TENDER ADDENDUM

Architectural Services for NCC Workplace Modernization – Lisgar Road Offices

ES038

December 4, 2023

ADDENDUM No. 6

The following questions and answers shall be read in conjunction with and shall form an integral part of the Tender / Proposal and Contract Documents:

- **Question 101:** By participating on the consulting team, would our group still be eligible to bid on the procurement and construction portions of the project regarding photovoltaic Design Services?

Answer 101: The photovoltaic design services will be performance based in order to deliver a generic tender package. While a PV consultant was identified in the RFP, these services could be delivered by the electrical subconsultant. Any subconsultant responsible for the PV design will not be eligible to bid on the construction phase of the project.

Note that the question period closed on November 27, 2023 and no further questions will be accepted.
