Description of Work:

SMSRC requires the services of a system analyst to support systems engineering activities for the Confide & Help Confide applications. This includes the creation and maintenance of workflow, process, and data flow diagrams, understanding and mapping the system as it is developed, attending technical meetings, and creating all required deliverables in visual and written format.

- The work is currently not being performed by a contracted resource

Security Requirement: The Contractor must, at all times during the performance of the Contract, hold a valid Designated Organization Screening (DOS), and obtain approved Document Safeguarding Capability at the level of PROTECTED B, issued by the Contract Security Program (CSP), Public Works and Government Services Canada (PWGSC). The Contractor personnel requiring access to PROTECTED information, assets, or sensitive site(s) must EACH hold a valid RELIABILITY STATUS, granted or approved by the CSP, PWGSC.

Minimum Corporate Security Required: *Designated Organization Screening (DOS Reliability)*

Minimum Resource Security Required: *Reliability*

Document Safeguarding : *Protected B*
