

March 5, 2024

REFERENCE: Solicitation number W847S-100039 - Earned Value Management System

SUBJECT: NOTICE OF EXTENTION AND MODIFICATION

To whom it may concern,

On December 7th, 2023, the Department of National Defence (DND) released a [Request For Information \(RFI\) on Earned Value Management Systems \(EVMS\)](#)¹ and related project management practice which was set to close on March 1st, 2024.

Due to increased interest in the subject, the RFI closing date has now been extended to March 15th, 2024, to allow as much participation as possible. While the RFI's primary focus is to present DND's EVMS strategy, it also requests Industry feedback on establishing a joint DND/Industry Project Management Forum and on a newly proposed basis of payment which seeks to accelerate cash flow by reducing the time between work expenditures and the receipt of payment.

Additionally, the RFI's questionnaire has been modified. The numbers of mandatory questions have significantly been reduced. Participants now have greater flexibility when submitting their response.

Your input is invaluable as it will help shape DND's EVMS strategy.

Regards,

Kevin Fitzpatrick
Director Project Management Support Organization
Department of National Defence
