NOTE: This notice is published as a continuance of, and is directly related to RFP # F7013-220304 published August 18, 2023

Amendment #001 is raised to:

1. To address questions raised during the RFP solicitation process.

1. Respond to Vendor Questions

Q1: Is the carrying pouch just for the 2 x MNVG mounted on the bridge assembly, clipped into the flip-up mount and head mount and meant to fit inside the kit pouch which would also hold the cleaning kit, manuals etc..?

A1: Yes, the carrying pouch is intended to contain the MNVG attached to the head mount, allowing the user to easily take this from the kit pouch and carry it to its place of use – i.e. up to the flybridge – without taking all of the kit contents.

Q2: Would a fully waterproof hard transit case that can be locked be a solution to hold the carrying pouch and the rest of the kit contents?

A2: A waterproof hard case would be beneficial and acceptable.

Q3: Do they want 2 monocular so that they can use it as 1 binocular or as 2 monocular?

A3: The MNVGs will typically be used as a single monocular with the head mount, leaving the operator with one available unaided eye. The ability to configure two monocular together provides an additional option to the user. For this reason the Coast Guard is not interested in changing to a binocular only device.

Q4: When would you expect the 20 units to be delivered by? It is understood the contract duration is for 5 years, but that's assuming it includes the support phase also.

A4: For the 10 MNVG kits (2 monocular in each kit), the following delivery timeline would be acceptable:

-6 as soon as possible (these are for vessels already in service)

-2 delivered by April, 2024

-2 delivered by January, 2025

All enquiries and other communications related to this RFP process shall be directed exclusively to the PSPC Contracting Authority.
