**Closing Date :**

The closing date for receiving proposals is **January 31, 2024, 2:00 p.m. (Eastern Standard Time)**.

**Questions and Answers**

- Q3. I am wondering if you can please clarify something for me as it is not entirely clear in the RFP or instructions. With regards to section 5.2.2 of the RFP (Security Requirements), we are assuming that DFO will request the Application for Registration and online personnel security forms at some point in the procurement process as appropriate (ie. these are not required to be submitted with the bid). Can you please confirm if this is correct?
- A3. Given that there is no security requirement for this requirement, there is no security documents required with the bid. As stated in 5.2.2 : "Bidders are reminded to obtain the required security clearance and, as applicable, security capabilities promptly."

All other Terms and Conditions for this requirement remain unchanged.
