Solicitation Amendment 003

This amendment is raised to respond to additional questions from bidders (#5)

BIDDER'S QUESTIONS AND CANADA RESPONSES

Question number	Ref. sec.	Description	Question	Response
1	RFP	RFP Closing Date	Will Canada extend the solicitation closing date by one week ?	Canada has extended the Solicitation closing date to November 7, 2023 at 2 p.m. (Eastern Time).
2	Annex "A"	4.13	Is a transom thickness of 24 mm (0.95") acceptable?	Transom thickness should be between 1 3/8" to 1 3/4"
3	Annex "A"	4.15	Is a model capable of supporting an outboard motor weight of 90 lbs acceptable?	Yes, the maximum outboard weight is 90lbs.
4	Annex "A"	6.2	The Specification requires compliance with ISO 6185-3:2014 'Inflatable boats — Part 3: Boats with a hull length less than 8 m with a motor rating of 15 kW and greater" A- Small inflatable boats are addressed in chapter 2: ISO 6185-2, is this a typo? B- Is a model with a hull length less than 8 m but a maximum HP rating of 7 kW acceptable? (which is compliant with the 10HP rating requested in 4.14).	A - Our research led us to ISO 6185-3:2014 addressing the max HP rating for hull lengths less than 8m. However, after further review, Part 2 is the correct ISO standard to be applied. B- Acceptable.
5	Q&R	Answer 2	A- With regard to Q#2 answer, does the response "should be" indicate that the client would consider a transom thickness of 0.95"? B- Clause 4.13 is preceded by the statement "Each inflatable boat delivered by the Contractor must... ", Will a submission at 0.95" be dismissed as non compliant?	A – The transom thickness must be a minimum of 1 3/8" B- 0.95" is non compliant.

ALL OTHER TERMS AND CONDITIONS REMAIN UNCHANGED.
