Solicitation Amendment # 020

This amendment is hereby raised :

1. To include Questions and the Responses for the solicitation.
-

1. Questions and the Responses for the solicitation.

Q#1: SOW item 12.20

Is the allowance in the Spec 12.20.C.1(Bow Thruster) include the cost of Kongsberg FSR service or only the travel expenses?

A#1: Yes the allowance will only cover the travel, living and accommodation expenses. Not the FSR services.

Q#2: SOW item 11.2

The pricing data sheet for the line item 11.2.C.2.7 mentions 'applying 2 coats of a bitumastic anti-corrosion coating applied to the internals of valve bodies,' however the same number in the SOW says 'that all moving parts and fasteners must be coated with an anti-siezing compound.' The PDS also asks for pricing on 20 valves while there is 90 valves in the spec. Can you please clarify which of these we should be quoting on?

A#2: The Contractor must only apply 2 coats of bitumastic anticorrosion to the internal of all the valve bodies (90 Valves). PDS will be updated to reflect the number of valves accordingly. We also mentioned in AMD #008 Q#31 that the Contractor needs to expect a 20% valve replacement but this will be the outcome of the inspection and the new valves will be negotiated via a PWGSC 1379.

Q#3: SOW item 14.2

Based on the amendment No. 017, is it possible to amend the requirement C3.7 requesting an arc-resistant construction and an arc flash mitigation for the MCC ?

A#3:

Delete Para C.3.7 in its entirety.

Modify Para C.3.9.e) as follows (edits are in ***bold italics***):

Each vertical standard section must have all the necessary hardware and bussing for modular plug-on units to be added and moved around. All unused space must be covered by hinged blank doors or appropriate cover plate and equipped to accept future units. Vertical bus openings must be covered by ~~manual~~ ***automatic*** bus shutters;

End of Solicitation Amendment #020.
