This notice is raised to cancel the Invitation to Qualify process number W8483-197521/B, including the re-issued Invitation to Qualify process number W8483-197521/C (together forming the "ITQ"), in accordance with clause 2.3 of the ITQ.

Since 2018, Canada has been engaged in a Sustainment Business Case Analysis (SBCA) for the Victoria-class Submarines (VCS). The initial focus of this SBCA was to validate the in-service support requirements for the VCS fleet until their end of life. The SBCA has identified gaps in the original requirement and areas for alternative approaches to the in-service support of the VCS. This has resulted in a new construct which differs from the one presented to industry in 2019.

Given this change in requirement and the time lapse of over three (3) years since the ITQ was issued, Canada is cancelling the ITQ. Cancellation of the ITQ will allow Canada the opportunity to develop a procurement strategy that best addresses the requirements which have resulted from the SBCA. It will also provide an opportunity to all of industry to participate in the procurement thus ensuring that the principles of an open, fair and transparent procurement process are upheld.

As the VISSC II SBCA process progresses, we will be engaging with Industry on key aspects of the procurement strategy.

We look forward to hearing your feedback during the upcoming engagement activities.
