Solicitation Amendment # 007

This amendment is hereby raised :

- 1. To update Annex A – Statement of Work (SOW), SOW Item S 1.0 Section S.1.5.1.**
 - 2. To update Annex A – Statement of Work 9SOW), SOW Item 14.13 section C.1 General.**
-

- 1. To update Annex A – Statement of Work (SOW), SOW Item S 1.0 Section S.1.5.1.**

- Section S.1.5.1:

Delete the existing paragraph in its entirety and replace it with the following:

S.1.5.1 The Contractor must supply 480 Volt Alternating Current, 60 hertz, 3 Phase, 4 wire with floating neutral, 300 Ampere electrical power, through the vessel's shore power system, for the duration of the contract. The 480 VAC power must be supplied through a CFM shore-side isolation transformer and connected to the vessel's direct feed, by-passing the vessel's 600VAC/460VAC shore transformer.

- 2. To update Annex A – Statement of Work 9SOW), SOW Item 14.13 section C.1 General.**

Under SOW item 14.13 – Shore Power System

Add the following paragraphs to 14.13.C Statement of Work – Section C 1. General:

- C.1.7 The Contractor must coordinate the Shore Power Transformer installation with SOW items 14.2 – Motor Control Centers and 14.6 - Switchboards.
- C.1.8 The Contractor is responsible to isolate, lockout, and tagout all circuits including isolation of both the Main and the Emergency buses from the Shore Power System. The Contractor is responsible to provide power, lighting, and heating to the vessel during the time that the Shore Power System is undergoing replacement. All temporary power is to be at the Contractor's expense and all power supplies to the fire detection systems must be maintained. The Contractor must factor in the loss of the power services provided by the Shore Power System to ensure there is no impact to the production schedule.
