Solicitation Amendment # 024

This amendment is hereby raised :

1. To include Questions and the Responses for the solicitation.
2. To update SOW item 12.16 Rudder and Steering Gear REV.01 section B.1.8 (English Version only).

1. Questions and the Responses for the solicitation.

Q#1: SOW item 16.13

Do the unit prices requested in C.2.7 cover the piping replacement costs specified in C.2.4 a) to h)?

A#1: Yes. That is Correct.

Q#2: SOW item 16.13

Does the "bâche" in the French specification or "hot well" in the English specification quoted in C.2.4 d) correspond to the "condensate tank" in drawing 664-4203-2?

A#2: The "hot well" refers to the condensate tank located in drawing 521-353-001s1. See attached photo of condensate tank, feed pumps and check valves (starboard boiler in background of photo).

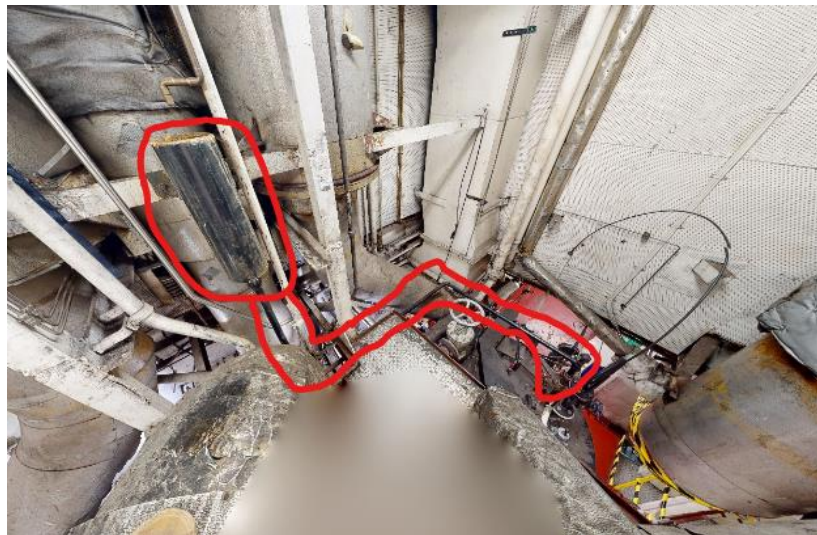

Q#3: SOW item 16.13

Does the wedging tank quoted in C.2.4 f) correspond to the observation tank on drawing 664-4203-2?

A#3: No. The wedging tank is not shown on the drawings. It is a section of open-vented pipe (roughly 8" diameter) mounted 1 deck above the boilers. It is piped to the top of each boiler and connected by isolation valves to the steam space. It is used for pressing the boilers with fresh water and storage chemicals when they are out of service. The

wedging tank and it's connection to the Port Boiler is shown below. Note the potable water supply line (copper) above the wedging tank for filling the boiler.

2. To update SOW item 12.16 Rudder and Steering Gear REV.01 section B.1.8 (English Version only).

Delete Para.B.1.8 in its entirety.

And replace with the following (edits in **bold italic and highlighted**):

B.1.8 VapCor Marine (FSR)

The Contractor must engage the services of a **VapCor Marine FSR** for all work related to the rudder float coating. The Contractor must include an allowance of **\$5,000** for the FSR services. Travel and living expenses must be billed at cost without added overhead or profit. The **\$5,000** allowance must form part of the overall bid and must be adjusted up or down, using a PWGSC 1379 work arising or new work form, upon receipt of the final FSR's invoice, supported by copies of all related documentation, must be supplied to verify all actual expenses.

End of Solicitation Amendment #024.
