to add or change a price as part of this confirmation. Any bidder who does not confirm that the price for a blank item is \$0.00 will be declared non-responsive.

Section III: Certifications

Bidders must submit the certifications required under Part 5.

PART 4 – EVALUATION PROCEDURES AND BASIS OF SELECTION

1. Evaluation Procedures

- (a) Bids will be assessed in accordance with the entire requirement of the bid solicitation including the technical and financial evaluation criteria.
- (b) An evaluation team composed of representatives of Canada will evaluate the bids.
- (c) **Requests for Clarifications:** If Canada seeks clarification or verification from the Bidder about its bid, the Bidder will have 2 working days (or a longer period if specified in writing by the Contracting Authority) to provide the necessary information to Canada. - (d) **Requests for Interviews:** If Canada wishes to interview the Bidder and/or any or all of the resources proposed by the Bidder to fulfill the requirements of the bid solicitation, the Bidder will have 2 working days (or a longer period if specified in writing by the Contracting Authority) following notice by the Contracting Authority to make any necessary arrangements (at the Bidder’s sole cost) for the interview to take place at a location specified by Canada.

3. Basis of Selection

Highest Combined Rating of Technical Merit and Price

1. To be declared responsive, a bid must:
 - (a) comply with all the requirements of the bid solicitation; and
 - (b) meet all mandatory criteria; and
 - (c) obtain the required minimum of 70 points overall for the technical evaluation criteria.
The rating is performed on a scale of 125 points.
2. Bids not meeting (a) or (b) or (c) will be declared non-responsive.
3. The selection will be based on the highest responsive combined rating of technical merit and price. The ratio will be 70 % for the technical merit and 30 % for the price.
4. To establish the technical merit score, the overall technical score for each responsive bid will be determined as follows: total number of points obtained / maximum number of points available multiplied by the ratio of 70%.
5. To establish the pricing score, each responsive bid will be prorated against the lowest evaluated price and the ratio of 30 %.
6. For each responsive bid, the technical merit score and the pricing score will be added to determine its combined rating.
7. Neither the responsive bid obtaining the highest technical score nor the one with the lowest evaluated price will necessarily be accepted. The responsive bid with the highest combined rating of technical merit and price will be recommended for award of a contract.
8. Where two or more proposals achieve the identical highest combined rating of technical merit and price, the proposal with the highest technical score will be recommended for award of a contract.

The table below illustrates an example where all three bids are responsive and the selection of the contractor is determined by a 70/30 ratio of technical merit and price, respectively. The total available points equal 135 and the lowest evaluated price is \$45,000 (45).

Basis of Selection - Highest Combined Rating Technical Merit (70%) and Price (30%)			
	Bidder		
	Bidder 1	Bidder 2	Bidder 3
Overall Technical Score	115/155	89/155	92/155
Bid Evaluated Price	\$55,000.00	\$50,000.00	\$45,000.00
Calculations			
Technical Merit Score	$115/155 \times 70 = 51.94$	$89/155 \times 70 = 40.19$	$92/155 \times 70 = 41.55$
Pricing Score	$((45-55)/45) + 1 \times 30 = 23.33$	$((45-50)/45) + 1 \times 30 = 26.67$	$((45-45)/45) + 1 \times 30 = 30.00$
Combined Rating	75.27	66.86	71.55
Overall Rating	1st	3rd	2nd

4. Security Requirement

1.1 Before award of a contract, the following conditions must be met:

- (a) the Bidder must hold a valid organization security clearance as indicated in Part 6 - Resulting Contract Clauses;
- (b) the Bidder's proposed individuals requiring access to classified or protected information, assets or sensitive work site(s) must meet the security requirement as indicated in Part 6- Resulting Contract Clauses;
- (c) the Bidder must provide the name of all individuals who will require access to classified or protected information, assets or sensitive work sites.

1.2 Bidders are reminded to obtain the required security clearance promptly. Any delay in the award of a contract to allow the successful bidder to obtain the required clearance will be at the entire discretion of the Contracting Authority.

1.3 For additional information on security requirements, bidders should consult the "Security screening for government contracts" (<http://www.tpsgc-pwgsc.gc.ca/esc-src/introduction-eng.html>).

PART 5 – CERTIFICATIONS

Bidders must provide the required certifications and documentation to be awarded a contract.

The certifications provided by bidders to Canada are subject to verification by Canada at all times. Canada will declare a bid non-responsive, or will declare a contractor in default if any certification made by the Bidder is found to be untrue whether during the bid evaluation period or during the contract period.

The Contracting Authority will have the right to ask for additional information to verify the Bidder's certifications. Failure to comply with this request will also render the bid non-responsible or will constitute default under the Contract.

1. Mandatory Certifications Required Precedent to Contract Award

1.1 Integrity Provisions - Declaration of Convicted Offences

In accordance with the [Integrity Provisions of the Standard Instructions](http://www.tpsgc-pwgsc.gc.ca/ci-if/declaration-eng.html), all bidders must provide with their bid, if applicable, the Integrity declaration form available on the Forms for the Integrity Regime website (<http://www.tpsgc-pwgsc.gc.ca/ci-if/declaration-eng.html>), to be given further consideration in the procurement process.

1.2 Integrity Provisions – Required Documentation

In accordance with the [Ineligibility and Suspension Policy](http://www.tpsgc-pwgsc.gc.ca/ci-if/politique-policy-eng.html) (<http://www.tpsgc-pwgsc.gc.ca/ci-if/politique-policy-eng.html>), the Bidder must provide the required documentation, as applicable, to be given further consideration in the procurement process.

1.3 Certifications Precedent to Contract Award and Additional Information

The certifications and additional information listed below should be submitted with the bid, but may be submitted afterwards. If any of these required certifications or additional information is not completed and submitted as requested, the Contracting Authority will inform the Bidder of a time frame within which to provide the information. Failure to provide the certifications or the additional information listed below within the time frame provided will render the bid non-responsive.

1.3.1. Federal Contractors Program for Employment Equity – Bid Certification

By submitting a bid, the Bidder certifies that the Bidder, and any of the Bidder's members if the Bidder is a Joint Venture, is not named on the Federal Contractors Program (FCP) for employment equity "FCP Limited Eligibility to Bid" list (<http://www.hrsdc.gc.ca/eng/labour/index.shtml>) available from Human Resources and Skills Development Canada (HRSDC) - Labour's website.

Canada will have the right to declare a bid non-responsive if the Bidder, or any member of the Bidder if the Bidder is a Joint Venture, appears on the "FCP Limited Eligibility to Bid" list at the time of contract award.

1.3.2. Status and Availability of Resources

The Bidder certifies that, should it be awarded a contract as a result of the bid solicitation, every individual proposed in its bid will be available to perform the Work as required by Canada's representatives and at the time specified in the bid solicitation or agreed to with Canada's representatives. If for reasons beyond its control, the Bidder is unable to provide the services of an individual named in its bid, the Bidder may propose a substitute with similar qualifications and experience. The Bidder must advise the Contracting Authority of the reason for the substitution and provide the name, qualifications and experience of the proposed replacement. For the purposes of this clause, only the following reasons will be considered as beyond the control of the Bidder: death, sickness, maternity and parental leave, retirement, resignation, dismissal for cause or termination of an agreement for default.

If the Bidder has proposed any individual who is not an employee of the Bidder, the Bidder certifies that it has the permission from that individual to propose his/her services in relation to the Work to be performed and to submit his/her résumé to Canada. The Bidder must, upon request from the Contracting Authority, provide a written confirmation, signed by the individual, of the permission given to the Bidder and of his/her availability.

The Contractor (Service Provider) must also upgrade OSFI’s Poly equipment platform to Poly Clarity 2.0 by end of June of 2023.

Appendix A of this SOW defines the existing videoconference room types

Appendix B of this SOW lists all videoconference rooms and other Poly equipment and licensing to be covered by the Service Provider. It also lists the initial term period.

During the period of service, OSFI may add new rooms or locations to be covered under this agreement. The Service Provider will cover these additional services in consultation with OSFI.

2. Scope of Work

The Service Provider must provide maintenance, licensing and software updates on an as and when requested basis for the videoconference equipment at OSFI over the period of the contact.

The Vendor will be responsible to migrate OSFI from the current “a-la-carte” licensing platform on OSFI infastucture to the new Poly Clarity 2.0 subscription based licensing prior to June 2023 (starting

with 10 annual subscription licenses). This process will also include the migration of OSFI RPRM (Resource Manager) to the Clarity Manager 2.0.

3. Tasks and Deliverables

3.1. Maintenance

Work under this contract is comprised of the supply of all labour, materials, tools, equipment, transportation and supervision necessary for the inspection, testing, certification, maintenance and repairing of existing videoconference equipment. Poly (HP) Devices under this contract will be covered using Poly Plus (not partner).

3.2. Migration to Poly Clarity 2.0

Work under this contract is comprised of the supply of all labour, licensing, installation and configuration for migrating OSFI infrastructure (including the migration of the RPRM to Clarity Manager) to the new Poly Clarity 2.0 subscription based licensing by June 2023 (starting with 10 annual subscription licenses).

4. Technical Support

For all audio-visual and videoconference equipment covered by this contract, upon receipt of an Incident report or upon request from OSFI by email or phone, the Service Provider must provide remote guidance and advice by telephone, email, or screen sharing, enabling the OSFI to troubleshoot, manage and resolve Incidents related to those Devices. Table 2: Service Provider Technical Support - Minimum Response Times	
Severity Level	Minimum Response Time
1 – Urgent: An Incident that renders the Equipment unusable or results in the inability of all end users to use the Device. No immediate work-around is available.	Service Provider technical staff begins work on the Incident immediately and updates the Customer on status within 30 minutes from creation of a trouble ticket. Service Provider gives the Customer a further update and confirmation of whether the Incident is a Device failure or not within one hour from creation of a trouble ticket
2 – High: An Incident causing a partial outage or major degradation of Device functionality, or which results in the inability of some end users to use the Device. A work-around is limited or not available.	Service Provider technical staff begins work on the Incident and updates the Customer on status within one hour from creation of a trouble ticket. Service Provider gives the Customer a further update and confirmation of whether the Incident is a Device failure within four hours from creation of a trouble ticket.

<p>3 – Medium: A sporadic or isolated Incident causing a minor degradation of the Device impacting a limited number of end users. A work-around is available or not required.</p>	<p>Service Provider technical staff begins work on the Incident and updates the Customer on status by 10:00 a.m. on the next available Business Day post creation of the trouble ticket.</p>

The Service Provider must dispatch a technician to the Service Address to perform Incident diagnosis and must make a reasonable effort to dispatch the technician within the response times in Table 3. When dispatching a technician, the Service Provider must contact OSFI to arrange access to the Device at the Service Address. Under emergency situations (Specifically Urgent/High Severity Levels in Montreal and Vancouver), OSFI reserves the right to have a technician dispatched without initial verification from technical support, at no additional costs. Response times as specified in Table 3 to apply.

6. Original Equipment Manufacturer warranty

If a faulty Device is the cause of the issue(s) and a replacement Device or repair is required, the Service Provider will verify, validate and orchestrate any warranty claims with the OEMs on OSFI's behalf. The Service Provider must remove the defective Device from service and give it to OSFI. OSFI is then responsible for packaging, shipping and insuring the defective Device for delivery to the OEM.

When the replacement Device has been delivered to the Service Address whether supplied by the OEM under warranty, by OSFI from its spare pool, or by purchase from the Service Provider, the Service Provider must dispatch a technician to the Service Address (as per Table 3 based on room availability to be confirmed by OSFI). Upon arrival, the Service Provider technician must install the replacement Device, apply the previous working configuration as specified by OSFI, and to ensure the Device is working as expected.
