Description of Work:

The Digital Services Branch (DSB) of Public Works and Government Services Canada (PWGSC) requires Informatics Professional Services to support its Network Modernization Program (NMP).

The aim of the NMP is to provide PWGSC with innovative and cutting-edge processes, services, tools, technology, and network capacity that supports a modern, hybrid working environment and ensures robust infrastructure and network reliability and stability.

The Contractor's qualified resources will assist PWGSC technical staff with engineering, infrastructure and network initiatives and provide support on complex issues, emerging technologies, and specialized migrations in the context of the NMP.

Estimated Level of Effort

- The work is currently not being performed by a contracted resource

Resource Category C.3

- The work is currently being performed by TekSystems Canada Corp. under contract (task value of \$120,000)

Indigenous Considerations

The Government of Canada is committed to economic reconciliation with Indigenous peoples and will contribute to improved socio-economic outcomes by increasing opportunities for First Nations, Inuit and Métis businesses through the federal procurement process. The government is implementing a mandatory requirement for federal departments and agencies to ensure a minimum of 5 % of the total value of contracts, including subcontracts, are held by Indigenous businesses. To this end, for this solicitation, additional evaluation points will be allocated to qualified Indigenous bidders.

Security Requirement:

Common PS SRCL #19 applies

Minimum Corporate Security Required:

Facility Security Clearance (FCS) - Secret

Minimum Resource Security Required:

Enhanced Reliability or Secret as required

Contract Authority
