

AMENDMENT 002

PURPOSE:

The purpose of this amendment is to amend the closing date to 19th April, 2023 and to answer questions received.

Question 1:

Reference Attachment 1A to Part 4, Mandatory Technical Criteria M1

Are company-owned quality procedures that follow the same ISO standards acceptable?

In response to the contractor question, "Are company-owned quality procedures that follow the same ISO standards acceptable?"

The TAM stipulates that organizations must demonstrate ongoing compliance with the acceptable quality management standard. Although ISO 9001 is among the recognised QMS, there is other acceptable third party QMS, examples can be found in Section 2 of the TAM.

Question 2:

Reference Attachment 1A to Part 4, Mandatory Technical Criteria M2

Can you provide a copy of the Technical Airworthiness Manual (TAM) to Bidders?

The TAM publication is available on Canada.ca by typing in the web browser search "Technical Airworthiness Manual". In regards to the requirement of ISO9001 I am seeking advise from DTAES and I will get back to you.

All other terms and conditions remain unchanged.
